EXECUTIVE SUMMARY:

There is a large diameter drain line running through the back of this property. There have been two instances over the past years where the line has collapsed. This caused cave ins in the back yard of this property. The city staff has made point repairs in this back yard on both instances. This line is going to continue to fail over time in different sections that have not been replaced. Staff proposes to replace this entire section of drainage line to prevent these future occurrences.

RECOMMENDATION:

Staff recommends going with Matula & Matula alternate bid to complete this project.
