Town of Alpine,

I received the letter about Melvin's request for signage. I fully support businesses wanting to improve access to their business and drive more traffic. And, I love Melvin and that it is in Alpine.

Secondly, I want to say, why do you need to have a Town Hall about this? I understand you like to have the residents informed, but in any other town, they would gladly support local businesses wanting to improve their bottom line. Alpine is already severely struggling with lack of restaurants and services for residents.

I would hate to see Melvin decide its time to move to another town that appreciates them.

Regards,
Scott
