

WORKERS' COMPENSATION • PROPERTY • LIABILITY

To Whom it May Concern,

We are thrilled to extend our heartfelt congratulations to the City of Angleton for successfully completing all five digital badges of the R.O.A.D. Ready program. This noteworthy achievement is a testament to the collaborative efforts and dedication of your team.

Working on or near roadways creates the potential for catastrophic encounters with other vehicles, where the extent of damage or injury is not necessarily related to fault. The R.O.A.D. Ready initiative was specifically designed to ensure all staff are aware of these potential hazards and exposures.

The City of Angleton Public Works Department has exemplified a proactive approach, successfully completing major activities associated with the R.O.A.D. Ready process. The enclosed certificate recognizes the organization's completion of the five R.O.A.D. Ready badges and the dedication of all staff to provide a safe and healthy workplace. This effort is paramount to the partnership the Texas Municipal League Intergovernmental Risk Pool seeks to create with its members.

We look forward to continued partnership in loss prevention and risk management.

Thank you for your commitment, and congratulations once again on this remarkable achievement!

Sincerely,

A handwritten signature in black ink that reads "Irvin P. Janak". The signature is written in a cursive style with a large, stylized 'I' and 'J'.

Irvin Janak  
Loss Prevention Manager
