

## Anthony Commission Meeting 5/2/2023: Dept. Reports

### **Street Department:**

- Dirt work around the lake sign
- Grading lake roads
- Patching holes
- Mowing
- Repaired merry-go-round at the Water Tower Park
- Picking up cones and barricades
- Checking for limbs after the storm
- Hauling rock to RV Dump
- Cleaning the mechanic shop
- Burning brush piles

### **Water & Wastewater Department:**

- Opened Park Restrooms
- Worked on Restroom at the West Park
- Cleaned lift stations.
- Repaired ACs at pump houses
- Flushed hydrants.
- Tried to slow leak on High Service Pump #1
- Cleaned Water Plant
- Worked on the toilet at ballfield Restroom.
- Repaired main water break 3.5 miles north of town on 4/19/23.

### **Shop:**

- No report

### **Power Plant:**

- Mower repairs and installed new tires and blades.
- Worked at the RV dump station and got parts together for the vent.
- We thought we was going to have the Magellan pump station come up and run some so while KMEA Mid-States was in Wichita I had them run down and go through all the meter settings on that feed since it had been a couple years to make sure we was ready and we checked everything else out but was notified that they had changed their minds, but it was a great refresher for myself and crew.
- Tate and Hunter worked on some repairs at the fire station on several truck issues, serviced truck #4 and fixed water dept. mower.
- Larry and CK attended A EMP-2 meeting in Beloit and following the meeting got to take a tour of their 2 megawatt solar farm that the city has installed.
- Daily plant rounds

### **Electric Department:**

- Replaced 35'A1 Pole behind 309 N. West St.

- Set rebuilt transfer pump at sewer plant.
- Worked on Lake RV Dump Station
- Hung 46 door knockers.
- Helped with water main break.
- Replaced 40'A1 at 188 N.E. 20 Rd. Cause - high wind.
- Outage 9.5 miles south 5 miles east. Cause - high wind
- Outage 4 miles west 3.5 miles south. Cause – unknown
- Stepped down voltage at 277 N.W. 20 Rd.
- Hung new meter loop at 410 N. Springfield.
- Replaced window at shop that blew out from high wind.
- Light list
- Locates
- Turn On/Off Orders
- Just Read Orders

## **Superintendent Report:**

- Met with Departments every morning.
- Prepared a RFQ for VFD on High Service Pump #1.
- Numerous fence, building, and roofing permits
- Answered phone calls about City codes and prices for permits.
- Watched the Water Dept, Brett G., Chris C., and Garret B. as they repaired a leak on the main 3.5 mi. N of town. They all worked together and got the repair completed efficiently.
- Put an order together for Water Dept. spare parts for stock.
- Met with Water Dept. and John Kretzer from Utility Maintenance Contractors at the pool to determine what repairs need done before it is filled with water.
- Went to the Lake to check to see if locations on the new map are in place.
