

The Anthony Lake Board requests approval from the Anthony City Commission to use \$2,109 of lake board funds to purchase a new "Welcome to Anthony Lake" sign to be placed at the main lake entrance. The old metal sign will be removed.

The lake board members have been working on this project since 2023. Considerable discussion and research led to a final decision. At the May 13, 2024 Anthony Lake Board meeting a motion was made, a second given, discussion, and a unanimous vote to present this request to the Anthony City Commission for approval.

Sign description:

Letters will be 8" tall x 1/4" thick flat cut aluminum in ARIAL BOLD font attached to a backer panel. (WELCOME TO ANTHONY LAKE)

Backer panel will be 11" tall x 1-1/2" thick and a length of 16 Feet, constructed of AC2 Ground Contact Pressure treated Lumber

in a Western Cedar Color (darker than regular PT Lumber) and attached to the existing wooden posts at the lake.

We ask that the city maintenance crew assist with installation, as we will need some posts and landscaping removed and/or relocated to accommodate the new sign to be centered in front of the flagpole.

While we do not have an actual sketch or picture of the proposed sign, you can see a similar sign photo below.

Total completed and installed cost will be \$2,109.00
