

Calaveras County Garden Club

UTICA PARK Beautification Project

Fountain/Plaque Mistake

- Fountain and plaque placed inside the collaborative garden. Plaque assumes another entity created the garden.
- Negative aesthetic and functional impact on the garden.
- Conduit had been run under the sidewalk for the fountain to be placed on the other side of the sidewalk. Why did this not happen?
- The Armillary sphere is no longer the main attraction.
- CCGC should have been consulted.

Before and After

Calaveras County Garden Club began this project in 2025. We continue to groom this garden monthly.

Rose Arbor

Herb Garden

Promenade

Armillary Garden
