RE: SELKIRK AND MCCAULEY ENTRANCE CLEANUP

Earlier this year we did a major cleanup of the wetland perimeter at the Selkirk entrance. We spent about \$3,000, and the results were very well received by the community. We would like to extend this work on the other 2 sides of the wetland area along the sidewalks on Greenhorn Creek Rd and Smith Flat Rd. We would also like to do similar work at the McCauley entrance from Greenhorn Creek Rd to the start of the driving range area. Estimated cost: \$6,000.
