EXECUTIVE SUMMARY:

A rezoning request for 1101 W. Mulberry Street was denied by City Council at its November 9, 2021 regular meeting. Section 28-24.(g).(6).a states: "After a final decision is reached by the city council denying the zoning and rezoning requests involving real property (including PD and SUP requests), no further application may be filed for zoning and rezoning requests (including PD and SUP requests) involving any part of the subject real property for 12 months from the date of the final decision." Section 28-24.(g).(6).c allows for submission of a waiver request of the 12 month prohibition period upon a finding of a "changed conditions or significant new information." Said waiver request can be presented to the Planning and Zoning Commission for recommendation and the City Council for approval. Section 28-24.(g) provides no guidance nor criteria on what constitutes "changed conditions or significant new information."

The waiver request includes reasoning from the applicant that they feel meets the standard of "changed conditions or significant new information." To address concerns expressed by City Council regarding details about the proposed project, which were not required by the originally requested rezoning to the MFR-29 zoning district, the applicant is proposing to bring forward a planned development which could include a skate park.

As the Commission will recall, staff recommended approval of the original rezoning request as it was consistent with the Comprehensive Plan and would be consistent with surrounding land uses. In light of that recommendation, staff is supportive of the requested waiver of the required 12 month prohibition period so that a planned development rezoning application can be made.

RECOMMENDATION:

Staff recommends approval of the waiver request.

SUGGESTED MOTION:

I move we recommend approval of the waiver request.
