To Whom it May Concern,

The City of Angels is pleased to offer this formal letter of support for the proposal to secure a grant for the construction of a Skilled Nursing Facility (SNF) in Arnold, California. Calaveras County has a long-recognized shortage of local skilled nursing capacity, resulting in many residents—particularly seniors and medically fragile individuals—being forced to seek care outside the county.

This project represents a critical opportunity to expand access to high-quality, locally based skilled nursing services. A new SNF would allow residents to remain closer to family, reduce the emotional and financial burden associated with out-of-county placement, and strengthen the overall continuum of healthcare in our region.

The City of Angels strongly supports the efforts to increase skilled nursing options within Calaveras County and believes this project will significantly improve the quality of life and well-being of our community members. We encourage full consideration and approval of this proposal.

If additional information or verification is needed, please do not hesitate to contact our office.
