

# CITY OF ANGLETON

# **ABIGAIL ARIAS PARK DEVELOPMENT**

---

Request for Qualifications Interview  
June 25, 2024

# Professional Experience

The **Burditt Land|Place** team will balance the City's specific programmed amenities along with nature sensitive design elements that enrich the community. For over 35 years, our firm and staff have completed the planning/design of hundreds of parks and open space projects from small pocket parks up to major community and regional parks, all with an eye toward play value, user experience, financial stewardship, and in providing crucial greenspace, trails, and connections to natural systems.

Our professional staff (25+) of parks and recreation planners, landscape architects, architects, and natural resource managers will work closely with staff, community stakeholders, elected officials, the ABLC, and Texas Parks & Wildlife (TPWD) to identify the needs, capacity, and resources which must come together for a successful Abigail Arias Park. We dedicate ourselves to the City's goals and objectives through relevant programming, design concepts, and in exercising wisdom and constraint of all capital investments.
