Mr. Brett Tucker, City Engineer  
City of Alabaster  
1953 Municipal Way  
Alabaster, Alabama 35007

**Subject: Mallard Landing Phase 3 Sector 2**  
**Known Deviations from Plan Submittal**  
**Alabaster, Alabama**  
InSite Project No. 15031.00/0.3.2

Dear Mr. Tucker,

After a review of the site, I met with the owner and discussed any known deviations from the original plans submitted to the as constructed state. There are no known deviations for this sector. The site is currently awaiting paving and inlet tops that are scheduled for next week along with final erosion control. Any items not installed next week (i.e. Wearing Surface, Crosswalks, & Street Lights) will be included on the bonding sheet.

If you have any questions or need any additional information, please give us a call at (205)733-9696.

Sincerely,  
InSite Engineering, LLC
