16.24.070	Bicycle pathsPedestrian ways.
16.24.080	Utility easements.
16.24.090	DedicationsNonexclusive access.
16.24.100	Reservations for public uses.
16.24.105	Provisions of parks or recreational facilities of the payment of in-lieu fees for
	subdivisionsEstablishes in-lieu fee amounts.
16.24.110	Street lighting.
16.24.120	Fire protection devices.
16.24.130	Street and storm drains.
16.24.140	Sewerage.
16.24.150	Water improvements.
16.24.160	Improvement installation.
16.24.170	Plan-checking and inspection fees.
16.24.180	Improvement conveyances and agreements.

16.24.065 Roads and Driveways. (New)

- A. All two-way roads shall be constructed to provide a minimum width dependent on the applicable road classification established by the City of Angels Improvement Standards. These traffic lanes shall provide two-way traffic flow to support emergency vehicle and passenger vehicle access.
- B. All one-way roads shall at both ends connect to a road with two traffic lanes providing for traffic in different directions.
- C. In no case shall a one-way road exceed 2,640 feet in length. A turnout shall be placed and constructed at approximately the midpoint of each one-way road.
- D. Roads shall be designed and maintained to support the imposed load of a typical fire apparatus weighing at least 75,000 pounds and provide an aggregate base of asphalt, concrete, or other surface that is approved by the fire chief and the city engineer.
- E. Turnouts, turn arounds, and cul-de-sacs shall be designed in accordance with the City of Angels Improvement Standards and Appendix D of the California Fire Code, or whichever is more restrictive.
- F. Road and driveway widths, lengths, grades, and surfacing shall be designed in accordance with the City of Angels Improvement Standards and Appendix D of the California Fire Code, or whichever is more restrictive.
- G. Additional road and driveway standards are found in AMC Section 17.69.080.

16.24.110 Street lighting.

Street lighting shall be provided as set forth in the improvement standards of the city.

A. A street lighting system shall be furnished in place by the subdivider along all interior and boundary streets within all subdivision, including commercial and industrial subdivisions, in accordance with the standards set forth in the improvement standards of the city.

B. Street lights and all appurtenances thereto shall be located within the street right-of-way or within easements dedicated for such purpose. Street lights shall be spaced along the street as required for the type of luminaire placed and in accordance with improvement standards of the city. (Ord. 250 §7.12, 1981)

16.24.130 Street and storm drains.

All street improvements required shall be designed and constructed in accordance with the "City Improvement Standards." Curbs, gutters and sidewalks may be required as a condition of approval of any subdivision or parcel map. (Ord. 250 §7.14, 1981)
