

Town of Alpine

Public Works Department

To: Mayor & Town Council Members

From: Craig Leseberg, Public Works Director

I would like to request that the Town of Alpine pursue the creation of an ordinance for all streets and roads throughout the incorporated limits of the Town to have established speed limits.

I have attached a copy of street identification and a proposal of speeds for such roads.

If a specific street has not been identified, it is my recommendation that area signs throughout Town areas be posted stating proposed speed limits is 15-25 miles per hour, unless otherwise posted.

Thank you for your consideration.
