Alabaster, Alabama 35007

Reference: Funding for SR-119 from CR-80 to CR-12 - Phase 2 - STPBH-0119() - 100074590

Dear Mr. Hawkins,

As you know the Birmingham Metropolitan Planning Organization (MPO) has already approved \$1,200,000 of Surface Transportation Program – Birmingham Attributable (STPBH) funding for the right-of-way phase of the subject project. In addition to this funding the following funding has been programmed in the Fiscal Year 2024 to 2027 Transportation Improvement Program (TIP):

Utility Phase - \$500,000 STPBH  
Construction Phase - \$5,000,000 STPBH

This equates to \$6,700,000 of STPBH funding, but does not include local matching funds or the funding that the Alabama Department of Transportation (ALDOT) plans to add to the project.

The FY2024-2027 TIP will be reviewed this summer with a formal adoption by the MPO Policy Committee planned for August 9<sup>th</sup>.

Please call me at (205)-213-6889 if you have any questions.

Sincerely,

Mike Kaczorowski  
Principal Planner for Transportation
