

AGENDA ITEM SUMMARY FORM

MEETING DATE: 8/24/2026

PREPARED BY: Jason O'Mara, Director of Parks & Recreation

AGENDA CONTENT: Discussion and possible action on the replacement of existing traffic controller cabinet art wraps throughout Angleton.

AGENDA ITEM SECTION: Regular Agenda

BUDGETED AMOUNT: TBD

FUNDS REQUESTED: TBD

FUND: TBD

EXECUTIVE SUMMARY:

Keep Angleton Beautiful (KAB) has previously supported the installation of decorative art wraps on traffic controller cabinets throughout Angleton as part of the City's beautification efforts. The program has expanded over several phases, with installations occurring between 2021 and 2026.

The wraps were originally anticipated to have an approximately seven-year useful life. Staff recently completed an assessment of the existing wraps to document their current condition and determine potential replacement needs. The assessment identified five wraps in poor or very poor condition and four in fair condition. Common issues include fading, cracking, and peeling. Photographs documenting the current condition of the wraps are included with this agenda item.

Location	Installed	Original Life Expectancy	Current Assessment	Condition
E. Myrtle & N. Velasco	2021	Dec. 2027	Fading, cracking	Poor
W. Wilkins & 274 Loop	2021	Dec. 2027	Peeling edges	Fair
E. Mulberry (Hwy 35) & 274 Loop	2021	Dec. 2027	Fading, cracking, peeling	Very Poor
Cedar & 274 Loop	2021	Dec. 2027	Peeling	Fair
N. Velasco & Hwy 35	2021	Dec. 2027	Fading, cracking, peeling	Poor
E. Orange & S. Velasco	2021	Dec. 2027	Peeling around edges	Fair
E. Mulberry (Hwy 35) & Chenango	2022	June 2029	Fading on one side, cracking	Fair
W. Magnolia & S. Velasco	2022	June 2029	Fading, cracking, peeling	Poor
B288 & W. Plum	2022	June 2029	Fading, cracking, peeling	Poor
Loop 274 & W. Locust	2023	Sept. 2030	No significant concerns noted	Good
B288 & Cedar	2023	Sept. 2030	Some peeling	Fair
B288 & Cannan	2023	Sept. 2030	No significant concerns noted	Good

B288 & Cemetery Road	2025	Jan. 2032	TxDOT cabinet replaced	Box replaced
B288 & Henderson Drive	2026	June 2033	New	Excellent
E. Mulberry (Hwy 35) & Hospital Drive	2026	June 2033	New	Excellent

While the original life expectancy was estimated at approximately seven years, the assessment shows varying levels of deterioration based on location and exposure. The 2021 wraps are approaching their anticipated replacement period; however, some of the 2022 installations are already showing significant deterioration several years ahead of their projected replacement date.

Additionally, the newer wrap at B288 and Cemetery Road is no longer in place after TxDOT replaced the traffic controller cabinet at that intersection. Although the wrap was installed in 2025, replacement of the cabinet resulted in the loss of the wrap and creates an additional location for consideration.

Based on the assessment and accompanying photographs, staff recommend prioritizing the five wraps currently identified in poor or very poor condition, along with the B288 and Cemetery Road location. KAB may also discuss whether replacement wraps should utilize existing artwork or provide an opportunity to introduce new designs.

RECOMMENDATION:

Staff recommends KAB discuss the condition of the existing traffic controller cabinet art wraps and provide direction on a replacement program, priority locations, and funding to support potential replacement.
