

Title: Public Works Report
Date: Sept 15, 2026
Name: Craig Leseberg, Public Works Director

Water and Wastewater Data

Data for the period beginning Sept 1, 2026 and ending Sept 30, 2026 is as follows:

Disclaimer: The usage figures below reflect only the gallons measured on the Town's main water system. Revenue figures include water sales from both Town water systems. In the coming months, usage data from the second water system will also be collected and incorporated into future reports.

Volume of Water Produced	14,929,000 Gallons
Volume of Water Sold	10,830,578 Gallons
Difference	4,098,422 Gallons
Revenue Generated (Water)	\$71,386.15
Well Utilization	28% of capacity
Volume of Wastewater Treated	3,895,728 Gallons
Revenue Generated (Wastewater)	\$ 70,269.08

Old Business Updates

- The AMI meter replacement project is nearing completion, with only a handful of meters remaining throughout the system. At Targhee Place, all meters have been installed.

Current Business Updates

- The Mega Well tie-in project continues to progress smoothly. Staff held the 50% project review meeting with the Wyoming Water Development Commission (WWDC) and Sunrise Engineering on August 6, 2026. The project remains on schedule, and the next major milestone will be the WWDC 90% review meeting the week of October 21st.

Future Business Updates

- The Homeland Security grant agreements for generators at the well house and Civic Center have been signed, allowing the projects to move forward. These generators will strengthen the Town's emergency preparedness and help protect essential facilities during power outages.
- Staff is working with Jorgensen to prepare an RFP for the design, bidding, and project management of the Greys River Rd repave project.

Upcoming Construction Activity

- Town of Alpine/Sunrise Engineering—Water Well No. 4 tie-in: Date and time to be determined.
- Installation of the new well house generator: Date and time to be determined.
- Installation of the new Civic Center generator: Date and time to be determined.
