

City Clerk February 2023 Meeting Report

So far everything has been going well. I assigned four elders to our participants that signed up, one of the participants followed up by email and let me know that they checked on her, dumped her trash and her husband was going to get her four-wheeling working. I've been getting more familiar with work tasks and staying busy at the office. I'm slowly learning the process of our council meetings and getting the agenda and meeting minutes completed in a timely manner.
