What experience, knowledge and insight in the LLD and/or Civic Participation can you provide to the Commission?

I have lived in Angels Camp for the last 20 years, I worked in Arnold building 3 different houses. I also remodeled 2 houses in the bay Area and most recently in the last 2 years working with Habitat as a volunteer on different construction projects. I just completed the required Defensible Space Assessor Training as a member of the Angels Firewise a Qualified Entity, which was a 2 day course put on by Cal Fire, and have done 12 home inspections since completing. I'm new to the LLD, but feel I can have some great insight.

From a LLD aspect, what three things do you believe the City is doing well?

It seems like the City has been working great with the LLD, when there is a need for funding for repairs they have been very responsive. The City was very helpful when Greenhorn needed ~~needed~~ a new landscaper/maintenance they stepped in and helped with the process to find a new crew. When home owners have concerns with repairs the process is smooth

From a LLD aspect, what three areas does the City need to improve on the most?

The Clearing of Dead Trees along our roadways, which they have been working on,

For the most part I believe the City of Angels Camp is doing a good job.

If we can work together and cut the budget and save homeowners dollars
