Services	qty	unit price	amount
Wooden Deck Cleaning	900.0	\$0.75	\$675.00

Deck Cleaning

- Pre-soak all vegetation in and near the working area.
- Apply cleaning agent to entire deck (including flooring, stairways, railings, spindles, fascia, benches, support post etc.) board by board.
- Using low pressure, we will rinse the entire deck removing dirt, mildew, wildlife debris, etc., from each board.
- A final rinse of all vegetation and structures in working area is done prior to completion of your service.

Important Information:

- Our goal is to safely clean your home from dirt and mildew. We are not equipped for guaranteed removal of insect and/or birds nests.

-Soft Washing your deck is the safe approach to cleaning your deck. However, loose paint and old stain can be removed with this cleaning. We are not liable for any paint or stain removed by this service.

- Please ensure all windows and doors are sealed prior to our arrival and any exterior outlets are unplugged and covered.

- We will hook up to exterior water spigot as necessary to complete scope of work.

House Soft Wash Cleaning	1000.0	\$0.25	\$250.00
---------------------------------	--------	--------	-----------------

Our House Washing service is designed to safely and effectively remove algae, mildew, and surface grime from your home's exterior using a soft wash system. This low-pressure method protects your siding while restoring its natural appearance.

Soft Wash Procedure:

- We pre-soak all nearby vegetation, doors, and any untreated or stained wood to protect surrounding surfaces.
- A biodegradable cleaning solution is applied from bottom to top across the siding, gutter exteriors, and window frames to break down organic buildup.
- We clean half the house at a time, starting with the dirtiest side to ensure optimal results.
- For homes with stucco siding, our technicians may use a stronger solution (soft wash system or X-Jet) depending on the condition of the surface.
- After the solution, we rinse thoroughly from top to bottom, carefully removing residue and leaving windows and soffits spotless.
- All work is double-checked before moving to the next area to ensure a quality finish.

Important Information:

- * All windows and doors should be sealed prior to our arrival.
- * All exterior outlets should be unplugged and covered.
- * We are unable to guarantee 100% removal of non-organic matter. This includes but is not limited to: oxidation, clay stains, excess mortar debris, paint residue,

oil stains, and rust stains.

* This includes a soft wash of gutter exteriors. However, older, unmaintained gutters may be oxidized, leaving behind a faint gray appearance. If so, your technician will notify you.

* We do not treat for wildlife and are not equipped to guarantee the removal of insect or bird nests.

* For any on-site add-on services, technicians require all areas to be safe and accessible to perform the requested work.

* We connect to your exterior water spigot as needed to complete the service.

Subtotal	\$925.00
