

2025 Clean-up Days:

- **11** trash and C&D rolloffs: no breakdown on construction and demolition debris vs trash; all were treated and billed as trash as the C&D site was inaccessible due to mud from rain.
- **1** rolloff for white goods. Will be recycled.
- **6** gaylords (large cardboard boxes set up on pallets), filled for American Recycling: Computers, printers, keyboards, as well as other items that plug in.
- We collected TV's in our trailer and hauled them to Nebraska Electronics Recycling, approximately 25-30. (no charge for these) We did incur gas/travel/wage costs, but our cost to recycle with American Recycling would have been over \$1500.
- Bud's brought over iron trailer which was filled.
- Boy Scouts were not able to take bikes this year, so they were put in the iron trailer.

- **Cost Breakdown:**

Albracht \$4070.50

Less \$ collected - 447.00

Total Expense **\$3623.50**

By requiring items to be recycled we were able to cut down on rolloff use. By charging for:

- the recycled items that we get charged for
- heavy weight items
- outside city limits customers

we were able to cushion our expenses.

- **Prior year comparatives:**

2024/6 rolloffs; 6 gaylords	2023/16 rolloffs; 6 gaylords	2022/12 rolloffs; 10 gaylords
\$4275.10	\$6910.39	\$3910.65
