I am in favor of some kind of public art program. Little off of Byatt, suggestions listed below. I would like to prioritize local artists, I'ver an open to ideas coming other regional artists as well, perhaps in rotating exhibits.

I would like very much to discuss this at a Work Session, especially if we want to set up some kind of program with standards, etc.

Thank you, Jack. Its being both spices public art and fun keeping this conversation going. I am delighted with the opportunity we have for placing art in and around the new Town Hall.

Best,

Amelia

Mayor and Council:

I think some type of public art would be great, however, there has to be some type of public art program set up by Council with your expectations included so that staff can have something to go by. Some areas where there is public art potential on town property are:

1. Retaining local art vendaritists in the new Town Hall
2. Painting of electric boxes around town – there are boxes in Jack Hughes Park that are faded and P&R staff is looking to Lo options.
3. Mural program for the greenway underpasses as a deterrent for the potential of graffiti
4. Public art sculptures on public property around town.

Thank you,
Ryan

John, here are a few images of the sculptures that Carol did and an image of the traffic box I did and the lightbulb that we discussed on our walk a few days ago. Hopefully, these will assist you in efforts with the Town to acquire/commission public art. Let us have any feedback or let us know if we can address any questions. We are committed to bringing public art to our beloved Pineville!

Cordial, Thanks and
