§ 3.6.1.2 The Architect shall advise and consult with the Owner during the Construction Phase Services. The Architect shall have authority to act on behalf of the Owner only to the extent provided in this Agreement. The Architect shall not have control over, charge of, or responsibility for the construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, nor shall the Architect be responsible for the Contractor's failure to perform the Work in accordance with the requirements of the Contract Documents. The Architect shall be responsible for the Architect's negligent acts or omissions, but shall not have control over or charge of, and shall not be responsible for, acts or omissions of the Contractor or of any other persons or entities performing portions of the Work.

§ 3.6.1.3 Subject to Section 4.2 and except as provided in Section 3.6.6.5, the Architect's responsibility to provide Construction Phase Services commences with the award of the Contract for Construction and terminates on the date the Architect issues the final Certificate for Payment.

§ 3.6.2 Evaluations of the Work

§ 3.6.2.1 The Architect shall visit the site at intervals appropriate to the stage of construction, or as otherwise required in Section 4.2.3, to become generally familiar with the progress and quality of the portion of the Work completed, and to determine, in general, if the Work observed is being performed in a manner indicating that the Work, when fully completed, will be in accordance with the Contract Documents. However, the Architect shall not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. On the basis of the site visits, the Architect shall keep the Owner reasonably informed about the progress and quality of the portion of the Work completed, and promptly report to the Owner (1) known deviations from the Contract Documents, (2) known deviations from the most recent construction schedule submitted by the Contractor, and (3) defects and deficiencies observed in the Work. Failure to notify the Owner of observed defects and deficiencies constitutes a breach of this Agreement and shall be a deviation from the Architect's agreed standard of professional care. While on site, the Architect will attend OAC Meetings with the Owner and Contractor to review the Project status, previous set of construction meeting notes, submittal logs, ASI logs, RFI logs, sustainability documentation (if applicable), and construction schedule status along with coordination issues that need resolution by the Owner, Architect and Contractor.

§ 3.6.2.2 The Architect has the authority to reject Work that does not conform to the Contract Documents. Whenever the Architect considers it necessary or advisable, the Architect shall have the authority to require inspection or testing of the Work in accordance with the provisions of the Contract Documents, whether or not the Work is fabricated, installed or completed. However, neither this authority of the Architect nor a decision made in good faith either to exercise or not to exercise such authority shall give rise to a duty or responsibility of the Architect to the Contractor, Subcontractors, suppliers, their agents or employees, or other persons or entities performing portions of the Work.

§ 3.6.2.3 The Architect shall interpret and decide matters concerning performance under, and requirements of, the Contract Documents on written request of either the Owner or Contractor. The Architect's response to such requests shall be made in writing within any time limits agreed upon or otherwise with reasonable promptness.

§ 3.6.2.4 Interpretations and decisions of the Architect shall be consistent with the intent of, and reasonably inferable from, the Contract Documents and shall be in writing or in the form of drawings. When making such interpretations and decisions, the Architect shall endeavor to secure faithful performance by both Owner and Contractor, shall not show partiality to either, and shall not be liable for results of interpretations or decisions rendered in good faith. The Architect's decisions on matters relating to aesthetic effect shall be subject to the Owner's approval. The Architect will review substitution requests from the Contractor only for materials and products which become unavailable during the Construction Phase due to circumstances beyond the Contractor's control or on request by the Owner for the purposes of reducing the Project budget.

§ 3.6.2.5 Unless the Owner and Contractor designate another person to serve as an Initial Decision Maker, as that term is defined in AIA Document A201–2017, the Architect shall render initial decisions on Claims between the Owner and Contractor as provided in the Contract Documents.

§ 3.6.3 Certificates for Payment to Contractor

§ 3.6.3.1 The Architect shall review and certify the amounts due the Contractor and shall issue certificates in such amounts. The Architect's certification for payment shall constitute a representation to the Owner, based on the Architect's evaluation of the Work as provided in Section 3.6.2 and on the data comprising the Contractor's Application for Payment, that, to the best of the Architect's knowledge, information and belief, the Work has progressed to the point indicated, the quality of the Work is in accordance with the Contract Documents, and that the Contractor is entitled to payment in the amount certified. The foregoing representations are subject to (1) an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, (2) results of subsequent tests and inspections, (3) correction of minor deviations from the Contract Documents prior to completion, and (4) specific qualifications expressed by the Architect.

§ 3.6.3.2 The issuance of a Certificate for Payment shall not be a representation that the Architect has (1) made exhaustive or continuous on-site inspections to check the quality or quantity of the Work, (2) reviewed construction

means, methods, techniques, sequences or procedures, (3) reviewed copies of requisitions received from Subcontractors and suppliers and other data requested by the Owner to substantiate the Contractor's right to payment, or (4) ascertained how or for what purpose the Contractor has used money previously paid on account of the Contract Sum.

§ 3.6.3.3 The Architect shall maintain a record of the Applications and Certificates for Payment.

§ 3.6.4 Submittals

§ 3.6.4.1 The Architect shall review the Contractor's submittal schedule and shall not unreasonably delay or withhold approval of the schedule. The Architect's action in reviewing submittals shall be taken in accordance with the approved submittal schedule or, in the absence of an approved submittal schedule, within 10 days excluding delivery time to and from the Contractor. For sequential reviews involving Architect's consultants, Owner, or another affected party, allow an additional 7 days. If the Contractor makes large, bulk submittals at one-time, additional time may be allocated to the Architect and his consultants to review them. The initial date for submittal review by Architect shall not commence until the submittal has been provided to the Architect in its entirety, the specific product being submitted is marked as such in the product literature, and the submittal has been reviewed and stamped by the Contractor. The date for initiation of submittals received after 3 pm shall be dated the following day

§ 3.6.4.2 The Architect shall review and approve, or take other appropriate action upon, the Contractor's submittals such as Shop Drawings, Product Data and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. Review of such submittals is not for the purpose of determining the accuracy and completeness of other information such as dimensions, quantities, and installation or performance of equipment or systems, which are the Contractor's responsibility. The Architect's review shall not constitute approval of safety precautions or construction means, methods, techniques, sequences or procedures. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

§ 3.6.4.3 If the Contract Documents specifically require the Contractor to provide professional design services or certifications by a design professional related to systems, materials, or equipment, the Architect shall specify the appropriate performance and design criteria that such services must satisfy. The Architect shall review and take appropriate action on Shop Drawings and other submittals related to the Work designed or certified by the Contractor's design professional, provided the submittals bear such professional's seal and signature when submitted to the Architect. The Architect's review shall be for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. The Architect shall be entitled to rely upon, and shall not be responsible for, the adequacy and accuracy of the services, certifications, and approvals performed or provided by such design professionals.

§ 3.6.4.4 Subject to Section 4.2, the Architect shall review and respond to requests for information about the Contract Documents. The Architect shall set forth, in the Contract Documents, the requirements for requests for information. Requests for information shall include, at a minimum, a detailed written statement that indicates the specific Drawings or Specifications in need of clarification and the nature of the clarification requested. The Architect's response to such requests shall be made in writing within any time limits agreed upon, or otherwise with reasonable promptness. If appropriate, the Architect shall prepare and issue supplemental Drawings and Specifications in response to the requests for information. The Architect shall prepare Architect's Supplemental Instructions (ASIs) when deemed necessary by the Architect and issue them to Contractor.

§ 3.6.4.5 The Architect shall maintain a record of submittals and copies of submittals supplied by the Contractor in accordance with the requirements of the Contract Documents.

§ 3.6.5 Changes in the Work

§ 3.6.5.1 The Architect may order minor changes in the Work that are consistent with the intent of the Contract Documents and do not involve an adjustment in the Contract Sum or an extension of the Contract Time. Subject to Section 4.2, the Architect shall prepare Change Orders and Construction Change Directives for the Owner's approval and execution in accordance with the Contract Documents.

§ 3.6.5.2 The Architect shall maintain records relative to changes in the Work.

§ 3.6.6 Project Completion

§ 3.6.6.1 The Architect shall:

- .1 conduct inspections to determine the date or dates of Substantial Completion and the date of final completion;
- .2 issue Certificates of Substantial Completion;
- .3 forward to the Owner, for the Owner’s review and records, written warranties and related documents required by the Contract Documents and received from the Contractor; and,
- .4 issue a final Certificate for Payment based upon a final inspection indicating that, to the best of the Architect’s knowledge, information, and belief, the Work complies with the requirements of the Contract Documents.

§ 3.6.6.2 The Architect’s inspections shall be conducted with the Owner to check conformance of the Work with the requirements of the Contract Documents and to verify the accuracy and completeness of the list submitted by the Contractor of Work to be completed or corrected.

§ 3.6.6.3 When Substantial Completion has been achieved, the Architect shall inform the Owner about the balance of the Contract Sum remaining to be paid the Contractor, including the amount to be retained from the Contract Sum, if any, for final completion or correction of the Work.

§ 3.6.6.4 The Architect shall forward to the Owner the following information received from the Contractor: (1) consent of surety or sureties, if any, to reduction in or partial release of retainage or the making of final payment; (2) affidavits, receipts, releases and waivers of liens, or bonds indemnifying the Owner against liens; and (3) any other documentation required of the Contractor under the Contract Documents.

§ 3.6.6.5 Upon request of the Owner, and prior to the expiration of one year from the date of Substantial Completion, the Architect shall, without additional compensation, conduct a meeting with the Owner to review the facility operations and performance.

The Architect may provide Additional Services after execution of this Agreement without invalidating the Agreement. Except for services required due to the fault of the Architect, any Additional Services provided in accordance with this Section 4.2 shall entitle the Architect to compensation pursuant to Section 11.3. The provision of Additional Services in excess of those referenced in this Section 4, et. al. shall not entitle the Architect to additional compensation or an adjustment in the Architect's schedule unless specifically authorized by Owner and memorialized by written change order to this Agreement. .

§ 4.2.1 Upon recognizing the need to perform the following Additional Services, the Architect shall notify the Owner with reasonable promptness and explain the facts and circumstances giving rise to the need. The Architect shall not proceed to provide the following Additional Services until the Architect receives the Owner's written authorization: Such written authorization to proceed shall not be construed as a change order or acquiescence to a request for change order unless the Owner expressly states in such written authorization that the notice constitutes a change order entitling the Architect to additional compensation.

ARTICLE 5 OWNER'S RESPONSIBILITIES

§ 5.1 Unless otherwise provided for under this Agreement, the Owner shall provide information in a timely manner regarding requirements for and limitations on the Project, including a written program, which shall set forth the Owner's objectives; schedule; constraints and criteria, including space requirements and relationships; flexibility; expandability; special equipment; systems; and site requirements.

§ 5.2 The Owner shall establish the Owner's budget for the Project, including (1) the budget for the Cost of the Work as defined in Section 6.1; (2) the Owner's other costs; and, (3) reasonable contingencies related to all of these costs. The Owner shall update the Owner's budget for the Project as necessary throughout the duration of the Project until final completion. If the Owner significantly increases or decreases the Owner's budget for the Cost of the Work, the Owner shall notify the Architect. The Owner and the Architect shall thereafter agree to a corresponding change in the Project's scope and quality.

§ 5.3 The Owner shall identify a representative authorized to act on the Owner's behalf with respect to the Project. The Owner shall render decisions and approve the Architect's submittals in a timely manner in order to avoid unreasonable delay in the orderly and sequential progress of the Architect's services.

§ 5.4 The Owner shall furnish surveys to describe physical characteristics, legal limitations and utility locations for the site of the Project, and a written legal description of the site. The surveys and legal information shall include, as applicable, grades and lines of streets, alleys, pavements and adjoining property and structures; designated wetlands; adjacent drainage; rights-of-way, restrictions, easements, encroachments, zoning, deed restrictions, boundaries and contours of the site; locations, dimensions, and other necessary data with respect to existing buildings, other improvements and trees; and information concerning available utility services and lines, both public and private, above and below grade, including inverts and depths. All the information on the survey shall be referenced to a Project benchmark.

§ 5.5 The Owner shall furnish services of geotechnical engineers, which may include test borings, test pits, determinations of soil bearing values, percolation tests, evaluations of hazardous materials, seismic evaluation, ground corrosion tests and resistivity tests, including necessary operations for anticipating subsoil conditions, with written reports and appropriate recommendations.

§ 5.6 The Owner shall provide the Supplemental Services designated as the Owner's responsibility in Section 4.1.1.

§ 5.7 The Owner shall coordinate the services of its own consultants with those services provided by the Architect. Upon the Architect's request, the Owner shall furnish copies of the scope of services in the contracts between the

Owner and the Owner's consultants. The Owner shall furnish the services of consultants other than the Architect as the responsibility of the Architect in this Agreement, or authorize the Architect to furnish them as an Additional Service, when the Architect requests such services and demonstrates that they are reasonably required by the scope of the Project. The Owner shall require that its consultants and contractors maintain insurance, including professional liability insurance, as appropriate to the services or work provided.

§ 5.8 The Owner shall furnish tests, inspections and reports required by law or the Contract Documents, such as structural, mechanical, and chemical tests, tests for air and water pollution, and tests for hazardous materials.

§ 5.9 The Owner shall furnish all legal, insurance and accounting services, including auditing services, that may be reasonably necessary at any time for the Project to meet the Owner's needs and interests.

§ 5.10 The Owner shall provide prompt written notice to the Architect if the Owner becomes aware of any fault or defect in the Project, including errors, omissions or inconsistencies in the Architect's Instruments of Service.

§ 5.11 The Owner shall include the Architect in all communications with the Contractor that relate to or affect the Architect's services or professional responsibilities. The Owner shall promptly notify the Architect of the substance of any direct communications between the Owner and the Contractor otherwise relating to the Project. Communications by and with the Architect's consultants shall be through the Architect.

§ 5.12 Before executing the Contract for Construction, the Owner shall coordinate the Architect's duties and responsibilities set forth in the Contract for Construction with the Architect's services set forth in this Agreement. The Owner shall provide the Architect a copy of the executed agreement between the Owner and Contractor, including the General Conditions of the Contract for Construction.

§ 5.13 The Owner shall provide the Architect access to the Project site prior to commencement of the Work and shall obligate the Contractor to provide the Architect access to the Work wherever it is in preparation or progress.

(Paragraphs deleted)

ARTICLE 6 COST OF THE WORK

§ 6.1 For purposes of this Agreement, the Cost of the Work shall be the total cost to the Owner to construct all elements of the Project designed or specified by the Architect and shall include contractors' general conditions costs, overhead and profit. The Cost of the Work also includes the reasonable value of labor, materials, and equipment, donated to, or otherwise furnished by, the Owner. The Cost of the Work does not include the compensation of the Architect; the costs of the land, rights-of-way, financing, or contingencies for changes in the Work; or other costs that are the responsibility of the Owner.

§ 6.2 The Owner's budget for the Cost of the Work is provided in Initial Information, and shall be adjusted throughout the Project as required under Sections 5.2, 6.4 and 6.5. Evaluations of the Owner's budget for the Cost of the Work, and the preliminary estimate of the Cost of the Work and updated estimates of the Cost of the Work, prepared by the Architect, represent the Architect's judgment as a design professional. It is recognized, however, that neither the Architect nor the Owner has control over the cost of labor, materials, or equipment; the Contractor's methods of determining bid prices; or competitive bidding, market, or negotiating conditions. Accordingly, the Architect cannot and does not warrant or represent that bids or negotiated prices will not vary from the Owner's budget for the Cost of the Work, or from any estimate of the Cost of the Work, or evaluation, prepared or agreed to by the Architect.

§ 6.3 In preparing estimates of the Cost of Work, the Architect shall be permitted to include contingencies for design, bidding, and price escalation; to determine what materials, equipment, component systems, and types of construction are to be included in the Contract Documents; to recommend reasonable adjustments in the program and scope of the Project; and to include design alternates as may be necessary to adjust the estimated Cost of the Work to meet the Owner's budget. The Architect's estimate of the Cost of the Work shall be based on current area, volume or similar conceptual estimating techniques. If the Owner requires an extensive detailed estimate of the Cost of the Work, the Architect shall provide such an estimate, if identified as the Architect's responsibility in Section 4.1.1, as a Supplemental Service.

§ 6.3.1 The Architect shall compile the preliminary opinion of the Cost of Work based on all or a portion of the following: design progress, utilizing historical data, material quotations, discussions with trade professions, and

experience with similar projects. Bids will not be solicited for the Architect's estimating purposes; therefore, competitive bidding or lack thereof may affect the actual costs. The Owner shall acknowledge the following assumptions and cautions relative to the Architect's evaluations of the Owner's budget and preliminary opinion of the Cost of Work:

1. The Opinion of the Cost of Work will assume a competitive sealed proposal process for the entire scope of Work, as defined by the plans and specifications. Competitive sealed proposal process is defined as receiving responsive proposals from a minimum of three (3) Contractor proposers.
2. If the number of proposals indicated in 6.3.1.1 above are not received by the Owner, the proposals may deviate from the Architect's evaluation of the Owner's budget or the preliminary opinion of the Cost of Work.

Due to unpredictable conditions in the construction and other industries causing unusual fluctuations, such as the influence of commodity trading markets, regional/global supply and demand, regional inflation, global geopolitical policy changes, or natural disasters/acts of God, such as hurricanes, flooding, etc.; costs and availability of products and labor may fluctuate causing the Architect's evaluation of the Owner's budget and preliminary opinion of the Cost of Work to differ from actual bids.

§ 6.4 If, through no fault of the Architect, the Procurement Phase has not commenced within 120 days after the Architect submits the Construction Documents to the Owner, the Owner's budget for the Cost of the Work shall be adjusted to reflect changes in the general level of prices in the applicable construction market.

§ 6.5 If at any time the Architect's estimate of the Cost of the Work exceeds the Owner's budget for the Cost of the Work, the Architect shall make appropriate recommendations to the Owner to adjust the Project's size, quality, or budget for the Cost of the Work, and the Owner in its sole discretion, may choose adjust the Project accordingly.

§ 6.6 If the Owner's budget for the Cost of the Work at the conclusion of the Construction Documents Phase Services is exceeded by the lowest bona fide bid or negotiated proposal, the Owner shall

- .1 give written approval of an increase in the budget for the Cost of the Work;
- .2 authorize rebidding or renegotiating of the Project within a reasonable time;
- .3 terminate in accordance with Section 9.5;
- .4 in consultation with the Architect, revise the Project program, scope, or quality as required to reduce the Cost of the Work; or,
- .5 implement any other mutually acceptable alternative.

§ 6.7 If the Owner chooses to proceed under Section 6.6.4, the Architect shall modify the Construction Documents as necessary to comply with the Owner's budget for the Cost of the Work at the conclusion of the Construction Documents Phase Services, or the budget as adjusted under Section 6.6.1. If the Owner requires the Architect to modify the Construction Documents because the lowest bona fide bid or negotiated proposal exceeds the Owner's budget for the Cost of the Work due to market conditions the Architect could not reasonably anticipate, the Owner shall compensate the Architect for the modifications as an Additional Service pursuant to Section 11.3; otherwise the Architect's services for modifying the Construction Documents shall be without additional compensation. In any event, the Architect's modification of the Construction Documents shall be the limit of the Architect's responsibility under this Article 6.

ARTICLE 7 COPYRIGHTS AND LICENSES

§ 7.1 The Architect and the Owner warrant that in transmitting Instruments of Service, or any other information, the transmitting party is the copyright owner of such information or has permission from the copyright owner to transmit such information for its use on the Project.

§ 7.2 As part of the total compensation which Owner has agreed to pay Architect for the professional services to be rendered under the Contract, Architect agrees that hard copies of all finished and unfinished "Instruments of Service" including but not limited to documents, data, studies, surveys, drawings, specifications, field notes, maps, models, photographs, preliminary reports, reports, bid packet/construction contract documents/ advertisement for bids incorporating any Owner standard provisions provided by Architect, all of which are produced by Architect and paid for by Owner are, and will remain, the property of the Owner. Architect will furnish Owner with electronic copies in .PDF format, to the extent they are available, of all of the foregoing to facilitate coordination; however, ownership of

the underlying work product shall remain the intellectual property of the Architect. Owner shall have the right to use such work products for Owner's purposes on this Project. However, such documents are not intended to be suitable for reuse by Owner or others. Any reuse without the express written consent of the Architect will be at the Owner's sole risk and without liability or legal exposure to the Architect. The above notwithstanding, Architect shall retain all rights in its standard drawing details, designs, specifications, databases, computer software and any other proprietary and intellectual property information provided pursuant to this Contract.

§ 7.3 The Architect grants to the Owner a nonexclusive license to use the Architect's Instruments of Service solely and exclusively for purposes of constructing, using, maintaining, altering and adding to the Project, provided that the Owner substantially performs its obligations under this Agreement, including prompt payment of all sums due pursuant to Article 9 and Article 11. The Architect shall obtain similar nonexclusive licenses from the Architect's consultants consistent with this Agreement. The license granted under this section permits the Owner to authorize the Contractor, Subcontractors, Sub-subcontractors, and suppliers, as well as the Owner's consultants and separate contractors, to reproduce applicable portions of the Instruments of Service, subject to any protocols established pursuant to Section 1.3, solely and exclusively for use in performing services or construction for the Project. If the Architect rightfully terminates this Agreement for cause as provided in Section 9.4, the license granted in this Section 7.3 shall terminate.

§ 7.3.1 In the event the Owner uses the Instruments of Service without retaining the authors of the Instruments of Service, the Owner releases the Architect and Architect's consultant(s) from all claims and causes of action arising from such uses. The Owner, to the extent permitted by law, further agrees to indemnify and hold harmless the Architect and its consultants from all costs and expenses, including the cost of defense, related to claims and causes of action asserted by any third person or entity to the extent such costs and expenses arise from the Owner's use of the Instruments of Service under this Section 7.3.1. The terms of this Section 7.3.1 shall not apply if the Owner rightfully terminates this Agreement for cause under Section 9.4.

§ 7.4 Except for the licenses granted in this Article 7, no other license or right shall be deemed granted or implied under this Agreement. The Owner shall not assign, delegate, sublicense, pledge or otherwise transfer any license granted herein to another party without the prior written agreement of the Architect. Any unauthorized use of the Instruments of Service shall be at the Owner's sole risk and without liability to the Architect and the Architect's consultants. The parties acknowledge and agree that indemnification by the City is prohibited by the Texas Constitution Sec. III, Art. 51, and therefore any type of hold harmless provision obligating the City is likely unenforceable or enforceable only to the extent authorized by the Constitution and laws of the State of Texas.

§ 7.5 Except as otherwise stated in Section 7.3, the provisions of this Article 7 shall survive the termination of this Agreement.

ARTICLE 8 CLAIMS AND DISPUTES

§ 8.1 General

§ 8.1.1 The Owner and Architect shall commence all claims and causes of action against the other and arising out of or related to this Agreement, whether in contract, tort, or otherwise, in accordance with the requirements of the binding dispute resolution method selected in this Agreement and within the period specified by applicable law.

§ 8.1.2 The Architect and Owner waive consequential damages for claims, disputes, or other matters in question, arising out of or relating to this Agreement. This mutual waiver is applicable, without limitation, to all consequential damages due to either party's termination of this Agreement, except as specifically provided in Section 9.7.

(Paragraph deleted)

§ 8.2 Mediation

§ 8.2.1 Any claim, dispute or other matter in question arising out of or related to this Agreement shall be submitted to senior management for each party for attempted resolution and then be referred to non-binding mediation as a condition precedent to the institution of legal proceedings by either party.

§ 8.2.2 Mediation, shall be administered through a private mediator mutually selected by the parties. In the event the parties cannot agree on a mediator, the mediation shall be administered by the American Arbitration Association in accordance with its Construction Industry Mediation Procedures in effect on the date of this Agreement.

§ 8.2.3 The parties shall share the mediator’s fee and any filing fees equally. The mediation shall be held in the place where the Project is located, unless another location is mutually agreed upon.

§ 8.2.4 If the parties do not resolve a dispute through mediation pursuant to this Section 8.2, the method of binding dispute resolution shall be the following:
(Check the appropriate box.)

Litigation in a court of competent jurisdiction
(Paragraphs deleted)

If the Owner and Architect do not select a method of binding dispute resolution, or do not subsequently agree in writing to a binding dispute resolution method other than litigation, the dispute will be resolved in a court of competent jurisdiction.

ARTICLE 9 TERMINATION OR SUSPENSION

§ 9.1 If the Owner fails to make payments to the Architect in accordance with this Agreement, such failure shall be considered substantial nonperformance and cause for termination or, at the Architect’s option, cause for suspension of performance of services under this Agreement. If the Architect elects to suspend services, the Architect shall give fourteen days’ written notice to the Owner before suspending services. In the event of a suspension of services, the Architect shall have no liability to the Owner for delay or damage caused the Owner because of such suspension of services. Before resuming services, the Owner shall pay the Architect all sums due prior to suspension and any expenses incurred in the interruption and resumption of the Architect’s services. The Architect’s fees for the remaining services and the time schedules shall be equitably adjusted.

§ 9.2 If the Owner suspends the Project, the Architect shall be compensated for services performed prior to notice of such suspension. The Architect’s fees for the remaining services and the time schedules shall be equitably adjusted, expenses only paid if directly attributable to fault of Owner.

§ 9.3 If the Owner suspends the Project for more than 90 cumulative days for reasons other than the fault of the Architect, the Architect may terminate this Agreement by giving not less than fourteen days’ written notice.

§ 9.4 Either party may terminate this Agreement upon not less than seven days’ written notice should the other party fail substantially to perform in accordance with the terms of this Agreement through no fault of the party initiating the termination.

§ 9.5 The Owner may terminate this Agreement upon not less than seven days’ written notice to the Architect for the Owner’s convenience and without cause.

§ 9.6 If the Owner terminates this Agreement for its convenience pursuant to Section 9.5, or the Architect terminates this Agreement pursuant to Section 9.3, the Owner shall compensate the Architect for services performed prior to termination, Reimbursable Expenses incurred, and costs attributable to termination, including the costs attributable to the Architect’s termination of consultant agreements.

§ 9.7
(Paragraphs deleted)

Except as otherwise expressly provided herein, this Agreement shall terminate one year from the date of Substantial Completion.

§ 9.8 The Owner’s rights to use the Architect’s Instruments of Service in the event of a termination of this Agreement are set forth in Article 7 and Section 9.7.

(Paragraph deleted)

ARTICLE 10 MISCELLANEOUS PROVISIONS

§ 10.1 This Agreement shall be governed by the law of the place where the Project is located, excluding that jurisdiction’s choice of law rules.

Init.

§ 10.2 Terms in this Agreement shall have the same meaning as those in AIA Document A201–2017, General Conditions of the Contract for Construction.

§ 10.3 The Owner and Architect, respectively, bind themselves, their agents, successors, assigns, and legal representatives to this Agreement. Neither the Owner nor the Architect shall assign this Agreement without the written consent of the other, except that the Owner may assign this Agreement to a lender providing financing for the Project if the lender agrees to assume the Owner's rights and obligations under this Agreement, including any payments due to the Architect by the Owner prior to the assignment.

§ 10.4 If the Owner requests the Architect to execute certificates, the proposed language of such certificates shall be submitted to the Architect for review at least 14 days prior to the requested dates of execution. If the Owner requests the Architect to execute consents reasonably required to facilitate assignment to a lender, the Architect shall execute all such consents that are consistent with this Agreement, provided the proposed consent is submitted to the Architect for review at least 14 days prior to execution. The Architect shall not be required to execute certificates or consents that would require knowledge, services, or responsibilities beyond the scope of this Agreement.

§ 10.5 Nothing contained in this Agreement shall create a contractual relationship with, or a cause of action in favor of, a third party against either the Owner or Architect.

§ 10.6 Unless otherwise required in this Agreement, the Architect shall have no responsibility for the discovery, presence, handling, removal or disposal of, or exposure of persons to, hazardous materials or toxic substances in any form at the Project site.

§ 10.7 The Architect shall have the right to include photographic or artistic representations of the design of the Project among the Architect's promotional and professional materials. The Architect shall be given reasonable access to the completed Project to make such representations. However, the Architect's materials shall not include the Owner's confidential or proprietary information if the Owner has previously advised the Architect in writing of the specific information considered by the Owner to be confidential or proprietary. The Owner shall provide professional credit for the Architect in the Owner's promotional materials for the Project. This Section 10.7 shall survive the termination of this Agreement unless the Owner terminates this Agreement for cause pursuant to Section 9.4.

§ 10.8 If the Architect or Owner receives information specifically designated as "confidential" or "business proprietary," the receiving party shall keep such information strictly confidential and shall not disclose it to any other person except as set forth in Section 10.8.1. This Section 10.8 shall survive the termination of this Agreement. The parties acknowledge and agree the Owner is subject to the Texas Public Information Act as set out in Texas Government Code Chapter 552.

§ 10.8.1 The receiving party may disclose "confidential" or "business proprietary" information after 7 days' notice to the other party, when required by law, arbitrator's order, or court order, including a subpoena or other form of compulsory legal process issued by a court or governmental entity, or to the extent such information is reasonably necessary for the receiving party to defend itself in any dispute. Re: Abigail Arias Park Project; RFQ No. 2024-03 Proposed Basic Services Scope of Work and Fee Proposal for Design

Dear Ms. Mainer,

We are pleased to provide our proposed Scope of services for design and development of Abigail Arias Park as identified in the City's RFQ No. 2024-03. We appreciate the instructive meeting held last week at City Hall that further informed us of the objectives and importance of this project to the community.

Attached is our proposed Scope of Basic Services and Fee Proposal for your review. We have structured this proposal in response to the project requirements and the initial budget established at \$2,000,000 (inclusive of professional services fees). Our team is prepared to proceed expeditiously upon execution of either of the following:

1. AIA form contract as previously utilized in previous Professional Services Agreement for Freedom Park, or;
2. City of Angleton's standard Professional Services Agreement format.

Please advise of any revisions you see that improve upon the Scope of Work, Fee structure, or agreement style and wording. On behalf of all of us at Burditt, thank you again for the opportunity to collaborate with you on this important project for the community.

Very Sincerely,

Charles Burditt

EXHIBIT "A"
PROJECT UNDERSTANDING

The Abigail Arias Park Project is a unique and signature new park project for the City of Angleton that addresses elements of the following studies, programs, or surveys:

- Adopted 2019 Parks & Recreation Master and Strategic Plan's goals for services delivery to the south side of Angleton and gaps in the Level of Service (LOS) and programming.
- Responses to the 2021 Parks & Recreation Board's survey developed for community feedback regarding park development on the south side of town.
- Results of the 2022, 2023, and 2024 Angleton University's program designs and town hall meetings with community feedback.
- 2024 City published survey for public to provide additional feedback on desired park amenities, scale of amenities, and design elements.
- Meeting with City staff on July 23, 2024 to discuss the desired Scope of Work and general program elements.

The Consultant will incorporate as feasible take City approved program priorities along with basic Design Guideline Requirements to develop design and construction documentation for construction of park amenities consistent with the City's goals and financial constraints.

Based upon the selected program discussion with City staff, the Project Construction Budget (including allowances and contingencies) is initially agreed to be Two Million Dollars (\$2,000,000 USD) and may be adjusted as required and authorized by the City as the project is finalized.

This specific Scope of Services is related to schematic design, design development, construction documents and to provide construction administration/observation services.

The Project Manager/Landscape Architect will be responsible for the Design Team's compliance with schedule and budget, contract matters, client relationship, communication, project administration, and programming. The Project Manager will also ensure continuity between the individual project phases and their fit within the overall project concepts.

The Project Manager will be the technical and landscape architectural lead of the project and guide production teams and subconsultants through delivery of the project.

Burditt will perform its services consistent with the professional skill and care ordinarily provided by architects and landscape architects practicing in the same or similar locality under the same or similar circumstances. Burditt will perform its services as expeditiously as is consistent with such professional skill and care and the orderly progress of the project.

The City will provide availability of its Project Manager and staff as necessary to provide City's direction, review of responsibilities, and decision-making authority. Burditt will work closely with specific designees as directed to ensure a collaborative, timely, budget-efficient, and rewarding project.

Basic Services Fees include compensation for those design services inherent to any design project, regardless of type and are tailored to the project on a fixed-fee, lump-sum basis. Basic Services Fees are then invoiced as a percentage of the work completed for each Phase. Any subconsultants providing Basic Services utilized by Burditt are paid directly by Burditt.

The Basic Services Fees are a percentage of the City's budgeted Opinion of Probable Cost (OPC) and based on mutually agreed-upon construction budget estimates. Burditt acknowledges the City's budgeted Opinion of Probable Cost shall be adhered to as reasonably feasible for design constraints and budget discipline, and only modified at the direction of the City working in coordination with Burditt. City directed expansion of overall program resulting in budget increases beyond the City's initial budget may result in increased professional fees and may necessarily alter Basic Services Fees. Budget and fee adjustments will only occur with the expressed written authorization of the City's representative.

If Burditt's Opinion of Probable Cost estimate exceeds the City's budgeted Opinion of Probable Cost, Burditt and the City will cooperate to adjust the affected size, quality, or budget for the Opinion of Probable Cost.

The **Opinion of Probable Cost** for each relevant phase shall be the most recently City approved total Cost of Work to the City to construct all elements of the work designed or specified by the Landscape Architect and shall include contractors' general conditions costs, overhead, and profit. The Cost of Work also includes the reasonable contingencies, value of labor, materials, and equipment, donated to, or otherwise furnished by, the City. The Opinion of Probable Cost does not include the compensation to Burditt; the costs of the land, rights-of-way, or financing for changes in the Work; or other costs that are the responsibility of the City.

Basic Services Fees are only subject to change should the Opinion of Probable Cost change for a given Phase. Some variations in budgeted construction costs are usual and customary.

Both parties recognize the initial information and Opinion of Probable Cost may change and agree that schedules and fees must necessarily change with any substantial or material changes to the Opinion of Probable Cost preceding the initiation of each phase. Conditions and timing for such adjustments are referenced in the Scope of Services and Fee Proposal.

The services included in the Basic Services Fee include:

- Landscape Architectural Design
- Architectural Design
- Structural Engineering Design
- MEP Engineering Design
- Civil Engineering Design
- Cost Estimating
- Park Facility Monument Signage and Wayfinding Design
- Urban Forest/Natural Resource Assessment

Any services not listed above in the Basic Services Fee would be considered Additional Services. **Additional Services Fees** include those third-party consultant service fees which are unique to the specific project(s) and are not included in the Basic Services Fee. They are used for those specialty areas of focus or expertise for which scope and cost are not immediately known and can fluctuate based on a variety of factors and decisions throughout the duration of the project.

When required, Additional Services will only be engaged by Burditt after discussion with City's Representative as to the need for the services. When such services are requested by City or recommended by Burditt's Project Manager, scope and cost proposals will be secured from the relevant consultants and provided to the City for approval prior to engagement. No such services will be engaged without the written approval of the County or its designee.

Additional Services Fees are invoiced to the City at actual cost plus ten percent markup fee (10%) to account for tort and performance risk, coordination costs, and administrative costs.

Some project costs are borne directly by the City for liability and cost control. These include:

- Survey (boundary and topographical)
- Geotechnical Analysis
- Environmental Assessment
- Building Commissioning
- TDLR Accessibility Fees
- Permitting Fees
- CPSI Inspection Fees

The Project Manager will coordinate the work of these consultants.
