

AGENDA ITEM SUMMARY FORM

MEETING DATE: June 25, 2024

PREPARED BY: Christiene Daniel, Council Member Position 1

AGENDA CONTENT: Update, discussion and possible action on effects of newly installed speed bumps on Piney Way and persistent ongoing traffic issues.

AGENDA ITEM SECTION: Regular Agenda

BUDGETED AMOUNT: N/A

FUNDS REQUESTED: N/A

FUND: N/A

EXECUTIVE SUMMARY:

Piney Way residents have had ongoing traffic issues with a dramatic increase since 2019.

Speeding vehicles and reckless driving resulting in near miss pedestrian incidents, loss of control, yard & light pole damage, and countless destroyed mailboxes.

Council recently approved speed bumps to help mitigate the persistent issues and residents have noted no improvements.

Since the installation some speed bumps are loose, a neighbor was nearly hit checking her mail, two vehicles had a near collision with one veering off to avoid and hitting the light pole, and another work truck carrying a trailer full of windowpanes plowed through the speed bumps, breaking their glass load, and leaving glass/screw debris covering the street.

RECOMMENDATION:

Listen to concerned citizens, share ideas discussed during our Strategic Planning Meeting, brainstorm possible remedies.

Brisa Merary Forbes is with **Luis Alicia Gutierrez** and **4 others**.

So last night around midnight, possibly a white truck, plowed through our driveway/tiny tree. One of my neighbors informed me of it. I did hear a noise, but because the window A/C in our room is so loud, it just sounded muffled. They got so close to the house. It's just scary how people drive down our street from 288B. Mailboxes have been knocked down too, but on separate occasions. In one of the pictures it looks like they would have gone straight to one of my kids room.

Today, I went to city hall to see if there was a particular format needed for a petition. They sent me to the Angleton PD. 😬 Once there, I talked to Sgt Valdez and he said that he will install a "Black Cat" on our street. It will be placed on a utility pole and look like a black box. The "Black Cat" records traffic numbers and speed. He will leave it there for a couple of weeks to get an idea of our traffic pattern. Meanwhile, we can move ahead, get signatures, and submit a petition to city hall, in particular to Councilman John Wright. John would submit the petition/ information to the police department and they would act on it from there. There is a lightpost in the middle of our street on Jessica and Tom's propertythe "Black Cat" might go up there.

Okay guys, if you drove on Piney way after 3pm today, there was a truck and trailer(contractor headed to greystone) that went over the speed bumps and bounced their trailer so hard it flung glass and screws all over the road. I went out and swept up what i could. But i am sure there are still pieces everywhere. It was alot. Just a heads up.
