EXECUTIVE SUMMARY:

The Angleton Recreation Center had a water feature component that was out of service in the summer of 2023. The staff has been working on various short and long-term solutions for water features components since before the 2023 summer season. A short-term solution was identified but the contractor later withdrew and recommended a long-term solution. As a result, staff requested long-term solutions from various aquatic companies.

On October 16 and November 13, 2023, staff presented ABLC with a range of replacement options. At the November 13, 2023 ABLC meeting, the corporation approved debt issuance to address various park and recreation projects including Angleton Recreation Center water features and other Angleton Recreation Center maintenance issues. If debt issuance is approved, funds will likely be available in April 2024 and will not exceed \$500K for Angleton Recreation Center water feature components and other maintenance items.

Parks & Recreation staff received a range of solutions and pricing from vendors.
