

April 25, 2025

Dear Planning & Zoning Commission Member,

Subject: Invitation to Participate in the Comprehensive Plan Advisory Committee (CPAC)

On behalf of the City of Angleton, I am pleased to extend an invitation to the P&Z Commission to designate a representative or two to serve on our **Comprehensive Plan Advisory Committee (CPAC)**. This committee will play a vital role in shaping the vision and future growth of our community through the upcoming update of the City's Comprehensive Plan.

With the support of the Texas General Land Office's Resilient Communities Program grant, the City is undertaking a major update to its 2007 Comprehensive Plan. This update will address critical topics such as land use, housing, infrastructure, transportation, parks and recreation, economic development, and long-term resilience.

The CPAC will consist of 14 members, including residents and representatives from key community stakeholders such as your organization. The committee will:

- Attend regular monthly meetings over an estimated 18-month period
- Collaborate with city staff and planning consultants to guide the plan development
- Serve as community advocates during public meetings and workshops
- Help ensure the plan reflects the values, needs, and priorities of our residents and institutions

Your voice and expertise are essential to this process, and we sincerely hope you will be able to commit to this important initiative. Please submit your name and contact information using the online form linked below or visit the City Clerk's webpage at www.angleton.tx.us under *Boards and Commissions*:

<https://portal.laserfiche.com/q3869/forms/Volunteer-Application>

Should you have any questions or require additional information, please do not hesitate to reach out to me directly at ospriggs@angleton.tx.us or 979-849-4364 ext. 2136.

Thank you for your continued partnership and support in shaping a thriving and resilient future for Angleton.

Sincerely,

Otis T. Spriggs

Director of Development Services
City of Angleton
