**EXECUTIVE SUMMARY:**

The City of Angleton continues to face the aftermath of Hurricane Beryl. Despite the initial collection of 125,000 cubic yards of debris, additional debris has accumulated along the City's rights-of-way. This accumulation has been delayed due to residents requiring assistance from non-profit organizations like Samaritan's Purse and the prolonged process of insurance assessments. The presence and volume of debris poses ongoing health and safety risks to the community.

The City's current contract with Waste Connections does not include storm debris removal. Although Waste Connections has assisted with limited debris collection, the substantial volume has led them to request that residents pay a fee for a full collection service.

To address this issue, three potential cost assessments have been provided:

1. **Activate the Crowder Gulf contract** – This option ensures a comprehensive city-wide debris collection and is FEMA-eligible.
2. **Waste Connections Services** – This option is not FEMA-eligible and includes:
  - o **Option 1:** Debris collection from the Samaritan's Purse list, with a supplementary contract needed for hauling logs that exceed equipment capacity.
  - o **Option 2:** A complete city-wide debris collection.
