Subject: Alpine Master Plan Budget

Hi Eric,

I hope you are doing well and look forward to hearing, next steps. Toward that end, I have spoken to the board of the Alpine Airpark and many residents personally. Most were large donors to the airpark fund. There is a unanimous desire for any remaining funds from the Airpark fund Steve Funk raised, be directed 100% towards the budget for the master plan. This should be somewhere around 45k.

Furthermore, I am pledging an additional 25k as a personal gift from my family, towards getting this done. I am confident that with our pledge, others in the area will follow, as all are supportive of a first class master plan.

I am not a Wyoming developer, I don't plan to become a Wyoming developer. I simply just want to help the town get to a beautifully planned out and executed master plan.

I truly believe you are at an extraordinary crossroads, a rare opportunity in fact. Excited to see this become a reality!

Warm regards,

Andrew
