Alpine Fire District
220 US Highway 89
Alpine, WY 83128

Regarding restricting the use and sales of fireworks in the Town of Alpine, it would seem obvious that the Alpine Fire District would be in favor of such a ruling. I was contacted last night at my home by a salesman from Idaho that sets up a tent in Alpine. He was interested if I was the one pursuing the change. I stated I was not, but I was in total favor of preventing wildfire in the area. Especially in the dry season we are experiencing in our Wildfire Urban Interface area. He suggested signing a liability form with every customer, that they were responsible for any fire that they may start. Then how about a form from his company that he was responsible for actions of the customer. Not enforceable and it is after the fact of a fire starting.

It is the duty of the Alpine Fire District to reduce the risk of a major fire in the Alpine area. Our volunteers give up a relaxing evening with their family to provide fire protect for the Fourth of July. How about everyone save their money and just enjoy the professional display from the Town of Alpine

Mike Vogt, Fire Chief
Alpine Fire District
