Ryan,

I received updated pricing on the 3/8" chips based on the specifications and gradations you provided below.

To provide the 3/8" chips it would increase the unit price for "CHIPS" on schedule 14 from $2.55/SY to $2.65/SY. If the City is interested, we can provide a formal change order upon contract execution. Thank you.

Rob,

They would like the MPWSS 3/8" chip spec, below is the gradation;

TABLE 2
3/8" SEAL COAT AGGREGATE - TABLE OF GRADATION

Sieve Designation	Percentage of Weight Passing Sieves
1/2-inch Sieve	100
3/8-inch Sieve	85 - 100
No. 4 Sieve	10 - 30
No. 10 Sieve	0 - 10
No. 40 Sieve	0 - 2

Ryan,

Does the City have a specification in mind for the 3/8" chips?

I agree on the pre-precon. Maybe late April/early May?

Robert,

Would you please put a proposal together for any costs difference to change the chip size on Schedule 14 to 3/8" chips? We will keep the other schedules as planned.

I have signed contracts that I will get in the mail tomorrow. We have some issues that we are seeing on some of the soil cement roads that we are working on a gameplan on. Do you think it would be a good idea to do a "pre-preconstruction meeting" to get everyone on the same page?

Thanks,

Ryan Kopp

Ryan,

Have you had any further correspondence with the City or County regarding their preferred chip sizing?
