All property owners, tenants, and neighborhood associations within 300 feet of this rezoning have been notified per UDO Sec. 2.2.11 *Public Notification*.

BACKGROUND INFORMATION:

Location: 2517 Kelly Road
Owner: Fahey Family Farm, LLC
Applicant: Trilandco, LLC
Authorized Agent: Matthew Carpenter, Parker Poe

PROJECT DESCRIPTION:

Acreage: ±5.8591
PIN: 0731434504
Current Zoning: Planned Unit Development-Conditional Zoning (PUD-CZ #15CZ33)
Proposed Zoning: Planned Unit Development-Conditional Zoning (PUD-CZ)
2045 Land Use Map: Mixed Use: High Density Residential/Office Employment/Commercial Services
Town Limits: ETJ

Adjacent Zoning & Land Uses:

	Zoning	Land Use
North:	Planned Unit Development-Conditional Zoning (PUD-CZ #15CZ33)	Townhomes (West Village)
South:	Residential Agricultural (RA)	Single-family
East:	Residential Agricultural (RA)	NC 540 Highway
West:	Planned Unit Development-Conditional Zoning (PUD-CZ #15CZ33); Mixed Office-Residential-Retail-Conditional Zoning (MORR-CZ #19CZ23)	Kelly Road; Single-family; Office; Future West Village Commercial

EXISTING CONDITIONS:
The subject property is located on the east side of Kelly Road and west of NC 540 Highway. The parcel includes structures and existing vegetation. The property was originally rezoned to Planned Unit Development-Conditional Zoning on July 19, 2016 as part of the West Village development. The parcel is classified as "POD 1" and is approved for non-residential uses.

NEIGHBORHOOD MEETING:
The applicant conducted the first neighborhood meeting on January 30, 2025 and the second neighborhood meeting on April 15, 2025. The neighborhood meeting reports are attached.

2045 LAND USE MAP:
The 2045 Land Use Map classifies the property subject to this rezoning as Mixed Use: High Density Residential/Office Employment/Commercial Services. The proposed amendments to the PUD-CZ zoning are consistent with that classification.

APEX TRANSPORTATION PLAN
The Apex Transportation Plan identifies a roundabout at the location of the proposed site driveway on Kelly Road across from a future major collector street west of Kelly Road. Additionally, the Transportation Plan shows widening on Kelly Road from the intersection northward to a 4-lane, median divided

thoroughfare with 6-foot bike lanes and 5-foot sidewalks, and southward as a 3-lane thoroughfare with widening with 6-foot bike lanes and 5-foot sidewalks. The proposed amendments to the PUD-CZ zoning are consistent with the Apex Transportation Plan.

WCPSS COORDINATION:
No increase in residential density is proposed as part of this rezoning and so an impact letter from WCPSS was not requested.

ENVIRONMENTAL ADVISORY BOARD RECOMMENDATIONS:
This rezoning was exempt from meeting with the Apex Environmental Advisory Board (EAB) per Unified Development Ordinance (UDO) Section 2.1.9.A.2.a. The rezoning amends zoning conditions which have no environmental impact on a site including, but not limited to, revisions to architectural standards, building height, setbacks, and uses.

BACKGROUND:
The current West Village PUD includes transportation and road improvement conditions linked to the non-residential parcels. Currently, the transportation infrastructure improvements in the non-residential district must be completed before issuance of the first certificate of occupancy for a non-residential building. As the PUD is currently written, the first parcel to develop a non-residential use(s) would need to construct all required road improvements and transportation infrastructure for the overall permitted 500,000 square feet of non-residential uses, with the exception of what is specifically tied to POD 3 (i.e. construction of the roundabout on Kelly Road and Public Street A connection from the Kelly Road roundabout to Street B roundabout).

The proposed PUD amendment would allow for POD 1 to develop and provide only those transportation improvements associated with this property with the remaining road improvements to occur with development in the remaining non-residential pods (PODS 2 and 3).

PLANNED UNIT DEVELOPMENT PLAN:
The applicant is proposing the following changes to Section 13: Public Facilities associated with POD 1 with this PUD amendment. There are no other changes proposed to the previously approved rezonings. Deletions are shown with strikethrough and additions are shown in bold.

Section 13: Public Facilities
The proposed PUD shall meet all Public Facilities requirements as set forth in UDO Section 2.3.4(F)(1)(f) and be designed according to sound engineering standards.Specifically, road and utility infrastructure shall be as follows:

- **General Roadway Infrastructure:**
  All proposed roadway infrastructure will be consistent with the Town of Apex UDO and Transportation Plan ~~(updated in 2011),~~ and the Traffic Impact Analysis approved by the Town of Apex and NCDOT. An internal road network will be provided in accordance with the Town's UDO. All road networks will promote connectivity wherever possible to adjacent neighborhoods, undeveloped property, nearby points of interest, and municipal destinations. Further, cul-de-sacs will be avoided except where environmental features make through streets unfeasible.

Roadway Phasing – Prior to time of the fifty-first certificate of occupancy associated with the residential located off of Old US HWY 1, the second point of access (southernmost portion of Street A),

necessary portion of the southernmost roundabout and Street B shown shall be constructed. As a part of the non-residential development in Pod 3, the roundabout proposed on Kelly Road shall be constructed along with the portion of Street A tying back to the southernmost roundabout. Prior to time of the first certificate of occupancy associated with ~~Pod 3~~ **POD 3**, **as part of the development of POD 3**, Street A will be complete the connection from Kelly Road and Old US HWY 1.

- **Off-Site Transportation Conditions:**

The project will also provide the following off-site transportation conditions:

All recommendations on state-maintained roadways are subject to NCDOT review and approval as part of the driveway permits and encroachment agreements. Build 2018 refers to the first plat of residential development. ~~or as otherwise determined by Apex Town Council during the review and approval of subdivision plans. Build 2020~~ **Build 2030** refers to the first plat of commercial development ~~or as otherwise determined by Apex Town Council during the review and approval of commercial stie plans~~ **for POD 2 or POD 3 and does not include the development of POD 1, also identified as Build 2028, which is subject to separate recommendations set forth below. Please note that prior analysis and the original basis for build-out recommendations was based on a Build 2020 analysis.** Internal Protected Storage Length (IPS) refers to the required minimum distance from the intersection along the proposed driveway or street before any full movement commercial driveway access or public street intersection will be allowed.

Developer shall provide right-of-way dedication along Kelly Road and Old US 1 based on a 100-foot right-of-way. Where Old US 1 abuts railroad right-of-way the developer shall be responsible for dedicating public right-of-way 70 feet from roadway centerline along the project frontage or as otherwise required to accommodate a 100-foot road right-of-way exclusive of railroad right-of-way.

Street 'A' and Street 'B' (including Kelly Road at Site Drive #4)

- Street 'A' shall be constructed as a 3-lane 38-foot curb and gutter street with 5-foot sidewalk on both sides on 62-foot public right-of-way.
- Street 'B' shall be constructed as a 2-lane 39'-foot curb and gutter street with on-street parking and 6-foot sidewalk on both sides on 53-foot public right-of-way.
- Residential driveway access shall not be permitted along Streets 'A' and 'B'.
- Prior to platting the 51st residential unit in the Residential area located adjacent to Old US 1, developer shall construct and dedicate as public Street 'A' from Site Drive #5 to the roundabout at Street 'B', roundabout serving Street 'A' at Street 'B', and Street 'B' from Site Drive #6/Pleasant Plains Road to the roundabout at Street 'A'.
- Prior to the first certificate of occupancy within POD 3, developer shall construct and dedicate as public Street 'A' from the roundabout at Street 'B' to Kelly Road at Site Drive #4 and construct a roundabout on Kelly Road at Site Drive #4. The roundabout will serve a 4-lane divided roadway to the north and 2-lane roadwayto the south ~~for Build 2020~~.
    - **POD 1: *Kelly Road Roundabout*. Developer shall prepare a preliminary design and engineer's estimate for review and approval and dedicate right of way and construction easements for the future construction of a roundabout at the intersection of the site driveway, Kelly Road, and Street A as shown on the Town of Apex Thoroughfare and Collector Street Plan (the "Roundabout"). Prior to site plan final plat for POD 1, Developer shall pay a fee in lieu for eight percent (8%) of the estimated costs to design and construct the Roundabout.**

Kelly Road at Olive Chapel Road

- Developer shall construct a 200-foot eastbound right turn lane and a 300-foot additional westbound left turn lane on Olive Chapel Road (with southbound receiving through lane on Kelly Road) for ~~Build 2020~~ **Build 2030**.
- **POD 1: Developer shall provide a preliminary plan and engineer's estimate for review and approval and pay a fee in lieu in the amount of 8% of the total estimated cost of the aforementioned improvements prior to site plan final plat in POD 1.**

Kelly Road at Apex Barbecue Road

- ~~Developer shall construct a 400-foot eastbound left turn lane, 350-foot westbound left turn lane, 350-foot northbound left turn lane, 150-foot northbound right turn lane, 350-foot southbound left turn lane, and 200-foot southbound rightturn lane for Build 2020.~~
- **Improvements have been completed by others satisfying the prior zoning requirements for a Build 2020 analysis including the following: construction of a 400-foot eastbound left turn lane, 350-foot westbound left turn lane, 350-foot northbound left turn lane, 150-foot northbound right turn lane, 350-foot southbound left turn lane, and 200-foot southbound right turn lane. No additional improvements are recommended for updated commercial build dates, Build 2028 (POD 1) and Build 2030 (PODS 2 & 3).**

Kelly Road at Southwinds Run

Developer shall construct a 100-foot northbound left turn lane on Kelly Road, an additional (second) northbound through lane through the intersection to drop as a right turn at Site Drive #1, and begin an additional (second) southbound through lane immediately south of Southwinds Run for ~~Building 2020~~ **Build 2030**.

Old US 1 at Kelly Road

- Developer shall construct a 100-foot westbound right turn lane on Old US 1 for Build 2018.
- Developer shall convert the intersection to right-in/right-out as well as construct an additional westbound through lane, beginning at the NC 540 Southbound off-ramp as a free-flow right turn exiting the ramp, along with a 200-foot westbound right turn lane on Old US 1 for ~~Build 2020~~ **Build 2030**.
- ~~Prior to platting the 300th residential unit, the developer will complete a signal warrant analysis at the intersection of Old US 1 and Kelly Road to determine if a traffic signal is warranted at the intersection. If the signal is warranted and approved for installation by NCDOT, the developer will permit and install the traffic signal. However, if Street "A" through POD 3 is under construction prior toinstallation of the signal, then the requirement for the signal shall be waived and the Kelly Road / Old US 1 intersection shall be converted to a Right-In/Right-Out as required in the improvements for the commercial development.~~

NC 540 Ramps at Old US 1

- Developer shall provide a free-flow right turn lane for the NC 540 Southbound off-ramp and additional receiving through lane continuing west to drop as a right turn at Site Drive #6 on Old US 1 for ~~Build 2020~~ **Build 2030**.

Old US 1 at Pleasant Plains Road & Site Drive #6

- Developer shall construct Site Drive #6 with a through-right lane and a 200-footleft turn lane for Build 2018.
- Developer shall construct a 200-foot eastbound left turn lane and 200-foot westbound left turn

lane on Old US 1 for Build 2018.

- ~~Developer shall install a traffic signal once warranted and approved by NCDOT and install communication with the NC 540 traffic signals for Build 2020.~~
- Developer shall construct an additional westbound through lane on Old US 1 to drop as a right turn lane at Site Drive #6 for ~~Build 2020~~ **Build 2030**.
- Developer shall construct an additional eastbound through lane on Old US 1beginning 400 feet west of Site Drive #6 for ~~Build 2020~~ **Build 2030.**

Kelly Road at Site Drive #1

- Developer shall construct Site Drive #1 as a right-in and right-out only providing 100 feet IPS and a 100-foot northbound right turn lane on Kelly Road for Build 2018.
- Developer shall construct an additional northbound through lane on Kelly Road to drop as a right turn lane at Site Drive #1 for ~~Build 2020~~ **Build 2030.**

Kelly Road at Site Drive #2

- Developer shall construct Site Drive #2 as a right-in and right-out only providing 100 feet IPS for Build 2018.
- Developer shall construct an additional northbound through lane and an additional southbound through lane on Kelly Road at Site Drive #2 for ~~Build 2020~~ **Build 2030**.

Kelly Road at Site Drive #3

- Developer shall construct Site Drive #3 with a 100-foot eastbound right turn lane and a 100-foot westbound right turn lane on the Site Drive #3 approaches adjacent to through-right lanes with 200 feet IPS for Build 2018.
- Developer shall construct 100-foot northbound and 100-foot southbound left turn lanes on Kelly Road for Build 2018.
- Developer shall construct an additional (second) southbound through lane and additional (second) northbound through lane on Kelly Road at Site Drive #3 for ~~Build 2020~~ **Build 2030**.

Old US 1 at Site Drive #5

- Developer shall ~~construct~~ **convert** Site Drive #5 ~~as a full-movement intersection~~ **from a right-in/right-out to a signalized full-movement intersection** with 200-foot dual southbound left turn lanes and a 200-foot southbound right turn lane providing 300 feet IPS providing connectivity to both the residential and commercial phases for ~~Build 2020~~ **Build 2030**.
- Developer shall construct an additional (second) westbound through lane and add a 200-foot westbound right turn lane on Old US 1 for ~~Build 2020~~ **Build 2030**.
- Developer shall construct a 300-foot eastbound left turn lane and an additional (second) eastbound through lane on Old US 1 dropping 1000 feet east of the intersection for ~~Build 2020~~ **Build 2030**.

Construction of the preceding roadway infrastructure improvements shall not be required for the development of POD 1. Fee in lieu payments and additional right of way dedication where required for POD 1 are noted in the above sections where applicable. Development of POD 1 shall include the below roadway infrastructure improvements which shall be consistent with the Traffic Impact Analysis on file with the Town of Apex prepared by DRMP dated 1/30/2025 and the Town of Apex Transportation Plan. The road improvements shall be subject to Town of Apex and North Carolina

Department of Transportation approval.

- ***Kelly Road Widening*. Developer shall dedicate right of way for the length of the property's Kelly Road frontage, measured a minimum of 55 feet from the existing centerline of Kelly Road, and widen and improve Kelly Road for the length of the property's Kelly Road frontage based on an 84-foot back-to-back curb and gutter 4-lane divided roadway with 5-foot sidewalks and 6-foot bike lanes in a 110-foot right of way.**

- ***Kelly Road and Site Driveway*. Developer shall construct:**
  - **the Site Driveway with a stop-controlled approach, one ingress lane, and one egress lane; and**
  - **a southbound left turn lane on Kelly Road with a minimum of 75 feet of storage.**

- **Electric Charging Stations:**
  Developer shall provide 2 charging stations, one within the residential and one within the non-residential for electric vehicles within the overall project. In addition to these committed stations, two additional charging stations will be installed as part of the overall project.

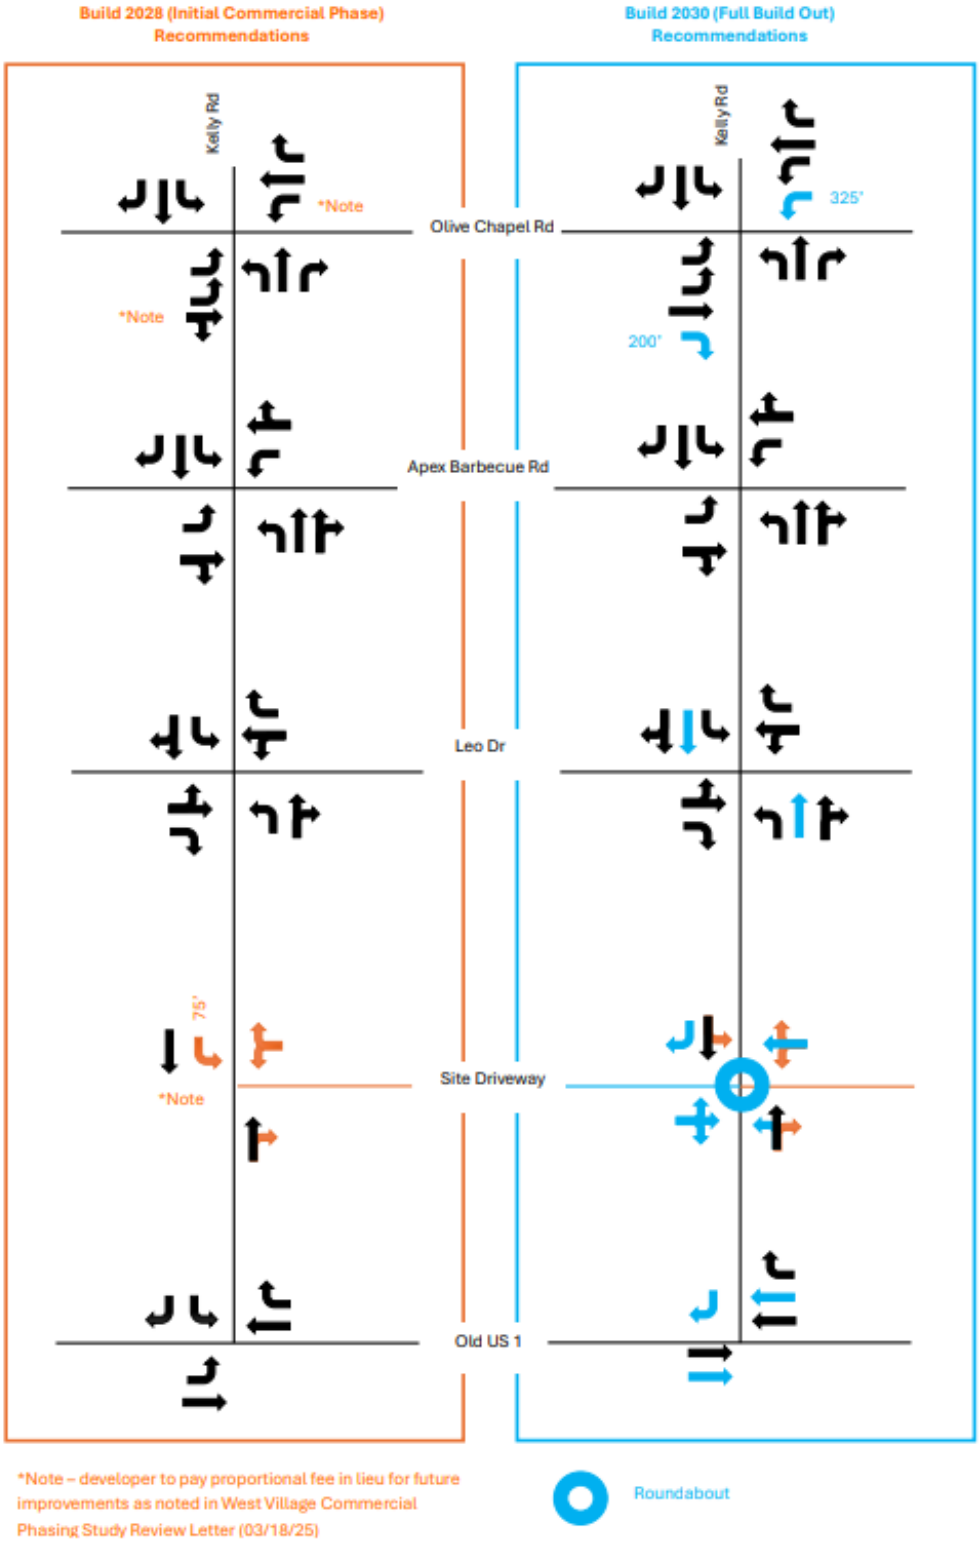
- **Water & Sewer Utilities:**
  All water and sanitary sewer service will be provided by the developer and conform to the Town of Apex Public Works and Utilities Department requirements. Preliminary location and tie in points are shown on sheet C-3 and C-4 of the PUD plans. The water extension shown along Kelly Road to Old US HWY 1, alternatively, could be located through Pod – 3 Commercial and southernmost residential accomplishing the intent of the routing shown on sheet C-3 and C-4. The ultimate routing will be dictated by timing of commercial development, roadway construction internal to the site and timing commitment related to the extension. However, this will be coordinated with the Town of Apex at time of site plan and construction documents.

  Developer to provide $75,000 in escrow for use by the Westwinds community for insurance associated with community wells, for use in drilling new wells or to extend public water into the community as a primary or secondary water source. Ultimately, the well-related use of the funds will be determined by the Westwinds community. Land owners will be required to annex into the Town ofApex prior to making any connections to public water services provided by the Town.

- **Other Utilities:**
  Electricity will be provided by Apex Electric. Phone, cable and gas will beprovided by the developer and shall meet the Town of Apex standards as outlined in the UDO.

PROPOSED TRANSPORTATION IMPROVEMENTS:

The following figure illustrates the proposed Build 2028 (Initial Commercial Phase) Recommendations and Build 2030 (Full Build Out) recommendations:



PLANNING STAFF RECOMMENDATION:
Planning staff recommends approval of Rezoning #25CZ05 West Village PUD Amendment as proposed by the applicant.

Transportation staff agree with the proposed transportation conditions proposed by the applicant and the TIA recommendations. Under Build 2028, the conditions of the site driveway are expected to operate acceptably as proposed.

PLANNING BOARD RECOMMENDATION:
The Planning Board held a public hearing on May 12, 2025 and unanimously recommended approval with the conditions offered by the applicant.

ANALYSIS STATEMENT OF THE REASONABLENESS OF THE PROPOSED REZONING:
This Statement will address consistency with the Town's comprehensive and other applicable plans, reasonableness, and effect on public interest:

> The proposed amendments to the current PUD-CZ zoning are consistent with the 2045 Land Use Map which classifies the area to be rezoned as Mixed Use: High Density Residential/Office Employment/Commercial Services.
>
> The proposed rezoning is reasonable and in the public interest as it will ensure compliance with the existing conditions of the previously approved PUDs while allowing the subject property (POD 1) to construct transportation improvements appropriate to the size of the parcel and the square footage of the non-residential use. The PUD amendment will allow the remaining road improvements from the previous rezoning to be constructed as the non-residential uses are developed in POD 2 and 3.

PLANNED UNIT DEVELOPMENT DISTRICT AND CONDITIONAL ZONING STANDARDS:
Standards
In return for greater flexibility in site design requirements, Planned Development (PD) Districts are expected to deliver exceptional quality community designs that preserve critical environmental resources; provide high quality community amenities; incorporate creative design in the layout of buildings, Resource Conservation Area and circulation; ensure compatibility with surrounding land uses and neighborhood character; provide high quality architecture; and provide greater efficiency in the layout and provision of roads, utilities, and other infrastructure. The Planned Development (PD) Districts shall not be used as a means of circumventing the Town's adopted land development regulations for routine developments.

1. Planned Unit Development (PUD-CZ) District
   In approving a Planned Development (PD) Zoning District designation for a PUD-CZ, the Town Council shall find the PUD-CZ district designation and PD Plan for PUD-CZ demonstrates compliance with the following standards:
   a) *Development parameters*
      (i) The uses proposed to be developed in the PD Plan for PUD-CZ are those uses permitted in Sec. 4.2.2 *Use Table.*
      (ii) The uses proposed in the PD Plan for PUD-CZ can be entirely residential, entirely non-residential, or a mix of residential and non-residential uses, provided a minimum percentage of non-residential land area is included in certain mixed use areas as specified on the 2045 Land Use Map. The location of uses proposed by the PUD-CZ must be shown in the PD Plan with a maximum density for each type of residential use and a maximum square footage for each type of non-residential use.

(iii) The dimensional standards in Sec. 5.1.3 *Table of Intensity and Dimensional Standards, Planned Development Districts* may be varied in the PD Plan for PUD-CZ. The PUD-CZ shall demonstrate compliance with all other dimensional standards of the UDO, North Carolina Building Code, and North Carolina Fire Code.

(iv) The development proposed in the PD Plan for PUD-CZ encourages cluster and compact development to the greatest extent possible that is interrelated and linked by pedestrian ways, bikeways and other transportation systems. At a minimum, the PD Plan must show sidewalk improvements as required by the Apex Transportation Plan and the *Town of Apex Standard Specifications and Standard Details*, and greenway improvements as required by the Town of Apex Parks, Recreation, Greenways, and Open Space Plan and the Apex Transportation Plan. In addition, sidewalks shall be provided on both sides of all streets for single-family detached homes.

(v) The design of development in the PD Plan for PUD-CZ results in land use patterns that promote and expand opportunities for walkability, connectivity, public transportation, and an efficient compact network of streets. Cul-de-sacs shall be avoided unless the design of the subdivision and the existing or proposed street system in the surrounding area indicate that a through street is not essential in the location of the proposed cul-de-sac, or where sensitive environmental areas such as streams, floodplains, and wetlands would be substantially disturbed by making road connections.

(vi) The development proposed in the PD Plan for PUD-CZ is compatible with the character of surrounding land uses and maintains and enhances the value of surrounding properties.

(vii) The development proposed in the PD Plan for PUD-CZ has architectural and design standards that are exceptional and provide higher quality than routine developments. All residential uses proposed in a PD Plan for PUD-CZ shall provide architectural elevations representative of the residential structures to be built to ensure the Standards of this Section are met.

b) *Off-street parking and loading*. The PD Plan for PUD-CZ shall demonstrate compliance with the standards of Sec. 8.3 *Off-Street Parking and Loading*, except that variations from these standards may be permitted if a comprehensive parking and loading plan for the PUD-CZ is submitted as part of the PD Plan that is determined to be suitable for the PUD-CZ, and generally consistent with the intent and purpose of the off-street parking and loading standards.

c) *RCA*. The PD Plan for PUD-CZ shall demonstrate compliance with Sec. 8.1.2 Resource Conservation Area, except that the percentage of RCA required under Sec. 8.1.2 may be reduced by the Town Council by no more than 10% provided that the PD Plan for PUD-CZ includes one or more of the following:

(i) A non-residential component;

(ii) An overall density of 7 residential units per acre or more; or

(iii) Environmental measures including but not limited to the following:

a. The installation of a solar photovoltaic (PV) system on a certain number or percentage of single-family or townhouse lots or on a certain number or percentage of multifamily, mixed-use, or nonresidential buildings. All required solar installation shall be completed or under construction prior to 90% of the building permits being issued for the approved number of lots or buildings. For single-family or townhouse installations, the lots on which these homes are

located shall be identified on the Master Subdivision Plat, which may be amended;

b. The installation of a geothermal system for a certain number or percentage of units within the development; or

c. Energy efficiency standards that exceed minimum Building Code requirements (i.e. SEER rating for HVAC).

d) *Landscaping*. The PD Plan for PUD-CZ shall demonstrate compliance with the standards of Sec. 8.2 *Landscaping, Buffering and Screening*, except that variations from these standards may be permitted where it is demonstrated that the proposed landscaping sufficiently buffers uses from each other, ensures compatibility with land uses on surrounding properties, creates attractive streetscapes and parking areas and is consistent with the character of the area. In no case shall a buffer be less than one half of the width required by Sec. 8.2 or 10 feet in width, whichever is greater.

e) *Signs.* Signage in the PD Plan for PUD-CZ shall demonstrate compliance with Sec. 8.7 *Signs*, except that the standards can be varied if a master signage plan is submitted for review and approval concurrent with the PD plan and is determined by the Town Council to be suitable for the PUD-CZ and generally consistent with the intent and purpose of the sign standards of the UDO. The master signage plan shall have design standards that are exceptional and provide for higher quality signs than those in routine developments and shall comply with Sec. 8.7.2 *Prohibited Signs*.

f) *Public facilities.* The improvements standards and guarantees applicable to the public facilities that will serve the site shall comply with Article 7: *Subdivision and* Article 14: *Parks, Recreation, Greenways, and Open Space*.

(i) The PD Plan for PUD-CZ demonstrates a safe and adequate on-site transportation circulation system. The on-site transportation circulation system shall be integrated with the off-site transportation circulation system of the Town. The PD Plan for PUD-CZ shall be consistent with the Apex Transportation Plan and the *Town of Apex Standard Specifications and Standard Details* and show required right-of-way widths and road sections. A Traffic Impact Analysis (TIA) shall be required per Sec. 13.19.

(ii) The PD Plan for PUD-CZ demonstrates a safe and adequate on-site system of potable water and wastewater lines that can accommodate the proposed development, and are efficiently integrated into off-site potable water and wastewater public improvement plans. The PD Plan shall include a proposed water and wastewater plan.

(iii) Adequate off-site facilities for potable water supply, sewage disposal, solid waste disposal, electrical supply, fire protection and roads shall be planned and programmed for the development proposed in the PD Plan for PUD-CZ, and the development is conveniently located in relation to schools and police protection services.

(iv) The PD Plan shall demonstrate compliance with the parks and recreation requirements of Sec. Article 14: *Parks, Recreation, Greenways, and Open Space* and Sec. 7.3.1 *Privately-owned Play Lawns* if there is a residential component in the PUD-CZ.

g) *Natural resource and environmental protection.* The PD Plan for PUD-CZ demonstrates compliance with the current regulatory standards of this Ordinance related to natural resource and environmental protection in Sec. 6.1 *Watershed Protection Overlay District*, Sec. 6.2 *Flood Damage Prevention Overlay District*, and Sec. 8.1 *Resource Conservation*.

h) *Storm water management.* The PD Plan shall demonstrate that the post-development rate of on-site storm water discharge from the entire site shall not exceed pre-development levels in accordance with Sec. 6.1.7 of the UDO.

i) *Phasing.* The PD Plan for PUD-CZ shall include a phasing plan for the development. If development of the PUD-CZ is proposed to occur in more than one phase, then guarantees shall be provided that project improvements and amenities that are necessary and desirable for residents of the project, or that are of benefit to the Town, are constructed with the first phase of the project, or, if this is not possible, then as early in the project as is technically feasible.

j) *Consistency with 2045 Land Use Map.* The PD Plan for PUD-CZ demonstrates consistency with the goals and policies established in the Town's 2045 Land Use.

k) *Complies with the UDO.* The PD Plan for PUD-CZ demonstrates compliance with all other relevant portions of the UDO.

Legislative Considerations

The Town Council shall find the PUD-CZ designation demonstrates compliance with the following standards. Sec. 2.3.3.F:

The applicant shall propose site-specific standards and conditions that take into account the following considerations, which are considerations that are relevant to the legislative determination of whether or not the proposed conditional zoning district rezoning request is in the public interest. These considerations do not exclude the legislative consideration of any other factor that is relevant to the public interest.

1) *Consistency with 2045 Land Use Map.* The proposed Conditional Zoning (CZ) District use's appropriateness for its proposed location and consistency with the purposes, goals, objectives, and policies of the 2045 Land Use Map.

2) *Compatibility.* The proposed Conditional Zoning (CZ) District use's appropriateness for its proposed location and compatibility with the character of surrounding land uses.

3) *Zoning district supplemental standards.* The proposed Conditional Zoning (CZ) District use's compliance with Sec. 4.4 *Supplemental Standards,* if applicable.

4) *Design minimizes adverse impact.* The design of the proposed Conditional Zoning (CZ) District use's minimization of adverse effects, including visual impact of the proposed use on adjacent lands; and avoidance of significant adverse impacts on surrounding lands regarding trash, traffic, service delivery, parking and loading, odors, noise, glare, and vibration and not create a nuisance.

5) *Design minimizes environmental impact.* The proposed Conditional Zoning District use's minimization of environmental impacts and protection from significant deterioration of water and air resources, wildlife habitat, scenic resources, and other natural resources.

6) *Impact on public facilities.* The proposed Conditional Zoning (CZ) District use's avoidance of having adverse impacts on public facilities and services, including roads, potable water and wastewater facilities, parks, schools, police, fire and EMS facilities.

7) *Health, safety, and welfare.* The proposed Conditional Zoning (CZ) District use's effect on the health, safety, or welfare of the residents of the Town or its ETJ.

8) *Detrimental to adjacent properties.* Whether the proposed Conditional Zoning (CZ) District use is substantially detrimental to adjacent properties.

9) *Not constitute nuisance or hazard.* Whether the proposed Conditional Zoning (CZ) District use constitutes a nuisance or hazard due to traffic impact or noise, or because of the number of persons who will be using the Conditional Zoning (CZ) District use.

10) *Other relevant standards of this Ordinance.* Whether the proposed Conditional Zoning (CZ) District use complies with all standards imposed on it by all other applicable provisions of this Ordinance for use, layout, and general development characteristics.

March 18, 2025

Rynal Stephenson, PE
DRMP
5808 Faringdon Pl., Suite 100
Raleigh, NC 27609

Subject: **Staff summary and comments for West Village Commercial Phasing TIA, 01/30/2025**

Mr. Stephenson:

Please review the following comments and recommendations on your traffic impact analysis (TIA). You may schedule a meeting with me and your client to discuss at your convenience.

Study Area

This phasing analysis studied access to the proposed development via one (1) site driveway:

- Kelly Road and Proposed Site Driveway (Site Driveway #4 in the 2016 TIA)

Additionally, the following four (4) intersections were studied in the analysis:

- Kelly Road and Olive Chapel Road
- Kelly Road and Apex Barbeque Road
- Kelly Road and Leo Drive
- Kelly Road and Old US 1

Trip Generation

This phasing study analyzes the initial commercial phase of the West Village development as well as the Full Build Out of the development. The initial commercial phase, to be completed in 2028, is proposed to consist of:

- 12,130 s.f. daycare
- 14,500 s.f. of retail
- 14,500 s.f. of office space

Traffic generation for the initial commercial phase is 1,628 new daily trips with 113 inbound trips and 74 outbound trips in the A.M. peak hour and 97 inbound trips and 128 outbound trips in the P.M. peak hour. These trips are new trips assigned to the external roadway network.

The Full Build, to be completed in 2030, is proposed to consist of:

- 200,000 s.f. of office space
- 255,000 s.f. of retail and restaurant
- Bank with 8 drive-thru windows
- 20,000 s.f. daycare
- Gas Station with Convenience Store – 16 pumps

Traffic generation at full build-out on the external roadway network is 23,761 new daily trips with 1,279 inbound trips and 888 outbound trips in the A.M. peak hour and 1,400 inbound trips and 1,590 outbound trips in the P.M. peak hour.

Trip Distribution, Assignment, and Growth

Retail and Office Trips:

- 10% north of Olive Chapel Road on Kelly Road
- 15% east and 5% west of Kelly Road on Olive Chapel Road
- 10% east and 10% west of Kelly Road on Apex Barbecue Road
- 10% north and 10% south on NC 540
- 15% east on Old US 1
- 15% west on Old US 1

Residential Phase (single-family and townhome) trips:

- 15% north of Olive Chapel Road on Kelly Road
- 10% east of Kelly Road on Olive Chapel Road
- 10% west of Kelly Road on Apex Barbecue Road
- 25% north and 20% south on NC 540
- 15% east on Old US 1
- 5% west on Old US 1

The TIA included traffic from four approved background developments in addition to 4% annual background growth.

- Depot 499
- Townes at Pleasant Park (fka Sears Property)
- Friendship Village
- Holland Road Assembly

Traffic Capacity Analysis and Recommendations

The following table shows the intersections that were included in the original West Village TIA. Some intersections were not analyzed in this phased analysis as improvements were unlikely to change based on traffic patterns. The table shows the improvements at each intersection that are identified as part of the zoning conditions for the West Village PUD but have not yet been constructed.

Intersection	**Remaining Improvements per West Village PUD Zoning Conditions** ***(not yet constructed)***
Kelly Rd at Olive Chapel Rd	1. Construct 200' EB right-turn lane 2. Construct an additional 300' WB left-turn lane (with SB receiving through lane on Kelly Rd)
Kelly Rd at Apex Barbecue Rd	None remaining
Kelly Rd at Southwinds Run *(not analyzed in phasing study)*	1. Construct 100' NB left-turn lane 2. Construct a second NB through lane through the intersection and drop as right-turn lane at Site Drive #1 (Eva Pearl Dr) 3. Begin an additional SB through lane immediately south of Southwinds Run
Kelly Rd at Old US 1	1. Convert the intersection to a right-in/right-out 2. Construct an additional WB through lane, beginning at NC 540 SB off-ramp as a free-flow right turn existing the ramp 3. Construct 200' WB right-turn lane
NC 540 NB Ramps at Old US 1 *(not analyzed in phasing study)*	None remaining
NC 540 SB Ramps at Old US 1 *(not analyzed in phasing study)*	1. Construct free-flow right-turn lane for the NC 540 SB off-ramp 2. Construct additional receiving through lane continuing west to drop as right-turn lane Site Drive #6 (Pleasant Plans Rd)
Humie Olive Rd at Old US 1 *(not analyzed in phasing study)*	None remaining
Kelly Rd at Eva Pearl Dr (fka Site Drive #1) *(not analyzed in phasing study)*	1. Construct an additional NB through lane to drop as right-turn lane at Site Drive #1 (Eva Pearl Dr)
Kelly Rd at Gaither St (fka Site Drive #2) *(not analyzed in phasing study)*	1. Construct an additional NB through lane 2. Construct an additional SB through lane
Kelly Rd at Leo Dr (fka Site Drive #3)	1. Construct an additional NB through lane 2. Construct an additional SB through lane

Table continued on next page.

Table continued from previous page.

Intersection	Remaining Improvements per West Village PUD Zoning Conditions *(not yet constructed)*
Kelly Rd at Site Driveway (fka Site Drive #4)	1. Construct and dedicate 'Road A' from the roundabout at Boyette St and Pleasant Plains Rd to Kelly Rd at Site Drive #4 2. Construct roundabout on Kelly Rd at Site Drive #4 (Site Driveway)
Old US 1 at Boyette St (fka Site Drive #5) *(not analyzed in phasing study)*	1. Convert Boyette St to a full-movement intersection 2. Construct dual 200' SB left-turn lanes 3. Construct 200' SB right-turn lane 4. Construct an additional WB through lane 5. Construct 200' WB right-turn lane 6. Construct 300' EB left-turn lane 7. Construct additional EB through lane, dropping 1000' east of the intersection
Old US 1 at Pleasant Plains Rd (/fka Site Drive #6) *(not analyzed in phasing study)*	1. Construct an additional WB through lane to drop as a right-turn lane at Site Drive #6 (Pleasant Plains Rd) 2. Construct an additional EB through lane beginning 400' west of Site Drive #6 (Pleasant Plains Rd)

The initial commercial phase is projected to generate 1,628 daily trips and the total commercial portion of the West Village development is projected to generate 23,761 new daily trips. The initial commercial phase is approximately 7% of the total commercial development planned.

Level of Service (LOS) is a grade of A through F assigned to an intersection, approach, or movement to describe how well or how poorly it operates. LOS A through D is considered acceptable for peak hour operation. LOS E or F describes potentially unacceptable operation, and developers may be required to mitigate their anticipated traffic impact to improve LOS based on the Apex Unified Development Ordinance (UDO).

Tables 1 through 5 describe the levels of service (LOS) for the scenarios analyzed in the TIA. "*NA"* is shown when the scenario does not apply. "*Free*" indicates when an approach is in free-flow and there is no LOS metric for the approach. The scenarios are as follows:

- **Existing 2024** - Existing year 2024 traffic.
- **No Build 2028** – Projected year (2028) with background traffic growth and background development.
- **Build 2028**– Projected year (2028) with background traffic, and initial commercial phase build-out, including recommended improvements where applicable.
- **No Build 2030 -** Projected year (2030) with background traffic growth and background development.
- **Build 2030** – Projected year (2030) with background traffic, and full build-out, including recommended improvements where applicable.

Kelly Road at Site Driveway (Site Drive #4 in original TIA)

Table 1. A.M./P.M. Peak Hour Levels of Service Kelly Road at Site Driveway		
	Build 2028 (Unsignalized)	**Build 2030** (Roundabout)
Overall	*NA*	B / F
Site Drive #4 (Eastbound)	NA	B / F
Site Driveway (Westbound)	B / C[1]	A / C
Kelly Road (Northbound)	*Free*	B / D
Kelly Road (Southbound)	A / A[2]	A / B

1. Level of service for stop-controlled minor street approaches.
2. Level of service for left turn movements on free-flowing approaches.

TIA recommendations:

Initial Commercial Phase (Build 2028)

- The site driveway will be constructed with one ingress lane and one egress lane, with stop control for the site driveway approach.
- Southbound left-turn lane with a minimum 75 feet full width storage plus appropriate taper.
- A northbound right-turn lane with 50 feet of full width storage is marginally warranted but not recommended due to future plans to construct a roundabout at this location.

Full Build (Build 2030) – Improvements per original West Village PUD Requirements

- Construction of a roundabout.
- Construct an additional northbound receiving lane and terminate the second southbound lane as an exclusive right-turn lane to make Kelly Road a four-lane median-divided roadway north of the intersection; 2 lane roadway remains south of intersection.
- Site Driveway 4 (EB and WB approaches) constructed with one ingress lane and one egress lane, each.

Apex staff recommendations:

Staff concurs with the operational results of the TIA. Under Build 2028 conditions the site driveway is expected to operate acceptably as proposed. It should be noted that the Apex Transportation Plan identifies a roundabout at this location on Kelly Road, to tie in with an eastbound major collector street. Additionally, the Transportation Plan shows widening of Kelly Road from this intersection north to a four lane, median divided roadway.

In addition to the southbound left-turn lane at the Site Driveway, staff recommends a proportional fee in lieu for the future roundabout at the Site Driveway which is required to be constructed during the development of POD 3, west of Kelly Road.

Kelly Road at Leo Drive (Site Drive #3 in original TIA)

Table 2. A.M./P.M. Peak Hour Unsignalized Levels of Service Kelly Road and Leo Drive					
	Existing 2024	**No Build 2028**	**Build 2028**	**No Build 2030**	**Build 2030**
Overall	*NA*	*NA*	*NA*	*NA*	*NA*
Leo Drive (Eastbound)	B / B[1]	B / C[1]	B / C[1]	B / C[1]	E / F[1]
Leo Drive (Westbound)	B / B[1]	B / B[1]	B / C[1]	B / C[1]	D / F[1]
Kelly Road (Northbound)	A / A[2]	A / A[2]	A / A[2]	A / A[2]	A / B[2]
Kelly Road (Southbound)	A / A[2]	A / A[2]	A / A[2]	A / A[2]	A / B[2]

1. Level of service for stop-controlled minor street approaches.
2. Level of service for left turn movements on free-flowing approaches.

TIA recommendations:

Initial Commercial Phase (Build 2028)

- No improvements are recommended for the developer under Build 2028 conditions.

Full Build (Build 2030) – Improvements per original West Village PUD Requirements

- Construct additional northbound and southbound through lanes to make Kelly Road a four-lane median-divided roadway.

Apex staff recommendations:

Staff concurs with the TIA. The site trips for the first commercial phase of the West Village development will only add to the northbound and southbound through movements at this intersection. Under Build 2030 conditions, the eastbound and westbound approaches are anticipated to operate at LOS D or worse during both the AM and PM peak hours. However, the queues are between one and three vehicles long on these approaches. The poor level of service is mainly due to the increase in volumes along Kelly Road, reducing gaps available for minor approach traffic.

Kelly Road at Olive Chapel Road

Table 3. A.M./P.M. Peak Hour Signalized Levels of Service Kelly Road at Olive Chapel Road					
	Existing 2024	**No Build 2028**	**Build 2028**	**No Build 2030**	**Build 2030**
Overall	*C / D*	*E / E*	*E / E*	*E / F*	*E / F*
Olive Chapel Road (Eastbound)	D / E	D / F	D / F	D / F	E / F
Olive Chapel Road (Westbound)	C / C	C / C	C / C	C / C	D / E
Kelly Road (Northbound)	D / D	F / F	F / F	F / F	D / F
Kelly Road (Southbound)	C / C	C / D	D / D	D / F	E / E

TIA recommendations:

Initial Commercial Phase (Build 2028)

- No improvements are recommended for the developer under Build 2028 conditions.

Full Build (Build 2030) – Improvements per original West Village PUD Requirements

- Construct an additional westbound left-turn lane
- Construct an additional southbound receiving lane south of intersection on Kelly Road
- Construct an exclusive eastbound right-turn lane
- Signal phasing and timing adjustments to accommodate new lanes

Apex staff recommendations:

Staff concurs with the TIA findings based on the UDO thresholds for this site by itself, but notes that the site is still a portion of the build-out of the commercial phase of the PUD which has a greater impact as a whole and would still be committed to providing future improvements as noted. Staff recommends a proportionate share of a fee in lieu toward the future improvements for Build 2030 be committed by the Build 2028 phase.

The site trips for the first commercial phase of the West Village development account for less than 3% of the overall traffic at this intersection; therefore, no improvements are recommended for construction in Build 2028. With the improvements for Full Build in place, the intersection is expected to still operate at an overall LOS E during the AM peak hour and LOS F during the PM peak hour, but with less delay than under No Build 2030 conditions.

Kelly Road at Apex Barbecue Road

Table 4. A.M./P.M. Peak Hour Signalized Levels of Service Kelly Road at Apex Barbecue Road					
	Existing 2024	**No Build 2028**	**Build 2028**	**No Build 2030**	**Build 2030**
Overall	*C / C*	*C / C*	*C / D*	*D / E*	*F / F*
Apex Barbecue Road (Eastbound)	B / B	B / B	B / B	C / C	C / C
Apex Barbecue Road (Westbound)	C / C	C / C	C / C	C / C	C / C
Kelly Road (Northbound)	C / C	D / C	D / D	D / D	F / F
Kelly Road (Southbound)	C / C	C / D	C / D	D / F	F / F

TIA recommendations:

Initial Commercial Phase (Build 2028)

- No improvements are recommended for the developer under Build 2028 conditions.

Full Build (Build 2030) – Improvements per original West Village PUD Requirements

- Improvements for this intersection identified in the original TIA for full build conditions have been constructed.

Apex staff recommendations:

Staff concurs with the TIA. The signal is expected to operate at LOS D or better under Build 2028 conditions. The site trips for the first commercial phase of the West Village development account for approximately 6% of the overall traffic at this intersection. However, it should be noted that Build 2030 is extending beyond the build year for the original TIA assumptions that resulted in those recommendations, and the newly projected build out shows overall LOS F and Kelly Road approaches at LOS F. Therefore, staff recommend a reevaluation of recommendations to accommodate Build 2030 when that future site plan is proposed.

Old US 1 at Kelly Road

Table 5. A.M./P.M. Peak Hour Unsignalized Levels of Service Old US 1 at Kelly Road					
	Existing 2024	**No Build 2028**	**Build 2028**	**No Build 2030**	**Build 2030** (Right-in/Right-out)
Overall	*NA*	*NA*	*NA*	*NA*	*NA*
Old US 1 (Eastbound)	A / B[2]	B / B[2]	B / C[2]	B / C[2]	NA
Old US 1 (Westbound)	Free	Free	Free	Free	Free
Kelly Road (Southbound)	F / F[1]	F / F[1]	F / F[1]	F / F[1]	D / F[1]

2. Level of service for stop-controlled minor street approaches.
2. Level of service for left turn movements on free-flowing approaches.

TIA recommendations:

Initial Commercial Phase (Build 2028)

- No improvements are recommended for the developer under Build 2028 conditions.
    - The TIA acknowledges a signal was reviewed, but NCDOT commented they are unlikely to approve one due to proximity to NC 540.

Full Build (Build 2030) – Improvements per original West Village PUD Requirements

- Under Build 2030 conditions this intersection will be converted to a right-in/right-out when a new connection is made between Kelly Road and Old US 1 to the west via a separate portion of the overall West Village development.

Apex staff recommendations:

Staff concurs with the TIA given NCDOT was not in favor of signalization due to proximity to NC 540 or constructing access restrictions at this time. Under Build 2028 conditions, the Kelly Road approach is anticipated to continue to operate at LOS F during both the AM and PM peak hours. The southbound left-turn queue increases by approximately 4 vehicles during the AM peak hour and 6 vehicles during the PM peak hour. Site traffic for the initial commercial phase is expected to be 7% or less of the existing 2024 traffic at this intersection; therefore, no improvements are required.

Under Build 2030 conditions, this intersection will be converted to a right-in/right-out with the new internal street connection between the roundabout on Kelly Road and the one that was previously constructed in West Village according to the zoning conditions. This connection will provide access from Kelly Road at the planned roundabout (Site Drive #4/Site Driveway) to a full movement, signalized intersection at Old US 1.

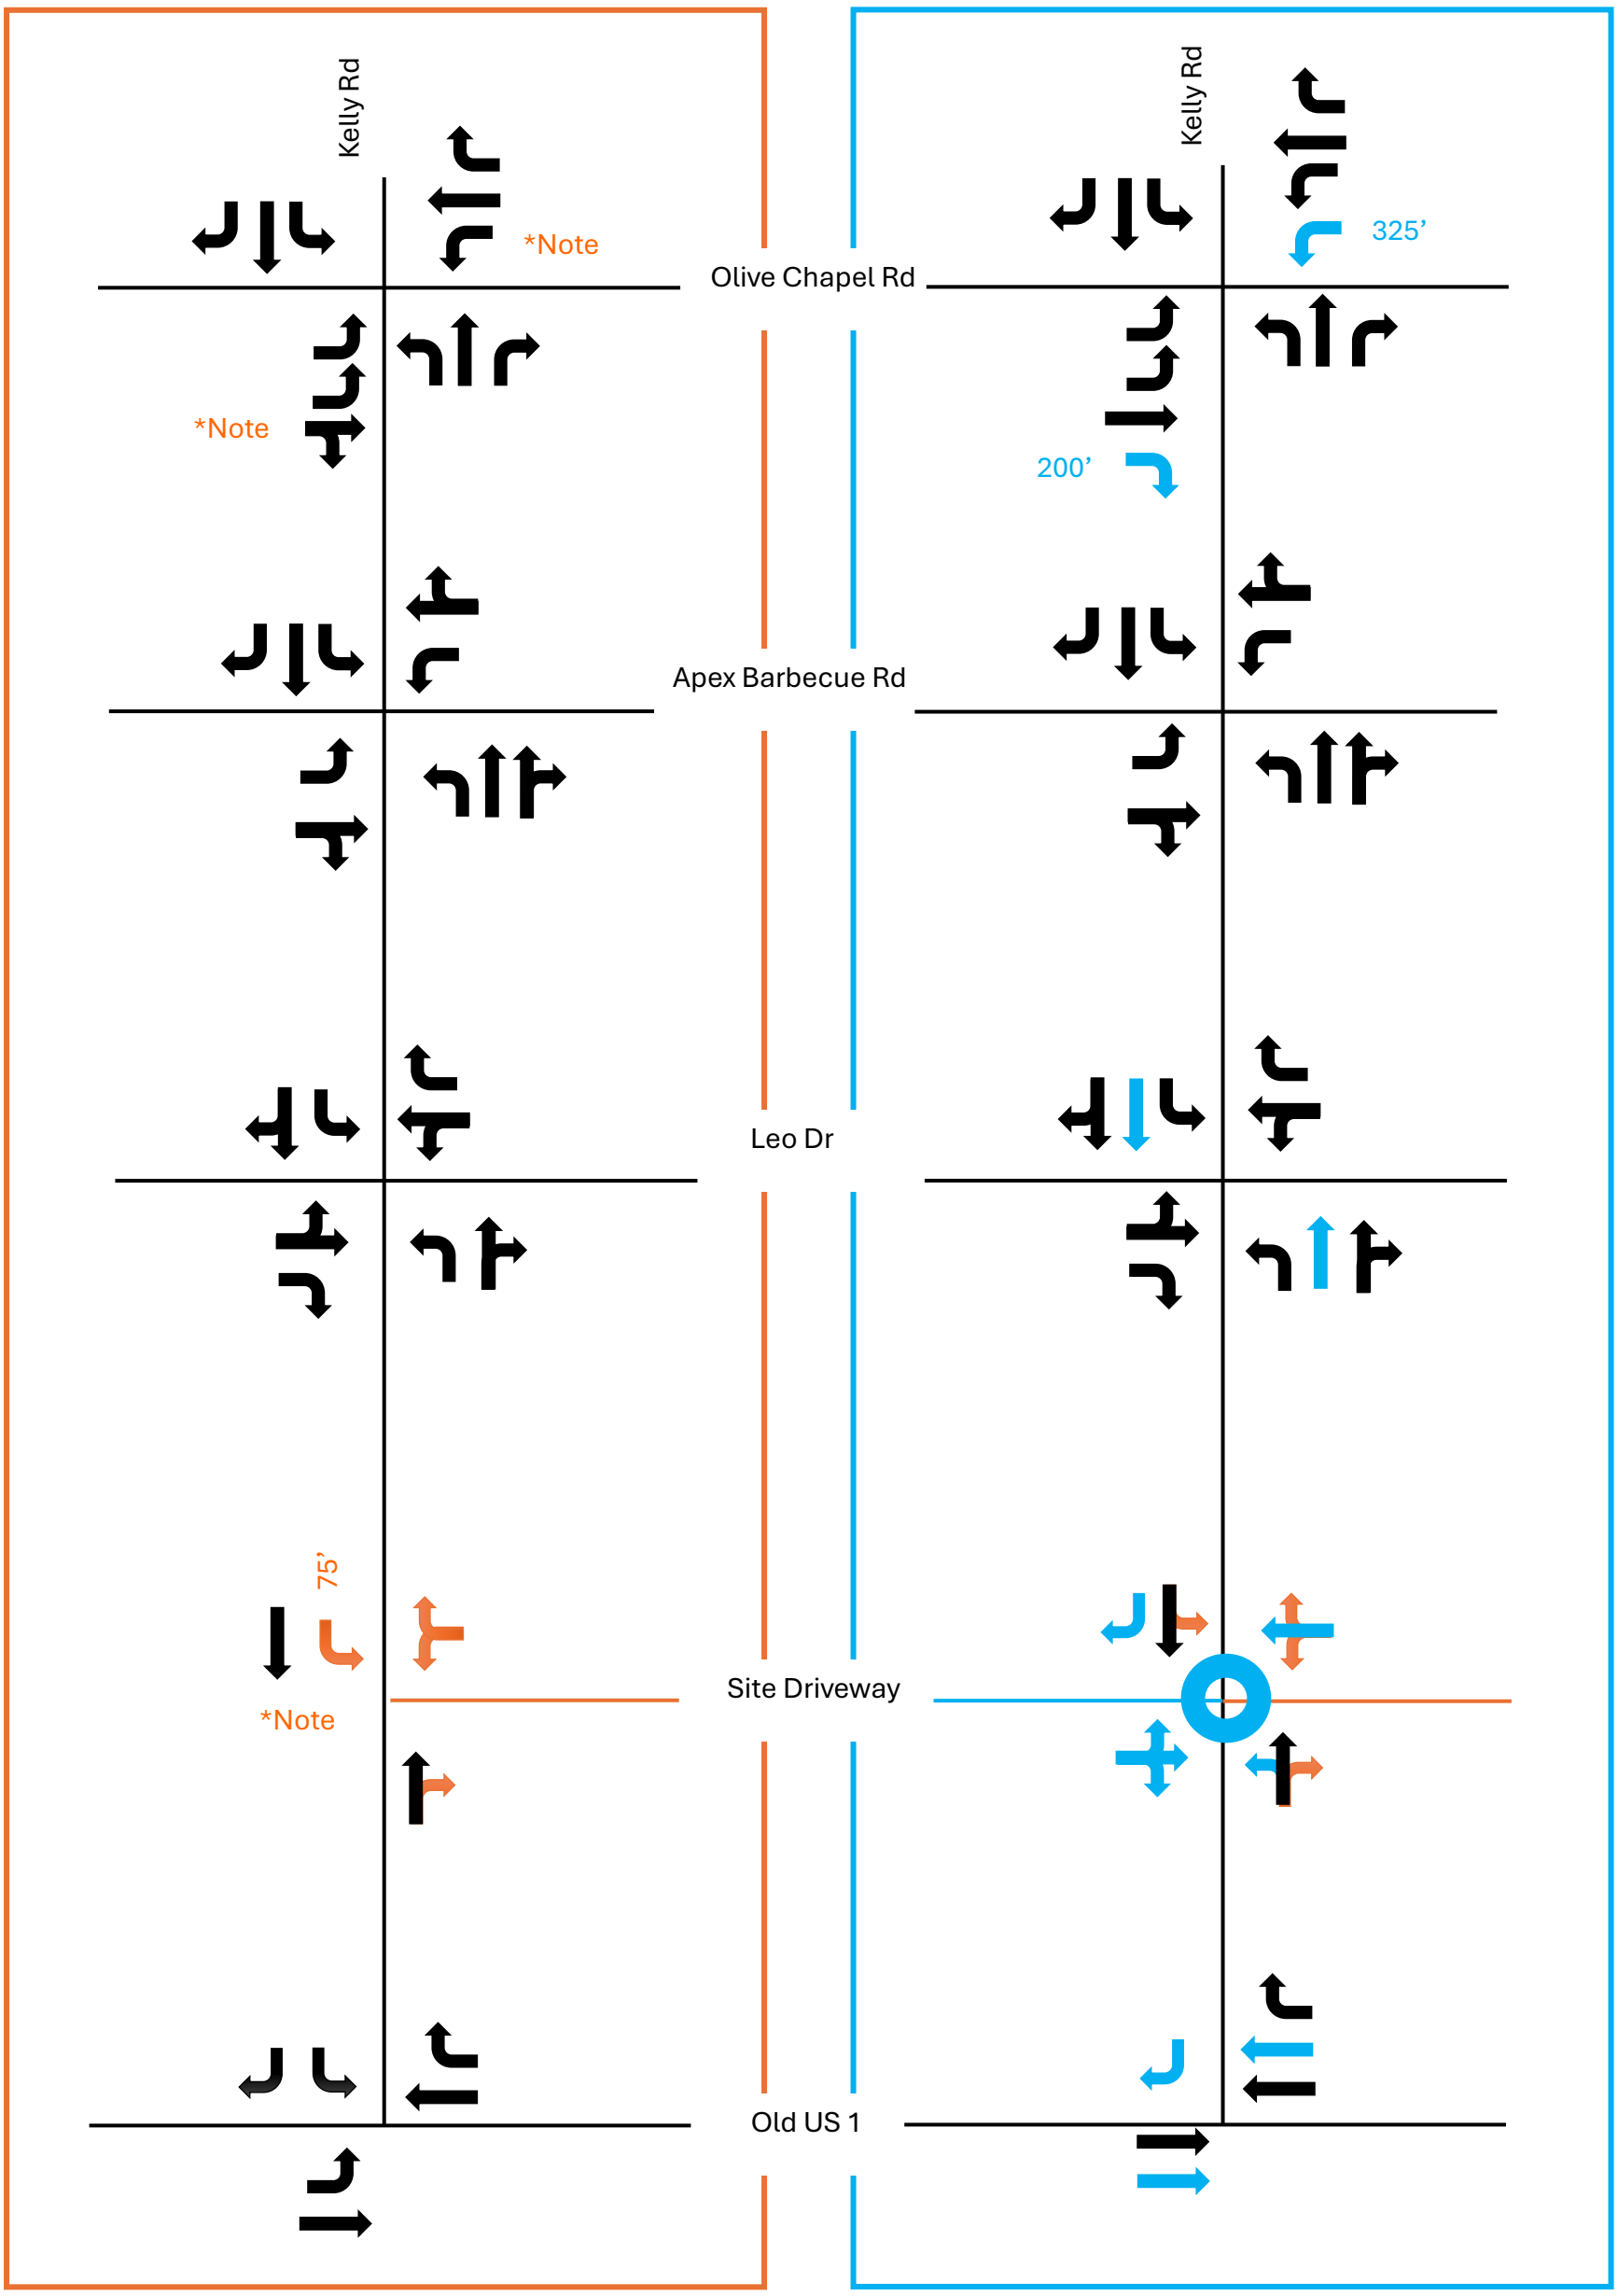
Please coordinate with the NCDOT District Engineer's Office concerning any recommendations on NCDOT facilities. Town staff will be available for meetings to discuss recommendations as needed.

Sincerely,

Jessica McClure, PE
919-372-7448

Build 2028 (Initial Commercial Phase) Recommendations

Build 2030 (Full Build Out) Recommendations



*Note – developer to pay proportional fee in lieu for future improvements as noted in West Village Commercial Phasing Study Review Letter (03/18/25)

PLANNED UNIT DEVELOPMENT APPLICATION

This document is a public record under the North Carolina Public Records Act and may be published on the Town's website or disclosed to third parties.

Application #: 25CZ05 Submittal Date: 4-25-2025

Fee Paid $ Check #

PETITION TO AMEND THE OFFICIAL ZONING DISTRICT MAP

Project Name: West Village PUD Amendment

Address(es): 2517 Kelly Road (West Village PUD POD 1)

PIN(s) 0731434504

Acreage: 5.8591

Current Zoning: PUD-CZ Proposed Zoning: PUD-CZ w/ amended conditions

Current 2045 LUM Designation: Community Mixed Use (CMU); High Density Residential/Office Employment/Commercial Services

Is the proposed rezoning consistent with the 2045 LUM Classification(s)? Yes ☒ No ☐

If any portion of the project is shown as mixed use (3 or more stripes on the 2045 Land Use Map) provide the following:

Area classified as mixed use: Acreage: 5.8591

Area proposed as non-residential development: Acreage: 5.8591

Percent of mixed use area proposed as non-residential: Percent: 100%

PLANNED UNIT DEVELOPMENT APPLICATION

Application #: 25CZ05 Submittal Date: 4-25-2025

PLANNED UNIT DEVELOPMENT DISTRICT STANDARDS:

In return for greater flexibility in site design requirements, Planned Development (PD) Districts are expected to deliver exceptional quality community designs that preserve critical environmental resources; provide high quality community amenities; incorporate creative design in the layout of buildings, Resource Conservation Area and circulation; ensure compatibility with surrounding land uses and neighborhood character; provide high quality architecture; and provide greater efficiency in the layout and provision of roads, utilities, and other infrastructure. The Planned Development (PD) Districts shall not be used as a means of circumventing the Town's adopted land development regulations for routine developments. The PD text and plan should demonstrate how the standards of Sec. 2.3.4.F are met be the proposed rezoning.

LEGISLATIVE CONSIDERATIONS - CONDITIONAL ZONING

The applicant shall propose site-specific standards and conditions that take into account the following considerations, which are considerations that are relevant to the legislative determination of whether or not the proposed conditional zoning district rezoning request is in the public interest. These considerations do not exclude the legislative consideration of any other factor that is relevant to the public interest. Use additional pages as needed.

1) *Consistency with 2045 Land Use Map.* The proposed Conditional Zoning (CZ) District use's appropriateness for its proposed location and consistency with the purposes, goals, objectives, and policies of the 2045 Land Use Map.

The proposed PUD Amendment is consistent with the property's Community Mixed-Use LUM designation which calls for High Density Residential, Office Employment, and Commercial Services. The existing West Village PUD permits a variety of residential, office, and commercial uses on the property and this PUD Amendment does not propose changes to permitted uses. Rather, it proposes revisions to the phasing of transportation infrastructure improvements to facilitate the development of non-residential uses on the property as envisioned by the LUM and West Village PUD.

2) *Compatibility.* The proposed Conditional Zoning (CZ) District use's appropriateness for its proposed location and compatibility with the character of surrounding land uses.

The PUD Amendment does not propose any changes to permitted uses on the property which are set forth in the previously approved West Village PUD and consistent with the LUM. The proposed small-scale non-residential development will act as a transition between the 460,000 sf of non-residential entitlement west of Kelly Road and existing residential neighborhoods to the north.

3) Zoning district supplemental standards. The proposed Conditional Zoning (CZ) District use's compliance with Sec 4.4 *Supplemental Standards*, if applicable.

The proposed development will comply with all applicable Supplemental Standards in UDO Section 4.4.

4) *Design minimizes adverse impact.* The design of the proposed Conditional Zoning (CZ) District use's minimization of adverse effects, including visual impact of the proposed use on adjacent lands; and avoidance of significant adverse impacts on surrounding lands regarding trash, traffic, service delivery, parking and loading, odors, noise, glare, and vibration and not create a nuisance.

The PUD will follow design guidelines included in the original PUD and all UDO standards for trash, traffic, service delivery, parking and loading, odors, noise, glare, and vibration. Traffic impacts will be mitigated by transportation infrastructure improvements detailed in the revised Public Facilities section of the PUD.

5) *Design minimizes environmental impact.* The proposed Conditional Zoning District use's minimization of environmental impacts and protection from significant deterioration of water and air resources, wildlife habitat, scenic resources, and other natural resources.

The amended PUD will not have adverse impacts on natural resources. The site does not have streams or other environmentally sensitive areas and the amendments do not propose any changes to existing environmental conditions in the West Village PUD.

6) *Impact on public facilities.* The proposed Conditional Zoning (CZ) District use's avoidance of having adverse impacts on public facilities and services, including roads, potable water and wastewater facilities, parks, schools, police, fire and EMS facilities.

The amended PUD will not have adverse impacts on public facilities and services. The site is in the Town's ETJ, will be annexed prior to construction, and will connect to Town water and sewer services. The PUD does not permit residential uses on the property, so there will be minimal impact on parks and schools. Police, fire, and EMS facilities in the area are sufficient and the site will provide safe and efficient access for emergency service vehicles. The PUD includes significant road improvements and this PUD Amendment phases those improvements to correlate with planned non-residential phases.

7) *Health, safety, and welfare.* The proposed Conditional Zoning (CZ) District use's effect on the health, safety, or welfare of the residents of the Town or its ETJ.

The PUD amendment will improve the health, safety, and welfare of residents of the Town by facilitating the development of neighborhood serving non-residential uses on the property and completing necessary infrastructure improvements.

8) *Detrimental to adjacent properties.* Whether the proposed Conditional Zoning (CZ) District use is substantially detrimental to adjacent properties.

The proposed uses will not be substantially detrimental to adjacent properties. As discussed above, the site is designated for non-residential uses on the LUM and entitled for non-residential uses by the West Village PUD. The project will meet all UDO standards for noise and lighting to ensure compatibility with the adjacent residential neighborhood.

PETITION PROCESS INFORMATION

9) *Not constitute nuisance or hazard.* Whether the proposed Conditional Zoning (CZ) District use constitutes a nuisance or hazard due to traffic impact or noise, or because of the number of persons who will be using the Conditional Zoning (CZ) District use.

The proposed non-residential uses will not constitute a nuisance or hazard. The site is located in a planned commercial corridor adjacent to the 540/S Salem Street interchange.

10) *Other relevant standards of this Ordinance.* Whether the proposed Conditional Zoning (CZ) District use complies with all standards imposed on it by all other applicable provisions of this Ordinance for use, layout, and general development characteristics.

The amended PUD complies with all standards imposed on it by all other applicable provisions of the Ordinance.

DEVELOPMENT NAME APPROVAL APPLICATION

Application #: 25CZ05 Submittal Date: 4-25-2025

Fee for Initial Submittal: No Charge Fee for Name Change after Approval: $500*

Purpose

To provide a consistent and clearly stated procedure for the naming of subdivisions and/or developments and entrance roadways (in conjunction with *Town of Apex Address Policy*) so as to allow developers to define and associate the theme or aesthetics of their project(s) while maintaining the Town's commitment to preserving the quality of life and safety for all residents of Apex proper and extraterritorial jurisdiction.

Guidelines

- ✓ The subdivision/development name shall not duplicate, resemble, or present confusion with an existing subdivision/development within Apex corporate limits or extraterritorial jurisdiction except for the extension of an existing subdivision/development of similar or same name that shares a continuous roadway.
- ✓ The subdivision/development name shall not resemble an existing street name within Apex corporate limits or extraterritorial jurisdiction unless the roadway is a part of the subdivision/development or provides access to the main entrance.
- ✓ The entrance roadway of a proposed subdivision/development shall contain the name of the subdivision/development where this name does not conflict with the Town of Apex *Road Name Approval Application* and *Town of Apex Address Policy* guidelines.
- ✓ The name "Apex" shall be excluded from any new subdivision/development name.
- ✓ Descriptive words that are commonly used by existing developments will be scrutinized more seriously in order to limit confusion and encourage distinctiveness. A list of commonly used descriptive words in Apex's jurisdiction is found below.
- ✓ The proposed subdivision/development name must be requested, reviewed and approved during preliminary review by the Town.
- ✓ A $500.00 fee will be assessed to the developer if a subdivision/development name change is requested after official submittal of the project to the Town.*

*The imposed fee offsets the cost of administrative changes required to alleviate any confusion for the applicant, Planning staff, other Town departments, decision-making bodies, concerned utility companies and other interested parties. There is no charge for the initial name submittal.

Existing Development Titles, Recurring

	Residential	Non-Residential
10 or more	Creek, Farm(s), Village(s),	Center/Centre
6 to 9	Crossing(s), Park, Ridge, Wood(s)	Commons, Park
3 to 5	Acres, Estates, Glen(s), Green•, Hills	Crossing(s), Plaza, Station, Village(s)

•excludes names with Green Level

STREET NAME APPROVAL APPLICATION

Application #: 25CZ05 Submittal Date: 4-25-2025

Wake County Approval Date: _____

Guidelines:

- No names duplicating or sounding similar to existing road names
- Avoid difficult to pronounce names
- No individuals' names
- Avoid proper names of a business, e.g. Hannaford Drive
- Limit names to 14 characters in length
- No directionals, e.g. North, South, East, West
- No punctuation marks, e.g. periods, hyphens, apostrophes, etc.
- Avoid using double suffixes, e.g. Deer Path Lane
- All names must have an acceptable suffix, e.g. Street, Court, Lane, Path, etc.
- Use only suffixes which are Town of Apex approved
- Town of Apex has the right to deny any street name that is determined to be inappropriate

TOWN OF APEX UTILITIES OFFER AND AGREEMENT

Application #: 25CZ05 Submittal Date: 4-25-2025

Town of Apex
73 Hunter Street
P.O. Box 250 Apex, NC 27502
919-249-3400

WAKE COUNTY, NORTH CAROLINA CUSTOMER SELECTION AGREEMENT

2517 Kelly Road

(the "Premises")

The Town of Apex offers to provide you with electric utilities on the terms described in this Offer & Agreement. If you accept the Town's offer, please fill in the blanks on this form and sign and we will have an Agreement once signed by the Town.

Trilandco, LLC, the undersigned customer ("Customer") hereby irrevocably chooses and selects the Town of Apex (the "Town") as the permanent electric supplier for the Premises. Permanent service to the Premises will be preceded by temporary service if needed.

The sale, delivery, and use of electric power by Customer at the Premises shall be subject to, and in accordance with, all the terms and conditions of the Town's service regulations, policies, procedures and the Code of Ordinances of the Town.

Customer understands that the Town, based upon this Agreement, will take action and expend funds to provide the requested service. By signing this Agreement the undersigned signifies that he or she has the authority to select the electric service provider, for both permanent and temporary power, for the Premises identified above.

Any additional terms and conditions to this Agreement are attached as Appendix 1. If no appendix is attached this Agreement constitutes the entire agreement of the parties.

Acceptance of this Agreement by the Town constitutes a binding contract to purchase and sell electric power.

Please note that under North Carolina General Statute §160A-332, you may be entitled to choose another electric supplier for the Premises.

Upon acceptance of this Agreement, the Town of Apex Electric Utilities Division will be pleased to provide electric service to the Premises and looks forward to working with you and the owner(s).

Signature(s) of Owner(s)*

FAHEY FAMILY FARM, LLC,
a North Carolina limited liability company

By: Patrick S. Fahey

Name: PATRICK S. FAHEY

Title: MANAGER

Attach additional sheets if there are additional owners.

*Owner of record as shown on the latest equalized assessment rolls of Wake County. An option to purchase does not constitute ownership. If ownership has been recently transferred, a copy of the deed must accompany this authorization.

Pursuant to Article 40 of Chapter 66 of the North Carolina General Statutes (the Uniform Electronic Transactions Act) this application and all documents related hereto containing an electronic or digitized signature are legally binding in the same manner as are hard copy documents executed by hand signature. The parties hereby consent to use electronic or digitized signatures in accordance with the Town's Electronic Signature Policy and intend to be bound by the application and any related documents. If electronic signatures are used the application shall be delivered in an electronic record capable of retention by the recipient at the time of receipt.

AFFIDAVIT OF OWNERSHIP

Application #: 25CZ05 Submittal Date: 4-25-2025

The undersigned, PATRICK S. FAHEY (the "Affiant") first being duly sworn, hereby swears or affirms as follows:

1. Affiant is over eighteen (18) years of age and authorized to make this Affidavit. The Affiant is the sole owner, or is the authorized agent of all owners, of the property located at 2517 Kelly Road, Apex, NC 27502; PIN 0731434504 and legally described in **Exhibit "A"** attached hereto and incorporated herein (the "Property").

2. This Affidavit of Ownership is made for the purpose of filing an application for development approval with the Town of Apex.

3. If Affiant is the owner of the Property, Affiant acquired ownership by deed, dated 3/6/2018, and recorded in the Wake County Register of Deeds Office on 3/6/2018, in Book 17062 Page 1716.

4. If Affiant is the authorized agent of the owner(s) of the Property, Affiant possesses documentation indicating the agency relationship granting the Affiant the authority to apply for development approval on behalf of the owner(s).

5. If Affiant is the owner of the Property, from the time Affiant was deeded the Property on 3/6/2018, Affiant has claimed sole ownership of the Property. Affiant or Affiant's predecessors in interest have been in sole and undisturbed possession and use of the property during the period of ownership. Since taking possession of the Property on 3/6/2018, no one has questioned Affiant's ownership or right to possession nor demanded any rents or profits. To Affiant's knowledge, no claim or action has been brought against Affiant (if Affiant is the owner), or against owner(s) (if Affiant is acting as an authorized agent for owner(s)), which questions title or right to possession of the property, nor is any claim or action pending against Affiant or owner(s) in court regarding possession of the Property.

This the 28th day of January, 2025.

NOTICE OF NEIGHBORHOOD MEETING

This document is a public record under the North Carolina Public Records Act and may be published on the Town's website or disclosed to third parties.

January 16, 2025
Date

Dear Neighbor:
You are invited to a neighborhood meeting to review and discuss the development proposal at

2517 Kelly Road | 0731434504
Address(es) | PIN(s)

in accordance with the Town of Apex Neighborhood Meeting procedures. This meeting is intended to be a way for the applicant to discuss the project and review the proposed plans with adjacent neighbors and neighborhood organizations before the submittal of an application to the Town. This provides neighbors an opportunity to raise questions and discuss any concerns about the impacts of the project before it is officially submitted. If you are unable to attend, please refer to the Project Contact Information page for ways to contact the applicant. Notified neighbors may request that the applicant provide updates and send plans via email or mail. Once an application has been submitted to the Town, it may be tracked using the Interactive Development Map or the Apex Development Report located on the Town of Apex website at http://www.apexnc.org/180. Applications for Rezoning must hold a second Neighborhood Meeting in the month prior to the anticipated public hearing date.

A Neighborhood Meeting is required because this project includes (check all that apply):

	Application Type	Approving Authority
☑	Rezoning (including Planned Unit Development)	Town Council
☑	Major Site Plan	Technical Review Committee (staff)
☑	Minor Site Plan for the uses "Day care facility", "Government service", "School, public or private", "Restaurant, drive-through", or "Convenience store with gas sales"	Technical Review Committee (staff)
☐	Special Use Permit	Board of Adjustment (QJPH*)
☐	Residential Master Subdivision Plan (excludes exempt subdivisions)	Technical Review Committee (staff)

*Quasi-Judicial Public Hearing: The Board of Adjustment cannot discuss the project prior to the public hearing.

The following is a description of the proposal (also see attached map(s) and/or plan sheet(s)):

The applicant is proposing a rezoning to amend conditions of the West Village PUD and a site plan for the development of non-residential uses, including, but not limited to, a daycare, retail space, and office space.

Estimated submittal date: February 3, 2025

MEETING INFORMATION:

Property Owner(s) name(s):	Fahey Family Farm, LLC
Applicant(s):	Trilandco, LLC c/o Matthew Carpenter
Contact information (email/phone):	matthewcarpenter@parkerpoe.com; (919) 835-4032
Meeting Address:	Virtual (Zoom) - See attached notice letter
Date/Time of meeting**:	January 30, 2025 (5:30 - 6:30 PM)

Welcome: 5:30 PM Project Presentation: 5:30 PM Question & Answer: 6:00PM

**Meetings shall occur between 5:00 p.m.-9:00 p.m. on a Monday through Thursday (excluding Town recognized holidays). If you have questions about the general process for this application, please contact the Planning Department at 919-249-3426. You may also find information about the Apex Planning Department and on-going planning efforts at http://www.apexnc.org/180.

Re: Notice of Virtual Neighborhood Meeting

You are invited to attend a virtual neighborhood meeting on January 30, 2025 at 5:30 PM to discuss upcoming rezoning and site plan applications for an approximately 6.19-acre property located at 2517 Kelly Road (PIN 0731434504). The rezoning will amend the West Village PUD zoning conditions that currently apply to the property and rezone the property from Planned Unit Development Conditional Zoning (PUD-CZ) to PUD-CZ with revised conditions. The site plan application will allow for the development of non-residential uses on the property, including, but not limited to, a day care facility, retail space, and office space.

During the meeting, the applicant will describe the nature of the rezoning request and field any questions from the public. Enclosed are: (1) a vicinity map outlining the location of the property; (2) a zoning map of the area; (3) a copy of the PUD Plan, (4) a draft site plan, (5) a Transportation Plan exhibit, (6) a project contact information sheet; and (7) a common construction issues & who to call information sheet.

The meeting will be held virtually. You can participate online via Zoom or by telephone. To participate in the Zoom online meeting:

Visit:	https://zoom.us./join
Enter the following meeting ID:	825 8184 0818
Enter the following password:	895920

To participate by telephone:

Dial:	1 929 205 6099
Enter the following meeting ID:	825 8184 0818
Enter the Participant ID:	#
Enter the Meeting password:	895920

If you have any questions about this rezoning, please contact me at (919) 835-4032 or via email at matthewcarpenter@parkerpoe.com.

Sincerely,

Matthew Carpenter

PHASING NOTES

1. THE PROPERTY WILL BE DEVELOPED IN UP TO 10 PHASES. THE TIMING AND AMOUNT OF PHASES WILL BE DEFINED AT THE TIME OF SITE PLAN REVIEW.

2. ACCESS POINTS ARE PRELIMINARY IN NATURE AND SUBJECT TO TOWN OF APEX AND NCDOT REVIEW AT TIME OF SITE PLAN REVIEW.

3. LIMITS OF LAND DISTURBANCE WITHIN EACH PHASE TO BE FINALIZED AT SITE PLAN PHASE.

4. PUBLIC UTILITIES SHALL BE PROVIDED FOR EACH PHASE.

5. ROADWAY PHASING – PRIOR TO TIME OF THE FIFTY-FIRST PLATTED LOT ASSOCIATED WITH THE RESIDENTIAL LOCATED OFF OF OLD US HWY 1, THE SECOND POINT OF ACCESS (SOUTHERNMOST PORTION OF STREET 'A'), NECESSARY PORTION OF THE SOUTHERNMOST ROUNDABOUT AND STREET 'B' SHOWN SHALL BE CONSTRUCTED. AS A PART OF THE NON-RESIDENTIAL DEVELOPMENT IN POD 3, THE ROUNDABOUT PROPOSED ON KELLY ROAD SHALL BE CONSTRUCTED ALONG WITH THE PORTION OF STREET 'A' TYING BACK TO THE SOUTHERNMOST ROUNDABOUT. PRIOR TO TIME OF THE FIRST CERTIFICATE OF OCCUPANCY FOR ANY COMMERCIAL WITHIN POD 3, STREET 'A' WILL BE FULLY CONSTRUCTED, CONNECTING KELLY ROAD TO OLD US HWY 1.

SITE NOTES

1. REFER TO PUD DOCUMENT FOR A COMPLETE LIST OF ALLOWABLE USES FOR EACH TRACT OR DEVELOPMENT AREA.

2. NO SITE DEVELOPMENT ACTIVITY INCLUDING BUT NOT LIMITED TO TESTING, CLEARING, INSTALLATION OF S&E MEASURES, OR GRADING, SHALL OCCUR UNTIL REQUIRED PROTECTION FENCING HAS BEEN INSTALLED AND INSPECTED. A PROTECTION FENCING INSTALLATION PERMIT MAY BE OBTAINED AT THE PLANNING DEPARTMENT OR BY CALLING 919-249-3426.

3. PROTECTION FENCING MUST BE PLACED AWAY FROM ANY SAVED TREE ONE FOOT FOR EACH INCH OF TREE CALIPER. PROTECTION FENCING MUST BE PLACED AT LEAST 10 FEET AWAY FROM ANY OTHER DESIGNATED RESOURCE CONSERVATION AREA, SUCH AS, BUT NOT LIMITED TO, HISTORIC BUILDINGS AND STRUCTURES, WETLANDS, AND PONDS. PROTECTION FENCING MUST BE PLACED ALONG THE OUTSIDE LINE OF THE 100-YEAR FLOODPLAIN, AND THE OUTSIDE EDGE OF ANY RIPARIAN BUFFER. ADDITIONAL PROTECTION FENCING MAY BE REQUIRED IN OTHER LOCATIONS CLOSE TO CONSTRUCTION ACTIVITY WHERE IT IS DEEMED NECESSARY BY THE ZONING ENFORCEMENT OFFICER; SUCH AREAS MAY INCLUDE BUT ARE NOT LIMITED TO, COMMON PROPERTY LINES OR NEAR PUBLIC AREAS (SIDEWALKS, ETC).

4. ALL GRADING AND SUPPORT STRUCTURES ASSOCIATED WITH ANY RETAINING STRUCTURE SHALL NOT ENCROACH INTO ANY REQUIRED BUFFER OR PROTECTED AREA (SUCH AS, BUT NOT LIMITED TO, RCA AND CRITICAL ROOT ZONES OF TREES, PUBLIC UTILITY EASEMENTS, AND RIGHTS-OF-WAY), AND SHALL BE CONTAINED ENTIRELY ON SITE.

5. SITE ELEMENTS REQUIRED TO SATISFY RECREATIONAL REQUIREMENTS SUCH AS, BUT NOT LIMITED TO, PLAY FIELDS AND GREENWAY TRAILS AND ITEMS TYPICALLY ASSOCIATED WITH THEM (BENCHES, TRASH CONTAINERS, SIGNS, ETC.) MUST MEET ANY APPLICABLE STANDARDS FOUND IN THE TOWN OF APEX STANDARD SPECIFICATIONS AND CONSTRUCTION DETAILS AND THE REQUIREMENTS OF THE TOWN OF APEX PARKS AND RECREATION DEPARTMENT.

6. THE SCREENING OF TRASH CONTAINERS (INCLUDING DUMPSTERS AND ROLL-OUT CARTS), OUTDOOR STORAGE, MECHANICAL AND HVAC EQUIPMENT, AND SIMILAR FACILITIES ON THE ROOF, ON THE GROUND, OR ON BUILDINGS SHALL MEET THE REQUIREMENTS FOUND IN SECTION 8.2.8 OF THE UNIFIED DEVELOPMENT ORDINANCE; SPECIFICALLY SCREENING MUST BE DONE SO THAT:

A. IT IS INCORPORATED INTO THE OVERALL DESIGN THEME OF THE BUILDING AND LANDSCAPE.

B. SCREENING MATERIALS ARE NOT DIFFERENT FROM OR INFERIOR TO THE PRINCIPAL MATERIALS OF THE BUILDING OR LANDSCAPE, AND ARE SIMILAR IN MATERIALS AND COLOR.

C. SCREENED ITEMS ARE OUT OF VIEW FROM ADJACENT PROPERTIES AND PUBLIC STREETS, AND A TOTALLY OPAQUE SCREEN IS ACHIEVED.

D. ANY GROUND-MOUNTED HVAC OR OTHER MECHANICAL OR UTILITY EQUIPMENT SIX-FEET TALL OR HIGHER MUST BE FENCED AND LANDSCAPED.

E. DUMPSTER ENCLOSURES MUST MEET THE ABOVE REQUIREMENTS PLUS THEY MUST BE AT LEAST EIGHT-FEET TALL OR THE HEIGHT OF THE DUMPSTER, WHICHEVER IS TALLER; AND BE BUILT OF MASONRY MATERIAL.

7. ALL REQUIRED SITE ELEMENTS SHOWN WITHIN A PARTICULAR PHASE MUST BE INSTALLED BEFORE A FINAL CERTIFICATE OF OCCUPANCY MAY BE ISSUED FOR ANY BUILDING WITHIN THAT PHASE.

8. SITE ITEMS SUCH AS BUT NOT LIMITED TO, LIGHTING, LANDSCAPING (INCLUDING MULCH), SCREENING (i.e.: DUMPSTERS/TRASH, MECHANICAL/HVAC, ETC.), SITE STABILIZATION (SEEDING), AND PARKING AND PAVEMENT MARKING MUST BE COMPLETED PRIOR TO SCHEDULING A FINAL SITE INSPECTION.

9. NO SIGNS ARE APPROVED AS PART OF THE PUD-CZ PLAN APPROVAL. A SEPARATE SIGN PERMIT MUST BE OBTAINED. SIGNAGE WILL COMPLY WITH APEX'S UDO.

10. EXACT ACCESS AND STUB LOCATIONS TO BE FINALIZED AT SUBDIVISION PLAN PHASE.

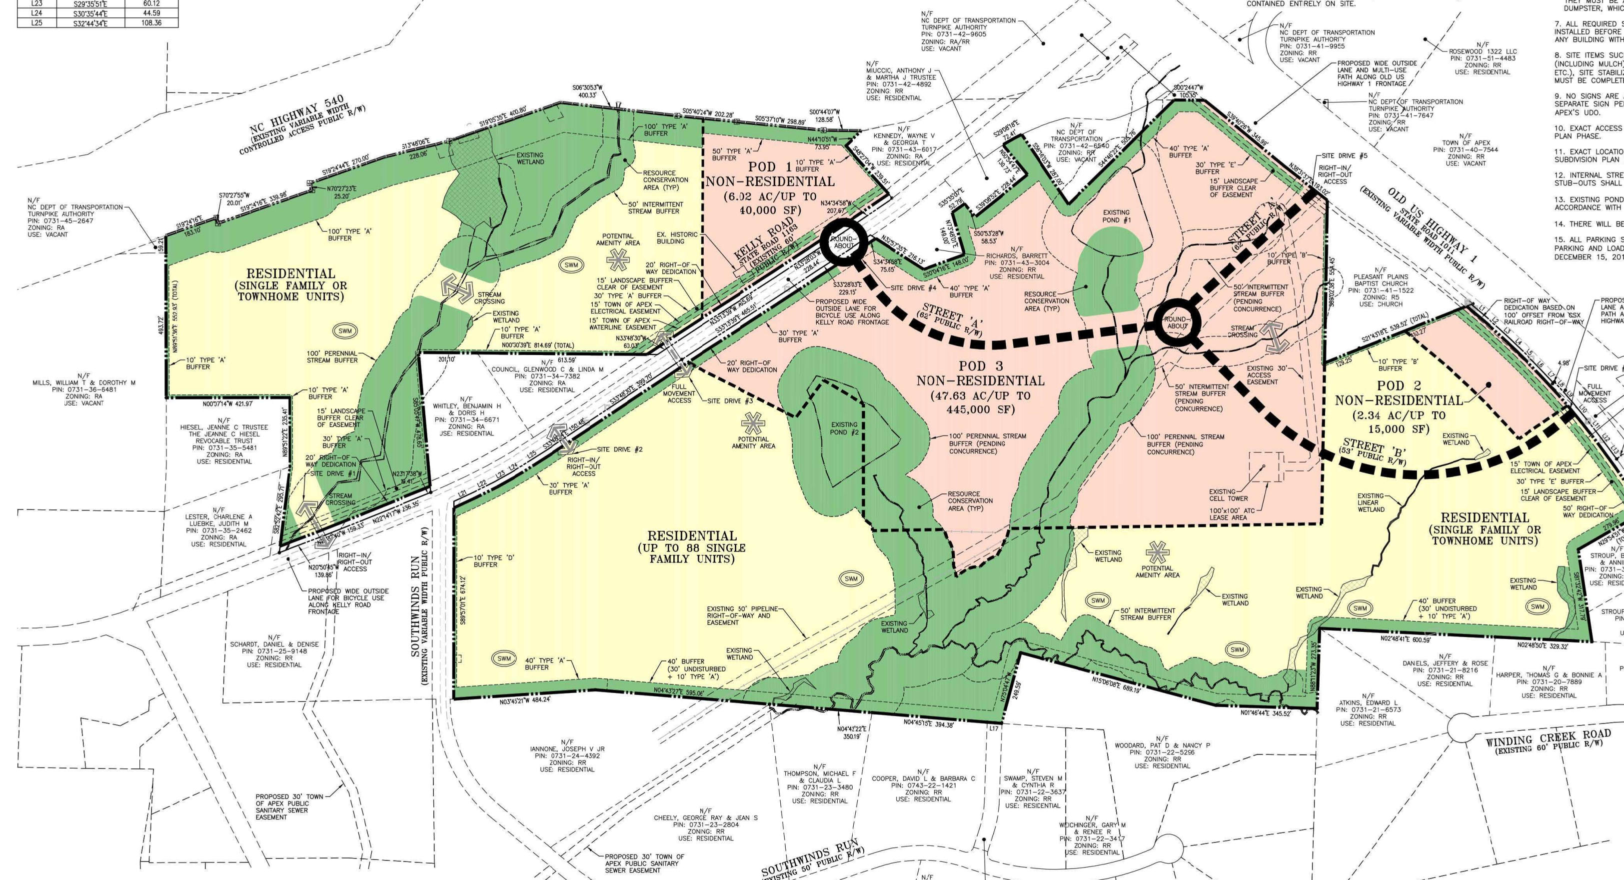
11. EXACT LOCATION OF RESOURCE CONSERVATION AREA TO BE FINALIZED AT SUBDIVISION PLAN PHASE.

12. INTERNAL STREETS SHALL BE DEDICATED TO THE TOWN OF APEX. ROAD STUB-OUTS SHALL BE PROVIDED PER TOWN OF APEX REQUIREMENTS.

13. EXISTING PONDS #1 & 2 MAY BE DRAINED AT A LATER DATE IN ACCORDANCE WITH ALL STATE AND LOCAL REGULATIONS.

14. THERE WILL BE NO RESIDENTIAL DRIVEWAYS ON STREETS 'A' AND 'B'.

15. ALL PARKING STANDARDS WITHIN THE PUD WILL COMPLY WITH SECTION 8.3, PARKING AND LOADING, OF THE TOWN OF APEX'S UDO (EFFECTIVE DATE DECEMBER 15, 2015).



LEGEND

COMMON CONSTRUCTION ISSUES & WHO TO CALL

This document is a public record under the North Carolina Public Records Act and may be published on the Town's website or disclosed to third parties.

Noise & Hours of Construction:	Non-Emergency Police	919-362-8661

Noise from tree removal, grading, excavating, paving, and building structures is a routine part of the construction process. The Town generally limits construction hours from 7:00 am to 8:30 pm so that there are quiet times even during the construction process. Note that construction outside of these hours is allowed with special permission from the Town when it makes more sense to have the construction occur at night, often to avoid traffic issues. In addition, the Town limits hours of blasting rock to Monday-Friday from 8:00 am to 5:00 pm. Report violations of construction hours and other noise complaints to the Non-Emergency Police phone number at 919-362-8661.

Construction Traffic:	Infrastructure Inspections	919-249-3386

Construction truck traffic will be heavy throughout the development process, including but not limited to removal of trees from site, loads of dirt coming in and/or out of the site, construction materials such as brick and wood brought to the site, asphalt and concrete trucks come in to pave, etc. The Town requires a construction entrance that is graveled to try to prevent as much dirt from leaving the site as possible. If dirt does get into the road, the Town can require they clean the street (see "Dirt in the Road" below).

Road Damage & Traffic Control:	Infrastructure Inspections	919-249-3386

There can be issues with roadway damage, roadway improvements, and traffic control. Potholes, rutting, inadequate lanes/signing/striping, poor traffic control, blocked sidewalks/paths are all common issues that should be reported to Transportation & Infrastructure Development – Infrastructure Inspections at 919-249-1109. The Town will get NCDOT involved if needed.

Parking Violations:	Non-Emergency Police	919-362-8661

Unless a neighbor gives permission, there should be no construction parking in neighbors' driveways or on their property. Note that parking in the right-of-way is allowed, but Town regulations prohibit parking within 15 feet of driveways so as not to block sight triangles. Trespassing and parking complaints should be reported to the Non-Emergency Police phone number at 919-362-8661.

Dirt in the Road:	Water Resources	919-362-8166

Sediment (dirt) and mud gets into the existing roads due to rain events and/or vehicle traffic. These incidents should be reported by visiting the Report a Concern page at https://www.apexnc.org/1173/ or by calling the number listed. Staff will coordinate the cleaning of the roadways with the developer.

Dirt on Properties or in Streams:	Water Resources	919-362-8166

Sediment (dirt) can leave the site and get onto adjacent properties or into streams and stream buffers; it is typically transported off-site by rain events. These incidents should be reported by visiting the Report a Concern page at https://www.apexnc.org/1173/ or by calling the number listed so that staff can coordinate the appropriate repairs with the developer.

Dust:	Water Resources	919-362-8166

During dry weather dust often becomes a problem blowing into existing neighborhoods or roadways. These incidents should be reported by visiting the Report a Concern page at https://www.apexnc.org/1173/ or by calling the number listed so that staff can coordinate the use of water trucks onsite with the grading contractor to help control the dust.

Trash:	Water Resources	919-362-8166

Excessive garbage and construction debris can blow around on a site or even off of the site. These incidents should be reported by visiting the Report a Concern page at https://www.apexnc.org/1173/ or by calling the number listed. Staff will coordinate the cleanup and trash collection with the developer/home builder.

Temporary Sediment Basins:	Water Resources	919-362-8166

Temporary sediment basins during construction (prior to the conversion to the final stormwater pond) are often quite unattractive. Concerns should be reported by visiting the Report a Concern page at https://www.apexnc.org/1173/ or by calling the number listed so that he can coordinate the cleaning and/or mowing of the slopes and bottom of the pond with the developer.

Stormwater Control Measures:	Water Resources	919-362-8166

Post-construction concerns related to Stormwater Control Measures (typically a stormwater pond) such as conversion and long-term maintenance should be reported by visiting the Report a Concern page at https://www.apexnc.org/1173/ or by calling the number listed.

Electric Utility Installation:	Rodney Smith	919-249-3342

Concerns with electric utility installation can be addressed by the Apex Electric Utilities Department. Contact Rodney Smith at 919-249-3342.

NEIGHBORHOOD MEETING SIGN-IN SHEET

This document is a public record under the North Carolina Public Records Act and may be published on the Town's website or disclosed to third parties.

Meeting Address: virtual via Zoom

Date of meeting: January 30, 2025 Time of meeting: 5:30 PM

Property Owner(s) name(s): Fahey Family Farm, LLC

Applicant(s): Trilandco, LLC c/o Matthew J. Carpenter

Please print your name below, state your address and/or affiliation with a neighborhood group, and provide your phone number and email address. Providing your name below does not represent support or opposition to the project; it is for documentation purposes only. For virtual meetings, applicants must include all known participants and request the information below.

	NAME/ORGANIZATION	ADDRESS	PHONE #	EMAIL	SEND PLANS & UPDATES

SUMMARY OF DISCUSSION FROM THE NEIGHBORHOOD MEETING

This document is a public record under the North Carolina Public Records Act and may be published on the Town's website or disclosed to third parties.

Property Owner(s) name(s): Fahey Family Farm, LLC

Applicant(s): Trilandco, LLC c/o Matthew J. Carpenter

Contact information (email/phone): MatthewCarpenter@parkerpoe.com; 919-835-4032

Meeting Address: virtual via Zoom

Date of meeting: January 30, 2025 Time of meeting: 5:30 PM

Please summarize the questions/comments and your responses from the Neighborhood Meeting or emails/phone calls received in the spaces below (attach additional sheets, if necessary). Please state if/how the project has been modified in response to any concerns. The response should not be "Noted" or "No Response". There has to be documentation of what consideration the neighbor's concern was given and justification for why no change was deemed warranted.

Question/Concern #1:

No neighbors attended the meeting

AFFIDAVIT OF CONDUCTING A NEIGHBORHOOD MEETING, SIGN-IN SHEET AND ISSUES/RESPONSES SUBMITTAL

This document is a public record under the North Carolina Public Records Act and may be published on the Town's website or disclosed to third parties.

I, Matthew J. Carpenter, do hereby declare as follows:
Print Name

1. I have conducted a Neighborhood Meeting for the proposed Rezoning, Major Site Plan, Minor Site Plan, Residential Master Subdivision Plan, or Special Use Permit in accordance with UDO Sec. 2.2.7.B *Neighborhood Meeting*.

2. The meeting invitations were mailed to the Apex Planning Department, all property owners and tenants abutting and within 300 feet of the subject property and any neighborhood association that represents citizens in the notification area via first class mail a minimum of 14 days in advance of the Neighborhood Meeting.

3. The meeting was conducted at virtually via Zoom (location/address) on 1/30/2025 (date) from 5:30 PM (start time) to 6:30 PM (end time).

4. I have included the mailing list, meeting invitation, sign-in sheet, issue/response summary, and zoning map/reduced plans with the application.

5. I have prepared these materials in good faith and to the best of my ability.

1/30/2025
Date

By: [signature]

STATE OF NORTH CAROLINA
COUNTY OF WAKE

Sworn and subscribed before me, Matthew Carpenter, a Notary Public for the above State and County, on this the 30 day of January, 2025.

APEX ENVIRONMENTAL ADVISORY BOARD
Suggested Zoning Conditions

West Village PUD Amendment 2/3/2025

The Town of Apex Environmental Advisory Board offers this general list of suggested rezoning conditions for rezoning applicants to consider before filling a rezoning petition. The purpose of this list is to encourage and recommend implementation of exceptional environmental practices for future development that exceeds Town requirements. The Board will review each rezoning pre-application request and expand on suggested conditions by offering specific recommendations on a case-by-case basis.

The decision to include any of the recommendations below is voluntary by the applicant and the Board does not expect applicants to add all of the suggested conditions. Planning staff will include all zoning conditions suggested by this Board and will note which conditions have been added by the applicant in the staff reports to the Planning Board and Town Council. Applicants should review this list before meeting with the Board. NOTE: Text in green indicates suggested zoning condition language from Planning Staff. Underlined text indicates text or numbers that may be changed based on the specific project. Additional conditions may be suggested by the EAB at the meeting.

This document is divided into two parts:

- Part I – Residential applies to single-family dwellings and townhome subdivisions, but does not include the parking lots, exterior building lights or exterior architecture.
- Part II – Non-Residential includes condominiums, apartments, and multi-family, common areas in residential developments (e.g. amenity areas, parking lots, exterior building lights, and exterior architecture), commercial, office, and industrial areas. Your development may include elements of each part.

Please be sure to read and complete the entire document. Please provide a response to each goal and/or sub-goal. Any proposed modifications to the green zoning language should be listed in the section at the end of the document.

Part I – Residential

Single-family dwelling and townhome subdivisions (excluding parking lots, exterior building lights and exterior architecture).

STORMWATER AND WATER CONSERVATION – WATER QUALITY (1-5)	YES	NO	N/A
Goal 1. Increase riparian buffer widths from surface waters in environmentally sensitive areas. The project shall increase the riparian buffer width by at least ____ feet above the minimum required by the Unified Development Ordinance. The additional buffer width shall be measured from the top of bank on each side of the stream.	☐	☐	☑
Goal 2. Install signage near environmental sensitive areas in order to reduce pet waste and excess nutrient inputs near Stormwater Control Measure (SCM) drainage areas.			

STORMWATER AND WATER CONSERVATION – WATER QUALITY (1-5)	YES	NO	N/A
The project shall install one (1) sign per SCM to reduce pet waste and prohibit fertilizer, in locations that are publicly accessible, such as adjacent to amenity centers, sidewalks, greenways, or side paths.	☐	☐	☑
Goal 3. Implement Low Impact Development (LID) techniques as defined by the NC Department of Environmental Quality. The project shall install a minimum of _____ Low Impact Development Technique as defined and approved by the NC Department of Environmental Quality. The specific type of LID technique shall be reviewed and approved by the Water Resources Department at site or subdivision plan review.	☐	☐	☑
Goal 4. Increase pervious surface to reduce stormwater runoff and pollutant concentrations. *Option 5.1:* Install pervious pavements where practicable (e.g. when parking maximums are exceeded). The Department of Public Works & Transportation does not currently support these options within the right-of-way (ROW). These may be done on private sites, but not within the public ROW. a. The project shall utilize pervious pavement when constructing the parking spaces for parking lot-style townhomes. The specific type of pervious pavement system shall be reviewed and approved by the Water Resources Department at site or subdivision plan review. The selected system shall be maintained by the developer and/or owner's association. **AND/OR** b. The project shall utilize pervious pavement when constructing the driveways for residential units. The specific type of pervious pavement system shall be reviewed and approved by the Water Resources Department at site or subdivision plan review. The selected system shall be maintained by the developer and/or owner's association.	☐ ☐	☐ ☐	☑ ☑
Goal 5. Use the stormwater captured in the on-site SCM to irrigate landscaping within the development. At least _____ SCM shall be designed and constructed to provide irrigation to the surrounding landscaping on site. The design shall be reviewed and approved by the Water Resources Department at site plan.	☐	☐	☑

PLANTING AND LANDSCAPING (6-13)	YES	NO	N/A
Goal 6. Preserve tree canopy and prioritize medium to large, healthy, desirable species. *Option 6.1:* Preserve existing trees (percentage-based). Numbers shown may be changed based on project**.** The project shall preserve a minimum of _____% of the existing tree canopy. Where the project abuts adjacent developments, special effort shall be taken to locate the preserved trees adjacent to areas of preserved open space, including but not limited to, RCA, perimeter landscape buffers, riparian buffers, and/or HOA maintained open spaces. *Option 6.2:* Replace canopy (percentage- or DBH size-based) where there is sufficient space. The project shall replace any large type trees, that measure 18-inches in caliper size or larger, and small type trees, that measure 8-inches in caliper size or larger, that are removed as a part of the development. The ratio of replacement shall be 1 large tree to 1 replacement tree of similar species or mature size. The UDO's required landscaping may be used to satisfy this requirement. To determine the number of trees that must be replaced, a tree survey for the full property shall be provided to the Planning Department. The survey shall be independently verified by a third-party licensed arborist.	☐ ☐	☐ ☐	☑ ☑

PLANTING AND LANDSCAPING (6-13)	YES	NO	N/A
Goal 7. Plant trees to improve energy efficiency.			
Option 7.1: Plant deciduous shade trees on southern side of buildings**.** To improve energy efficiency, a combination of large and small deciduous shade trees shall be planted on the southern side of any buildings.	☐	☐	☑
Option 7.2: Plant evergreen trees as a windbreak on northern side of buildings. To improve energy efficiency, the project shall plant evergreen trees on the northern side of all buildings to act as a windbreak.	☐	☐	☑
Goal 8. Increase biodiversity. Note: Invasive species are prohibited. Please see the Town's Design and Development Manual for a link to the list of prohibited species. *Option 8.1:* Plant pollinator-friendly flora. Provide diverse and abundant pollinator and bird food sources (e.g. Snectar, pollen, and berries from blooming plants) that bloom in succession from spring to fall. (Refer to the Apex Design & Development Manual for suggested native species). a. The project shall ensure that _____% of the landscaping shall be native species, which shall provide diverse and abundant pollinator and bird food sources. Special attention shall be paid to providing diverse and abundant pollinator and bird food sources, including plants that bloom in succession from spring to fall. Landscaping shall be coordinated with and approved by the Planning Department at site or subdivision review.	☐	☐	☑
Option 8.2: Provide and allow for undisturbed spaces (e.g. leaf piles, unmown fields, fallen trees) for nesting and overwintering for native pollinators and wildlife. In order to support wildlife and pollinators, HOA covenants shall not require that fallen leaves or dormant plants be removed during the winter on areas without turf grass, including individual homes and HOA owned common areas.	☐	☐	☑
Option 8.3: Retain and protect old ponds if the dam is structurally sound. To preserve and protect existing species, existing ponds shall be preserved if structurally sound.	☐	☐	☑
Option 8.4: Increase the number of native trees and shrubs. a. The project shall increase biodiversity within perimeter buffers, common owned open space, and other landscape areas by providing a variety of native and adaptive species for the canopy, understory and shrub levels. A minimum of _____% of the species selected shall be native or a native of North Carolina.	☐	☐	☑
AND/OR			
b. No single species of native or adaptive vegetation shall constitute more than 20% of the plant material of its type within a single development site.	☐	☐	☑
Goal 9. Implement xeriscaping in design, which will use landscaping that requires less irrigation and chemical use. Contact Planning for assistance, if needed. a. The project commits to planting only drought tolerant plants, of which _____% of the plants selected shall be native. Landscaping shall be coordinated with and approved by the Planning Department at site or subdivision review.	☐	☐	☑
OR			
b. To reduce irrigation requirements, the project shall select and plant only warm season grasses.	☐	☐	☑
Goal 10. Promote the benefits of native pollinators. The project shall plant at least _____ native pollinator demonstration garden within the development. The developer shall coordinate with a local or state agency that specializes in the design or certification of such gardens. Informational signage regarding the purpose of the garden and selected vegetation shall be provided. The pollinator garden shall be maintained by the developer or HOA.	☐	☐	☑
Goal 11. Improve soil quality to be amenable for a variety of native and non-invasive plantings.			

PLANTING AND LANDSCAPING (6-13)	YES	NO	N/A
To encourage the establishment of healthy plants, reduce fertilizers, and reduce stormwater runoff, topsoil shall be retained on site and a minimum of 4 inches of topsoil shall be placed on each lot and within disturbed common areas.	☐	☐	☑
Goal 12. Increase perimeter buffer requirements, especially in transitional areas (nonresidential to residential areas). The UDO requires a _____-foot buffer along the _____perimeter of the property. The applicant shall add _____-foot buffer in that location, which would be an increase of _____-feet above the requirement.	☐	☐	☑
Goal 13. Reduce impacts to resource conservation Areas (RCAs). a. The project shall install signage adjacent to wooded or natural condition Resource Conservation Area. The signage shall indicate that the area is RCA and is to be preserved in perpetuity and not disturbed.	☐	☐	☑
OR			
b. A farm-style split rail fence shall be installed where wooded or natural condition Resource Conservation Area (RCA) abuts individual residential lots.	☐	☐	☑

SUSTAINABLE BUILDINGS (14)	YES	NO	N/A
Goal 14. Apply for green building certifications, such as LEED, Energy Star, BREEAM, Green Globes, NGBS Green, or GreenGuard. The project shall be designed to meet the requirements for one of the green building certifications listed above. A third-party consultant shall be hired to evaluate the project and certify to the Town of Apex that the project meets the standards for the certification. The applicant shall forward a copy of the certification application to the Town of Apex Planning Department to verify that the application has been submitted.	☐	☐	☑

WASTE MANAGEMENT (15)	YES	NO	N/A
Goal 15. Encourage the proper disposal of pet waste to reduce environmental impacts. ***Numbers shown may be changed based on project.*** The project shall install at least one (1) pet waste station per 25 residential units throughout the community in locations that are publicly accessible, such as adjacent to amenity centers, SCMs, sidewalks, greenways or side paths. If there fewer than 25 homes, at least one (1) pet waste station shall be installed.	☐	☐	☑

CLEAN ENERGY (16-18)	YES	NO	N/A
Goal 16. Install rooftop solar on buildings. a. A solar PV system of at least _____kW shall be installed on at least _____homes within the development. All solar installation required by this condition shall be completed or under construction prior to 90% of the building permits being issued for the development. The lot(s) on which this home/these homes is/are located shall be identified on the Master Subdivision Plat, which may be amended from time to time.	☐	☐	☑
AND/OR			
b. A solar PV system shall be installed on a minimum of _____model home. All solar installation required by this condition shall be completed or under construction prior to _____% of the building permits being issued for the development. The lot(s) on which this home/these homes is/are located shall be identified on the Master Subdivision Plat, which may be amended from time to time.	☐	☐	☑
AND/OR			

CLEAN ENERGY (16-18)	YES	NO	N/A
c. The amenity center for the project shall include a rooftop solar PV system with a capacity of at least _____ kWHs.	☐	☐	☑
Goal 17. Include solar conduit in building design. All homes shall be pre-configured with conduit for a solar energy system.	☐	☐	☑
Goal 18. Encourage clean transportation. The developer shall install at least _____electric vehicle charging station in amenity centers or common area parking lots.	☐	☐	☑

Part II - Non-Residential

Includes condominiums, apartments, and multi-family, common areas in residential developments (e.g. amenity areas, parking lots, exterior building lights, and exterior architecture), commercial, office, and industrial areas.

STORMWATER AND WATER CONSERVATION – WATER QUANTITY (1)	YES	NO	N/A
Goal 1. Increase design storm for retention basin in flood-prone areas. The UDO requires that treatment for the first 1-inch of runoff will be provided such that the removal of 85% Total Suspended Solids is achieved. Each option is intended to be used as an improvement to the minimum UDO requirements. If an area is already required to mitigate the 25-year storm, option b should not be selected.			
a. Post-development peak runoff shall not exceed pre-development peak runoff for the 24-hour, 1-year, 10-year, 25-year and 100-year storm events in accordance with the Unified Development Ordinance.	☐	☐	☑
OR			
b. Post development peak runoff shall not exceed pre-development peak runoff for the 24-hour, 1-year, 10-year, and 25-year storm events in accordance with the Unified Development Ordinance.	☐	☐	☑

STORMWATER AND WATER CONSERVATION – WATER QUALITY (2-7)	YES	NO	N/A
Goal 2. Increase riparian buffer widths from surface waters in environmentally sensitive areas. The project shall increase the riparian buffer width by at least _____feet above the minimum required by the Unified Development Ordinance. The additional buffer width shall be measured from the top of bank on each side of the stream.	☐	☐	☑
Goal 3. Limit tree clearing, stormwater control measures (SCM), or infrastructure in either zone of the riparian buffer. No clearing or land disturbance shall be permitted within the riparian buffer, except the minimum necessary to install required sewer infrastructure and SCM outlets. The SCM water storage and treatment area shall not be permitted within the riparian buffer. The sewer shall be designed to minimize impacts to the riparian buffer.	☐	☐	☑
Goal 4. Install signage near environmental sensitive areas in order to reduce pet waste and excess nutrient inputs near Stormwater Control Measure (SCM) drainage areas. The project shall install one (1) sign per SCM to reduce pet waste and prohibit fertilizer, in locations that are publicly accessible, such as adjacent to amenity centers, sidewalks, greenways, or side paths.	☐	☐	☑
Goal 5. Implement low impact development (LID) techniques as defined by the NC Department of Environmental Quality. The project shall install a minimum of _____Low Impact Development Technique as defined and approved by the NC Department of Environmental Quality. The specific	☐	☐	☑

STORMWATER AND WATER CONSERVATION – WATER QUALITY (2-7)	YES	NO	N/A
type of LID technique shall be reviewed and approved by the Water Resources Department at site or subdivision plan review.			
Goal 6. Increase pervious surface to reduce stormwater runoff and pollutant concentrations. The Department of Public Works & Transportation does not currently support these options within the ROW. These may be done on private sites, but not within the public ROW. *Option 6.1:* Install pervious pavements where practicable (e.g. when parking maximums are exceeded). a. The project shall utilize pervious pavement when constructing parking spaces that are in excess of the minimum parking requirement. The specific type of pervious pavement system shall be reviewed and approved by the Water Resources Department at site or subdivision plan review.	☐	☐	☑
AND/OR			
b. The project shall utilize pervious pavement for all of the parking spaces provided. The specific type of pervious pavement system shall be reviewed and approved by the Water Resources Department at site or subdivision plan review.	☐	☐	☑
Option 6.2: Modify curb and gutters to provide stormwater infiltration and evaporation, such as swale-only, reverse curbs, Silva cells, or curb cuts with rain gardens. To increase stormwater infiltration and evaporation, the project shall use modified curb and gutter designs to direct driveway runoff to one or more stormwater device, such as, but not limited to, bioswales, Silva cells, or rain gardens. The specific type and design shall be selected at site or subdivision plan review. The proposal shall be reviewed and approved by the Water Resources Department and Department of Public Works and Transportation.	☐	☐	☑
Option 6.3: Utilize green street design. May be done within the public ROW if it's in the form of a bioretention cell within a landscaped median or large roundabout. Will require approval by the Department of Public Works and Transportation. The project shall design and install one or more bioretention cells within the landscape median or roundabout along the primary road. The specific type and design shall be determined at site or subdivision plan review. The proposal shall be reviewed and approved by the Water Resources Department and Department of Public Works and Transportation.	☐	☐	☑
Goal 7. Stormwater re-use application: Integrate irrigation from the SCM (wet pond) on site.			
At least one _____SCM shall be designed and constructed to provide irrigation to the surrounding landscaping on site. The design shall be reviewed and approved by the Water Resources Department at site plan.	☐	☐	☑

PLANTING AND LANDSCAPING (8-15)	YES	NO	N/A
Goal 8. Preserve tree canopy and prioritize medium to large, healthy, desirable species. *Option 8.1:* Preserve existing trees (percentage-based). Numbers shown may be changed based on project**.** The EAB's preference is for a minimum of 50%. a. The project shall preserve a minimum of _____% of the existing tree canopy. Preserved areas may include, but are not limited to, RCA, perimeter buffers, riparian buffers and/or HOA maintained open space throughout the neighborhood.	☐	☐	☑
OR			
b. The project shall preserve a minimum of _____% of the existing tree canopy. Where the project abuts adjacent developments, special effort shall be taken to	☐	☐	☑

PLANTING AND LANDSCAPING (8-15)	YES	NO	N/A
locate the preserved trees adjacent to areas of existing preserved open space, including but not limited to, RCA, perimeter landscape buffers, riparian buffers, and/or HOA maintained open spaces. *Option 8.2:* Replace canopy (percentage- or DBH size-based) where there is sufficient space. The project shall replace any large type trees, that measure 18-inches in caliper size or larger, and small type trees, that measure 8-inches in caliper size or larger, that are removed as a part of the development. The ratio of replacement shall be 1 large tree to 1 replacement tree. The UDO's required landscaping may be used to satisfy this requirement. To determine the number of trees that must be replaced, a tree survey for the full property shall be provided to the Planning Department. The survey shall be independently verified by a third-party licensed arborist.	☐	☐	☑
Goal 9. Plant trees for improved energy efficiency. *Option 9.1:* Plant deciduous shade trees on southern side of buildings. To improve energy efficiency, a combination of large and small deciduous shade trees shall be planted on the southern side of any buildings.	☐	☐	☑
Option 9.2: Plant evergreen trees as a windbreak on northern side of buildings. To improve energy efficiency, the project shall plant evergreen trees on the northern side of all buildings to act as a windbreak.	☐	☐	☑
Goal 10. Increase biodiversity. *Option 10.1:* Plant pollinator-friendly flora. Provide diverse and abundant pollinator and bird food sources (e.g. nectar, pollen, and berries from blooming plants) that bloom in succession from spring to fall. (Refer to the Apex Design & Development Manual for suggested native species). a. The project shall select and install tree, shrub and perennial species with special attention to providing diverse and abundant pollinator and bird food sources, including plants that bloom in succession from spring to fall.	☐	☐	☑
OR			
b. The project shall ensure that _____% of the landscaping shall be native species. Landscaping shall be coordinated with and approved by the Planning Department at site or subdivision review.	☐	☐	☑
Option 10.2: Retain and protect old ponds if the dam is structurally sound. To preserve and protect existing species, existing ponds shall be preserved if structurally sound.	☐	☐	☑
Option 10.3: Increase the number of native tree and shrub species selected. a. The project shall increase biodiversity within perimeter buffers, common owned open space, and other landscape areas by providing a variety of native and adaptive species for the canopy, understory and shrub levels. A minimum of _____% of the species selected shall be native or a native of North Carolina.	☐	☐	☑
OR			
b. No invasive species shall be permitted. No single species of tree or shrub shall constitute more than 20% of the plant material of its type within a single development site.	☐	☐	☑
Goal 11. Implement green infrastructure. *Option 11.1:* Plant rain gardens. The project shall install one or more rain gardens throughout the site.	☐	☐	☑
Option 11.2: Install vegetated rooftops. a. The project shall install a vegetated rooftop, aka green roof, on each building.	☐	☐	☑
OR			
b. The project shall install a vegetated rooftop, aka green roof, on at least _____ft^2 of each building.	☐	☐	☑

PLANTING AND LANDSCAPING (8-15)	YES	NO	N/A
Option 11.3: Implement xeriscaping in design. a. The project commits to planting _____% drought tolerant native plants. Landscaping shall be coordinated with and approved by the Planning Department at site or subdivision review. **OR** b. The project commits to planting only drought tolerant plants. At least _____% of the plants selected shall be native. Landscaping shall be coordinated with and approved by the Planning Department at site or subdivision review. **OR** c. To reduce irrigation requirements, the project shall select and plant only warm season grasses.	☐ ☐ ☐	☐ ☐ ☐	☑ ☑ ☑
Goal 12. Install community gardens and native pollinator demonstration gardens. The project shall plant at least _____ native pollinator demonstration garden within the development. The developer shall coordinate with a local or state agency that specializes in the design or certification of such gardens. Informational signage regarding the purpose of the garden and selected vegetation shall be provided.	☐	☐	☑
Goal 13. Improve soil quality to be amenable for a variety of native and non-invasive plantings. To encourage the establishment of healthy plants, reduce fertilizers, and reduce stormwater runoff, topsoil shall be retained on site and a minimum of 4 inches of topsoil shall be placed within disturbed areas.	☐	☐	☑
Goal 14. Increase perimeter buffer requirements, especially in transitional areas (nonresidential to residential areas). The UDO requires a _____-foot buffer along the _____perimeter of the property. The applicant is proposing a _____-foot buffer in that location, which would be an increase of _____-feet above the requirement.	☐	☐	☑
Goal 15. Add information signage or other marking at the boundary of lots when they are adjacent to a wooded or natural condition resource conservation area (RCA) indicating that the area beyond the sign is RCA and is not to be disturbed. a. The project shall install signage adjacent to wooded or natural condition Resource Conservation Area. The signage shall indicate that the area is RCA and is to be preserved in perpetuity and not disturbed. **OR** b. A farm-style split rail fence shall be installed where wooded or natural condition Resource Conservation Area (RCA) abuts individual residential lots.	☐ ☐	☐ ☐	☑ ☑

SUSTAINABLE BUILDINGS (16)	YES	NO	N/A
Goal 16. Apply for green building certifications, such as LEED, Energy Star, BREEAM, Green Globes, NGBS Green, or GreenGuard. The project shall be designed to meet the requirements for _____green building certification. A third-party consultant shall be hired to evaluate the project and certify to the Town of Apex that the project meets the standards for the certification. The applicant shall forward a copy of the certification application to the Town of Apex Planning Department to verify that the application has been submitted.	☐	☐	☑

WASTE REDUCTION (17)	YES	NO	N/A
Goal 17. Install pet waste stations in public areas for multi-family, apartments, or condominiums or dog friendly businesses.			

WASTE REDUCTION (17)	YES	NO	N/A
The project shall install at least _____ pet waste stations throughout the community, in locations that are publicly accessible, such as adjacent to amenity centers, SCMs, sidewalks, greenways or side paths.	☐	☐	☑

CLEAN ENERGY (18-20)	YES	NO	N/A
Goal 18. Install rooftop solar on buildings.			
a. A solar PV system shall be incorporated into buildings to be constructed on the property. Such PV systems shall have a capacity of not less than 2 kW/1,000 heated square feet of building floor area.	☐	☐	☑
OR			
b. A solar PV system of at least 3.5kW shall be installed on at least _____% of or _____ buildings within the development. All solar installation required by this condition shall be completed or under construction prior to _____% of the building permits being issued for the development. The buildings on which these PV systems are located shall be identified on the Site Plan, which may be amended from time to time.	☐	☐	☑
OR			
c. The amenity center for the project shall include a rooftop solar PV system with a capacity of at least _____ kWHs.	☐	☐	☑
Goal 19. Include solar conduit in building design.			
The project shall install conduit for solar energy systems for all non-residential buildings. The roof shall also be engineered to support the weight of a future rooftop solar PV system.	☐	☐	☑
Goal 20. Encourage clean transportation.			
a. The installation of EV charging spaces shall not reduce the width of adjacent sidewalk to less than 5 feet.	☐	☐	☑
AND/OR			
b. EV charging spaces shall be located such that the cords shall not cause a trip hazard.	☐	☐	☑
AND/OR			
c. The developer shall provide 5% of all parking spaces as EV charging spaces.	☐	☐	☑

LIGHTING EFFICIENCY (21-24)	YES	NO	N/A
Goal 21. Include energy efficient lighting in building design.			
Option 21.1: *Increase the use of LEDs.* The exterior lighting for all multi-family and commercial buildings and parking lots will consist entirely of LED fixtures.	☐	☐	☑
Option 21.2: Lower maximum foot-candles outside of buildings. On the lighting plan, the average footcandle measurement for parking, building lighting and driveways shall be at least 0.5 footcandles lower than the UDO requires.	☐	☐	☑
Goal 22. Install timers or light sensors or smart lighting technology.			
a. The project shall install light timers, motion sensors, or other smart lighting technology for all exterior lighting.	☐	☐	☑
Goal 23. Include International Dark Sky Association compliance standards.			
The project shall use full cutoff LED fixtures that have a maximum color temperature of 3000K for all exterior lighting, including, but not limited to, parking lot and building mounted fixtures.	☐	☐	☑

Applicant Clarification/Additional Language:
The proposed PUD Amendment is exempt from EAB review. UDO Section 2.1.9.A).2).a) states: The following conditional rezoning requests shall be exempt from review by the Board: a) Rezonings to amend zoning conditions which have no environmental impact on a site including but not limited to revisions to architectural standards, building height setbacks, and uses. This PUD Amendment proposes revisions to existing PUD conditions related to transportation infrastructure improvements, but does not propose any amendments to conditions which have an environmental impact.
Additional Board Recommendations:

NOTICE OF NEIGHBORHOOD MEETING

This document is a public record under the North Carolina Public Records Act and may be published on the Town's website or disclosed to third parties.

April 1, 2025
Date

Dear Neighbor:
You are invited to a neighborhood meeting to review and discuss the development proposal at

2517 Kelly Road — Address(es)
0731434504 — PIN(s)

in accordance with the Town of Apex Neighborhood Meeting procedures. This meeting is intended to be a way for the applicant to discuss the project and review the proposed plans with adjacent neighbors and neighborhood organizations before the submittal of an application to the Town. This provides neighbors an opportunity to raise questions and discuss any concerns about the impacts of the project before it is officially submitted. If you are unable to attend, please refer to the Project Contact Information page for ways to contact the applicant. Notified neighbors may request that the applicant provide updates and send plans via email or mail. Once an application has been submitted to the Town, it may be tracked using the Interactive Development Map or the Apex Development Report located on the Town of Apex website at http://www.apexnc.org/180. Applications for Rezoning must hold a second Neighborhood Meeting in the month prior to the anticipated public hearing date.

A Neighborhood Meeting is required because this project includes (check all that apply):

	Application Type	Approving Authority
☑	Rezoning (including Planned Unit Development)	Town Council
☐	Major Site Plan	Technical Review Committee (staff)
☐	Minor Site Plan for the uses "Day care facility", "Government service", "School, public or private", "Restaurant, drive-through", or "Convenience store with gas sales"	Technical Review Committee (staff)
☐	Special Use Permit	Board of Adjustment (QJPH*)
☐	Residential Master Subdivision Plan (excludes exempt subdivisions)	Technical Review Committee (staff)

*Quasi-Judicial Public Hearing: The Board of Adjustment cannot discuss the project prior to the public hearing.

The following is a description of the proposal (also see attached map(s) and/or plan sheet(s)):

The applicant is proposing a rezoning to amend conditions of the West Village PUD and a site plan for the development of non-residential uses, including, but not limited to, a daycare, retail space, and office space.

Estimated submittal date: Submitted on February 3, 2025

MEETING INFORMATION:

Property Owner(s) name(s):	Fahey Family Farm, LLC
Applicant(s):	Trilandco, LLC c/o Collier R. Marsh
Contact information (email/phone):	colliermarsh@parkerpoe.com; (919) 835-4663
Meeting Address:	Virtual (Zoom) - See attached notice letter
Date/Time of meeting**:	April 15, 2025 (5:30 - 6:30 PM)

Welcome: 5:30 PM Project Presentation: 5:30 PM Question & Answer: 6:00PM

**Meetings shall occur between 5:00 p.m.-9:00 p.m. on a Monday through Thursday (excluding Town recognized holidays). If you have questions about the general process for this application, please contact the Planning Department at 919-249-3426. You may also find information about the Apex Planning Department and on-going planning efforts at http://www.apexnc.org/180.

Re: Notice of Second Virtual Neighborhood Meeting

You are invited to attend a second virtual neighborhood meeting on April 15, 2025 at 5:30 PM to discuss 25CZ05, the proposed rezoning and site plan applications for an approximately 6.19-acre property located at 2517 Kelly Road (PIN 0731434504). The rezoning will amend the West Village PUD zoning conditions that currently apply to the property and rezone the property from Planned Unit Development Conditional Zoning (PUD-CZ) to PUD-CZ with revised conditions. The site plan application will allow for the development of non-residential uses on the property, including, but not limited to, a day care facility and office space.

During the meeting, the applicant will describe the nature of the rezoning request, provide updates since the first neighborhood meeting, and field any questions from the public. Enclosed are: (1) a vicinity map outlining the location of the property; (2) a zoning map of the area; (3) a copy of the PUD Plan, (4) a draft site plan, (5) a Transportation Plan exhibit, (6) a project contact information sheet; and (7) a common construction issues & who to call information sheet.

The meeting will be held virtually. You can participate online via Zoom or by telephone. To participate in the Zoom online meeting:

Visit:	https://zoom.us./join
Enter the following meeting ID:	875 3788 7197
Enter the following password:	180565

To participate by telephone:

Dial:	1 929 205 6099
Enter the following meeting ID:	875 3788 7197
Enter the Participant ID:	#
Enter the Meeting password:	180565

If you have any questions about this rezoning, please contact me at (919) 835-4663 or via email at colliermarsh@parkerpoe.com.

Sincerley,

Collier R. Marsh

PHASING NOTES

1. THE PROPERTY WILL BE DEVELOPED IN UP TO 10 PHASES. THE TIMING AND AMOUNT OF PHASES WILL BE DEFINED AT THE TIME OF SITE PLAN REVIEW.

2. ACCESS POINTS ARE PRELIMINARY IN NATURE AND SUBJECT TO TOWN OF APEX AND NCDOT REVIEW AT TIME OF SITE PLAN REVIEW.

3. LIMITS OF LAND DISTURBANCE WITHIN EACH PHASE TO BE FINALIZED AT SITE PLAN PHASE.

4. PUBLIC UTILITIES SHALL BE PROVIDED FOR EACH PHASE.

5. ROADWAY PHASING – PRIOR TO TIME OF THE FIFTY–FIRST PLATTED LOT ASSOCIATED WITH THE RESIDENTIAL LOCATED OFF OF OLD US HWY 1, THE SECOND POINT OF ACCESS (SOUTHERNMOST PORTION OF STREET 'A'), NECESSARY PORTION OF THE SOUTHERNMOST ROUNDABOUT AND STREET 'B' SHOWN SHALL BE CONSTRUCTED. AS A PART OF THE NON–RESIDENTIAL DEVELOPMENT IN POD 3, THE ROUNDABOUT PROPOSED ON KELLY ROAD SHALL BE CONSTRUCTED ALONG WITH THE PORTION OF STREET 'A' TYING BACK TO THE SOUTHERNMOST ROUNDABOUT. PRIOR TO TIME OF THE FIRST CERTIFICATE OF OCCUPANCY FOR ANY COMMERCIAL WITHIN POD 3, STREET 'A' WILL BE FULLY CONSTRUCTED, CONNECTING KELLY ROAD TO OLD US HWY 1.

SITE NOTES

1. REFER TO PUD DOCUMENT FOR A COMPLETE LIST OF ALLOWABLE USES FOR EACH TRACT OR DEVELOPMENT AREA.

2. NO SITE DEVELOPMENT ACTIVITY INCLUDING BUT NOT LIMITED TO TESTING, CLEARING, INSTALLATION OF S&E MEASURES, OR GRADING, SHALL OCCUR UNTIL REQUIRED PROTECTION FENCING HAS BEEN INSTALLED AND INSPECTED. A PROTECTION FENCING INSTALLATION PERMIT MAY BE OBTAINED AT THE PLANNING DEPARTMENT OR BY CALLING 919–249–3426.

3. PROTECTION FENCING MUST BE PLACED AWAY FROM ANY SAVED TREE ONE FOOT FOR EACH INCH OF TREE CALIPER. PROTECTION FENCING MUST BE PLACED AT LEAST 10 FEET AWAY FROM ANY OTHER DESIGNATED RESOURCE CONSERVATION AREA, SUCH AS, BUT NOT LIMITED TO, HISTORIC BUILDINGS AND STRUCTURES, WETLANDS, AND PONDS. PROTECTION FENCING MUST BE PLACED ALONG THE OUTSIDE LINE OF THE 100–YEAR FLOODPLAIN, AND THE OUTSIDE EDGE OF ANY RIPARIAN BUFFER. ADDITIONAL PROTECTION FENCING MAY BE REQUIRED IN OTHER LOCATIONS CLOSE TO CONSTRUCTION ACTIVITY WHERE IT IS DEEMED NECESSARY BY THE ZONING ENFORCEMENT OFFICER; SUCH AREAS MAY INCLUDE BUT ARE NOT LIMITED TO, COMMON PROPERTY LINES OR NEAR PUBLIC AREAS (SIDEWALKS, ETC).

4. ALL GRADING AND SUPPORT STRUCTURES ASSOCIATED WITH ANY RETAINING STRUCTURE SHALL NOT ENCROACH INTO ANY REQUIRED BUFFER OR PROTECTED AREA (SUCH AS, BUT NOT LIMITED TO, RCA AND CRITICAL ROOT ZONES OF TREES, PUBLIC UTILITY EASEMENTS, AND RIGHTS–OF–WAY), AND SHALL BE CONTAINED ENTIRELY ON SITE.

5. SITE ELEMENTS REQUIRED TO SATISFY RECREATIONAL REQUIREMENTS SUCH AS, BUT NOT LIMITED TO, PLAY FIELDS AND GREENWAY TRAILS AND ITEMS TYPICALLY ASSOCIATED WITH THEM (BENCHES, TRASH CONTAINERS, SIGNS, ETC.) MUST MEET ANY APPLICABLE STANDARDS FOUND IN THE TOWN OF APEX STANDARD SPECIFICATIONS AND CONSTRUCTION DETAILS AND THE REQUIREMENTS OF THE TOWN OF APEX PARKS AND RECREATION DEPARTMENT.

6. THE SCREENING OF TRASH CONTAINERS (INCLUDING DUMPSTERS AND ROLL–OUT CARTS), OUTDOOR STORAGE, MECHANICAL AND HVAC EQUIPMENT, AND SIMILAR FACILITIES ON THE ROOF, ON THE GROUND, OR ON BUILDINGS SHALL MEET THE REQUIREMENTS FOUND IN SECTION 8.2.8 OF THE UNIFIED DEVELOPMENT ORDINANCE; SPECIFICALLY SCREENING MUST BE DONE SO THAT:

   A. IT IS INCORPORATED INTO THE OVERALL DESIGN THEME OF THE BUILDING AND LANDSCAPE.

   B. SCREENING MATERIALS ARE NOT DIFFERENT FROM OR INFERIOR TO THE PRINCIPAL MATERIALS OF THE BUILDING OR LANDSCAPE, AND ARE SIMILAR IN MATERIALS AND COLOR.

   C. SCREENED ITEMS ARE OUT OF VIEW FROM ADJACENT PROPERTIES AND PUBLIC STREETS, AND A TOTALLY OPAQUE SCREEN IS ACHIEVED.

   D. ANY GROUND–MOUNTED HVAC OR OTHER MECHANICAL OR UTILITY EQUIPMENT SIX–FEET TALL OR HIGHER MUST BE FENCED AND LANDSCAPED.

   E. DUMPSTER ENCLOSURES MUST MEET THE ABOVE REQUIREMENTS PLUS THEY MUST BE AT LEAST EIGHT–FEET TALL OR THE HEIGHT OF THE DUMPSTER, WHICHEVER IS TALLER; AND BE BUILT OF MASONRY MATERIAL.

7. ALL REQUIRED SITE ELEMENTS SHOWN WITHIN A PARTICULAR PHASE MUST BE INSTALLED BEFORE A FINAL CERTIFICATE OF OCCUPANCY MAY BE ISSUED FOR ANY BUILDING WITHIN THAT PHASE.

8. SITE ITEMS SUCH AS BUT NOT LIMITED TO, LIGHTING, LANDSCAPING (INCLUDING MULCH), SCREENING (i.e.: DUMPSTERS/TRASH, MECHANICAL/HVAC, ETC.), SITE STABILIZATION (SEEDING), AND PARKING AND PAVEMENT MARKING MUST BE COMPLETED PRIOR TO SCHEDULING A FINAL SITE INSPECTION.

9. NO SIGNS ARE APPROVED AS PART OF THE PUD–CZ PLAN APPROVAL. A SEPARATE SIGN PERMIT MUST BE OBTAINED. SIGNAGE WILL COMPLY WITH APEX'S UDO.

10. EXACT ACCESS AND STUB LOCATIONS TO BE FINALIZED AT SUBDIVISION PLAN PHASE.

11. EXACT LOCATION OF RESOURCE CONSERVATION AREA TO BE FINALIZED AT SUBDIVISION PLAN PHASE.

12. INTERNAL STREETS SHALL BE DEDICATED TO THE TOWN OF APEX. ROAD STUB–OUTS SHALL BE PROVIDED PER TOWN OF APEX REQUIREMENTS.

13. EXISTING PONDS #1 & 2 MAY BE DRAINED AT A LATER DATE IN ACCORDANCE WITH ALL STATE AND LOCAL REGULATIONS.

14. THERE WILL BE NO RESIDENTIAL DRIVEWAYS ON STREETS 'A' AND 'B'.

15. ALL PARKING STANDARDS WITHIN THE PUD WILL COMPLY WITH SECTION 8.3, PARKING AND LOADING, OF THE TOWN OF APEX'S UDO (EFFECTIVE DATE DECEMBER 15, 2015).

COMMON CONSTRUCTION ISSUES & WHO TO CALL

This document is a public record under the North Carolina Public Records Act and may be published on the Town's website or disclosed to third parties.

Noise & Hours of Construction:	**Non-Emergency Police**	**919-362-8661**

Noise from tree removal, grading, excavating, paving, and building structures is a routine part of the construction process. The Town generally limits construction hours from 7:00 am to 8:30 pm so that there are quiet times even during the construction process. Note that construction outside of these hours is allowed with special permission from the Town when it makes more sense to have the construction occur at night, often to avoid traffic issues. In addition, the Town limits hours of blasting rock to Monday-Friday from 8:00 am to 5:00 pm. Report violations of construction hours and other noise complaints to the Non-Emergency Police phone number at 919-362-8661.

Construction Traffic:	**Infrastructure Inspections**	**919-249-3386**

Construction truck traffic will be heavy throughout the development process, including but not limited to removal of trees from site, loads of dirt coming in and/or out of the site, construction materials such as brick and wood brought to the site, asphalt and concrete trucks come in to pave, etc. The Town requires a construction entrance that is graveled to try to prevent as much dirt from leaving the site as possible. If dirt does get into the road, the Town can require they clean the street (see "Dirt in the Road" below).

Road Damage & Traffic Control:	**Infrastructure Inspections**	**919-249-3386**

There can be issues with roadway damage, roadway improvements, and traffic control. Potholes, rutting, inadequate lanes/signing/striping, poor traffic control, blocked sidewalks/paths are all common issues that should be reported to Transportation & Infrastructure Development – Infrastructure Inspections at 919-249-1109. The Town will get NCDOT involved if needed.

Parking Violations:	**Non-Emergency Police**	**919-362-8661**

Unless a neighbor gives permission, there should be no construction parking in neighbors' driveways or on their property. Note that parking in the right-of-way is allowed, but Town regulations prohibit parking within 15 feet of driveways so as not to block sight triangles. Trespassing and parking complaints should be reported to the Non-Emergency Police phone number at 919-362-8661.

Dirt in the Road:	**Water Resources**	**919-362-8166**

Sediment (dirt) and mud gets into the existing roads due to rain events and/or vehicle traffic. These incidents should be reported by visiting the Report a Concern page at https://www.apexnc.org/1173/ or by calling the number listed. Staff will coordinate the cleaning of the roadways with the developer.

Dirt on Properties or in Streams:	**Water Resources**	**919-362-8166**

Sediment (dirt) can leave the site and get onto adjacent properties or into streams and stream buffers; it is typically transported off-site by rain events. These incidents should be reported by visiting the Report a Concern page at https://www.apexnc.org/1173/ or by calling the number listed so that staff can coordinate the appropriate repairs with the developer.

Dust:	**Water Resources**	**919-362-8166**

During dry weather dust often becomes a problem blowing into existing neighborhoods or roadways. These incidents should be reported by visiting the Report a Concern page at https://www.apexnc.org/1173/ or by calling the number listed so that staff can coordinate the use of water trucks onsite with the grading contractor to help control the dust.

Trash:	**Water Resources**	**919-362-8166**

Excessive garbage and construction debris can blow around on a site or even off of the site. These incidents should be reported by visiting the Report a Concern page at https://www.apexnc.org/1173/ or by calling the number listed. Staff will coordinate the cleanup and trash collection with the developer/home builder.

Temporary Sediment Basins:	**Water Resources**	**919-362-8166**

Temporary sediment basins during construction (prior to the conversion to the final stormwater pond) are often quite unattractive. Concerns should be reported by visiting the Report a Concern page at https://www.apexnc.org/1173/ or by calling the number listed so that he can coordinate the cleaning and/or mowing of the slopes and bottom of the pond with the developer.

Stormwater Control Measures:	**Water Resources**	**919-362-8166**

Post-construction concerns related to Stormwater Control Measures (typically a stormwater pond) such as conversion and long-term maintenance should be reported by visiting the Report a Concern page at https://www.apexnc.org/1173/ or by calling the number listed.

Electric Utility Installation:	**Rodney Smith**	**919-249-3342**

Concerns with electric utility installation can be addressed by the Apex Electric Utilities Department. Contact Rodney Smith at 919-249-3342.

NEIGHBORHOOD MEETING SIGN-IN SHEET

This document is a public record under the North Carolina Public Records Act and may be published on the Town's website or disclosed to third parties.

Meeting Address: Virtual via Zoom

Date of meeting: April 15, 2025 Time of meeting: 5:30pm - 6:30pm

Property Owner(s) name(s): See attached

Applicant(s): Trilandco, LLC

Please print your name below, state your address and/or affiliation with a neighborhood group, and provide your phone number and email address. Providing your name below does not represent support or opposition to the project; it is for documentation purposes only. For virtual meetings, applicants must include all known participants and request the information below.

	NAME/ORGANIZATION	ADDRESS	PHONE #	EMAIL	SEND PLANS & UPDATES
1.	Brian Griffith	2524 & 2601 Kelly Rd, Apex, NC 25702		[redacted]	
2.	Pat Fahey	2517 Kelly Road			
3.	Phone attendee/name unknown				
4.					
5.					
6.					
7.

Use additional sheets, if necessary.

SUMMARY OF DISCUSSION FROM THE NEIGHBORHOOD MEETING

This document is a public record under the North Carolina Public Records Act and may be published on the Town's website or disclosed to third parties.

Property Owner(s) name(s): See attached

Applicant(s): Trilandco, LLC

Contact information (email/phone): Collier R. Marsh; (919) 835-4663; colliermarsh@parkerpoe.com

Meeting Address: Virtual via Zoom

Date of meeting: April 15, 2025 Time of meeting: 5:30pm - 6:30pm

Please summarize the questions/comments and your responses from the Neighborhood Meeting or emails/phone calls received in the spaces below (attach additional sheets, if necessary). Please state if/how the project has been modified in response to any concerns. The response should not be "Noted" or "No Response". There has to be documentation of what consideration the neighbor's concern was given and justification for why no change was deemed warranted.

Question/Concern #1:
Will the project be extending utilities?

Applicant's Response:
Yes, the POD 1 project will be extending utilities across the site.

Question/Concern #2:
What frontage improvements will be provided?

Applicant's Response:
The Pod 1 project will include all of the Town's required improvements on the Kelly Road frontage and will dedicate right of way for a future roundabout.

Question/Concern #3:
What is the anticipated hearing schedule?

Applicant's Response:
The project is tracking for hearings in May.

Question/Concern #4:

Applicant's Response:

AFFIDAVIT OF CONDUCTING A NEIGHBORHOOD MEETING, SIGN-IN SHEET AND ISSUES/RESPONSES SUBMITTAL

This document is a public record under the North Carolina Public Records Act and may be published on the Town's website or disclosed to third parties.

I, Collier R. Marsh, do hereby declare as follows:
Print Name

1. I have conducted a Neighborhood Meeting for the proposed Rezoning, Major Site Plan, Minor Site Plan, Residential Master Subdivision Plan, or Special Use Permit in accordance with UDO Sec. 2.2.7.B *Neighborhood Meeting*.

2. The meeting invitations were mailed to the Apex Planning Department, all property owners and tenants abutting and within 300 feet of the subject property and any neighborhood association that represents citizens in the notification area via first class mail a minimum of 14 days in advance of the Neighborhood Meeting.

3. The meeting was conducted at virtually via Zoom (location/address) on 4/15/25 (date) from 5:30pm (start time) to 6:30pm (end time).

4. I have included the mailing list, meeting invitation, sign-in sheet, issue/response summary, and zoning map/reduced plans with the application.

5. I have prepared these materials in good faith and to the best of my ability.

4/23/25
Date

By: Collier R. Marsh

STATE OF NORTH CAROLINA
COUNTY OF WAKE

Sworn and subscribed before me, Amy W. Stephenson, a Notary Public for the above State and County, on this the 23rd day of April, 2025.

RE: West Village PUD Amendment for 2517 Kelly Road; PIN 0731434504; West Village PUD POD 1 (the "Property")

To Whom It May Concern,

This letter is to inform you of a proposed PUD Amendment to rezone the Property from Planned Unit Development Conditional Zoning (PUD-CZ) to PUD-CZ with amended conditions to allow an approximately 40,000 square foot non-residential development (the "Project").

In 2016, the Property was rezoned to PUD-CZ as part of the overall West Village PUD development (Rezoning 15CZ33, the "2016 PUD") and in 2020, the PUD was amended (Rezoning 20CZ05) to modify buffers and other design standards (collectively, the "West Village PUD"). The West Village PUD permits up to 380 residential units and up to 500,000 square feet of non-residential uses across 163.34 acres as shown on the West Village PUD Preliminary Layout and Phasing Plan dated May 1, 2020 (the "Layout Plan"). Since 2016, several residential phases have been developed, but the non-residential phases have not developed.

The West Village PUD includes significant road improvements for residential and non-residential development. Though it specifies phasing for certain road improvements in the residential district, it lacks phasing for transportation infrastructure improvements in the commercial district and all road improvements are required prior to issuance of the first certificate of occupancy for a commercial building. Accordingly, as currently written, the PUD would require the Project - a relatively small 40,000 sf non-residential development - to construct additional through lanes, on ramps, and traffic signals that were required for 500,000 sf of non-residential uses approved in the West Village PUD.

To remedy this oversight, the developer completed an updated Traffic Impact Analysis ("TIA") which recommends road improvements based on the anticipated traffic impacts of the Project. This PUD Amendment proposes technical revisions to West Village PUD Section 13: Public Facilities, as set forth in the attached **Exhibit A**, to incorporate the updated TIA recommendations. Road improvements that were commitments of the original West Village PUD remain, but will be completed by subsequent non-residential phases.

A corresponding PUD-CZ rezoning application has been filed in the Town's development portal.

Sincerely,

Matthew Carpenter

Exhibit A
to
West Village PUD Amendment Letter
Revisions to West Village PUD

Section 13: Public Facilities

The proposed PUD shall meet all Public Facilities requirements as set forth in UDO Section 2.3.4(F) (1) (f) and be designed according to sound engineering standards. Specifically, road and utility infrastructure shall be as follows:

- **General Roadway Infrastructure:**
  All proposed roadway infrastructure will be consistent with the Town of Apex UDO and Transportation Plan, and the Traffic Impact Analysis approvedby the Town of Apex and NCDOT. An internal road network will be provided in accordance with the Town's UDO. All road networks will promote connectivity wherever possible to adjacent neighborhoods, undeveloped property, nearby points of interest, and municipal destinations. Further, cul-de-sacs will be avoided except where environmental features make through streets unfeasible.

Roadway Phasing – Prior to time of the fifty-first certificate of occupancy associated with the residential located off of Old US HWY 1, the second point of access (southernmost portion of Street A), necessary portion of the southernmost roundabout and Street B shown shall be constructed. As a part of the non-residential development in Pod 3, the roundabout proposed on Kelly Road shall be constructed along with the portion of Street A tying back to the southernmost roundabout. Prior to time of the first certificate of occupancy associated with POD 3, as part of the development of POD 3, Street A will be complete the connection from KellyRoad and Old US HWY 1.

- **Off-Site Transportation Conditions:**
  The project will also provide the following off-site transportation conditions:

All recommendations on state-maintained roadways are subject to NCDOT review and approval as part of the driveway permits and encroachment agreements. Build 2018 refers to the first plat of residential development. Build 2030 refers to the first plat of commercial development for POD 2 or POD 3 and does not include the development of POD 1, also identified as Build 2028, which is subject to separate recommendations set forth below. Please note that prior analysis and the original basis for build-out recommendations was based on a Build 2020 analysis. Internal Protected Storage Length (IPS) refers to the required minimum distance from the intersection along the proposed driveway or street before any full movement commercial driveway access or public street intersection will be allowed.

Developer shall provide right-of-way dedication along Kelly Road and Old US 1 based on a 100-foot right-of-way. Where Old US 1 abuts railroad right-of-way the developer shall be responsible for dedicating public right-of-way 70 feet from roadway centerline along the project frontage or as otherwise required to accommodate a 100-foot road right-of-way exclusive of railroad right-of-way.

Street 'A' and Street 'B' (including Kelly Road at Site Drive #4)

- Street 'A' shall be constructed as a 3-lane 38-foot curb and gutter street with 5-foot sidewalk on both sides on 62-foot public right-of-way.
- Street 'B' shall be constructed as a 2-lane 39'-foot curb and gutter street with on-street parking and 6-foot sidewalk on both sides on 53-foot public right-of-way.
- Residential driveway access shall not be permitted along Streets 'A' and 'B'.
- Prior to platting the 51st residential unit in the Residential area located adjacent to Old US 1, developer shall construct and dedicate as public Street 'A' from Site Drive #5 to the roundabout at Street 'B', roundabout serving Street 'A' at Street 'B', and Street 'B' from Site Drive #6/Pleasant Plains Road to the roundabout at Street 'A'.
- Prior to the first certificate of occupancy within POD 3, developer shall construct and dedicate as public Street 'A' from the roundabout at Street 'B' to Kelly Road at Site Drive #4 and construct a roundabout on Kelly Road at Site Drive #4. The roundabout will serve a 4-lane divided roadway to the north and 2-lane roadway to the south.
    - POD 1: *Kelly Road Roundabout*. Developer shall prepare a preliminary design and engineer's estimate for review and approval and dedicate right of way and construction easements for the future construction of a roundabout at the intersection of the site driveway, Kelly Road, and Street A as shown on the Town of Apex Thoroughfare and Collector Street Plan (the "Roundabout"). Prior to site plan final plat for POD 1, Developer shall pay a fee in lieu for eight percent (8%) of the estimated costs to design and construct the Roundabout.

Kelly Road at Olive Chapel Road

- Developer shall construct a 200-foot eastbound right turn lane and a 300-foot additional westbound left turn lane on Olive Chapel Road (with southbound receiving through lane on Kelly Road) for Build 2030.
- POD 1: Developer shall provide a preliminary plan and engineer's estimate for review and approval and pay a fee in lieu in the amount of 8% of the total estimated cost of the aforementioned improvements prior to site plan final plat in POD 1.

Kelly Road at Apex Barbecue Road

- Improvements have been completed by others satisfying the prior zoning requirements for a Build 2020 analysis including the following: construction of a 400-foot eastbound left turn lane, 350-foot westbound left turn lane, 350-foot northbound left turn lane, 150-foot northboundright turn lane, 350-foot southbound left turn lane, and 200-foot southbound right turn lane. No additional improvements are recommended for updated commercial build dates, Build 2028 (POD 1) and Build 2030 (PODS 2 & 3).

Kelly Road at Southwinds Run

Developer shall construct a 100-foot northbound left turn lane on Kelly Road, an additional (second) northbound through lane through the intersection to drop as aright turn at Site Drive #1, and begin an additional (second) southbound through lane immediately south of Southwinds Run for Build 2030.

Old US 1 at Kelly Road

- Developer shall construct a 100-foot westbound right turn lane on Old US 1 for Build 2018.
- Developer shall convert the intersection to right-in/right-out as well as construct an additional westbound through lane, beginning at the NC 540 Southbound off-ramp as a free-flow right turn exiting the ramp, along with a 200-foot westbound right turn lane on Old US 1 for Build 2030.

NC 540 Ramps at Old US 1

- Developer shall provide a free-flow right turn lane for the NC 540 Southbound off-ramp and additional receiving through lane continuing west to drop as a right turn at Site Drive #6 on Old US 1 for Build 2030.

Old US 1 at Pleasant Plains Road & Site Drive #6

- Developer shall construct Site Drive #6 with a through-right lane and a 200-foot left turn lane for Build 2018.
- Developer shall construct a 200-foot eastbound left turn lane and 200-foot westbound left turn lane on Old US 1 for Build 2018.
- Developer shall construct an additional westbound through lane on Old US 1 to drop as a right turn lane at Site Drive #6 for Build 2030.
- Developer shall construct an additional eastbound through lane on Old US 1 beginning 400 feet west of Site Drive #6 for Build 2030.

Kelly Road at Site Drive #1

- Developer shall construct Site Drive #1 as a right-in and right-out only providing 100 feet IPS and a 100-foot northbound right turn lane on Kelly Road for Build 2018.

- Developer shall construct an additional northbound through lane on Kelly Road to drop as a right turn lane at Site Drive #1 for Build 2030.

Kelly Road at Site Drive #2

- Developer shall construct Site Drive #2 as a right-in and right-out only providing 100 feet IPS for Build 2018.
- Developer shall construct an additional northbound through lane and an additional southbound through lane on Kelly Road at Site Drive #2 for Build 2030.

Kelly Road at Site Drive #3

- Developer shall construct Site Drive #3 with a 100-foot eastbound right turn lane and a 100-foot westbound right turn lane on the Site Drive #3 approaches adjacent to through-right lanes with 200 feet IPS for Build 2018.
- Developer shall construct 100-foot northbound and 100-foot southbound left turn lanes on Kelly Road for Build 2018.
- Developer shall construct an additional (second) southbound through lane and additional (second) northbound through lane on Kelly Road at Site Drive #3 for Build 2030.

Old US 1 at Site Drive #5

- Developer shall convert Site Drive #5 from a right-in/right-out to a signalized full-movement intersection with 200-foot dual southbound left turn lanes and a 200-foot southbound right turn lane providing 300 feet IPS providing connectivity to both the residential and commercial phases for Build 2030.
- Developer shall construct an additional (second) westbound through lane and add a 200-foot westbound right turn lane on Old US 1 for Build 2030.
- Developer shall construct a 300-foot eastbound left turn lane and an additional (second) eastbound through lane on Old US 1 dropping 1000 feet east of the intersection for Build 2030.

Construction of the preceding roadway infrastructure improvements shall not be required for the development of POD 1. Fee in lieu payments and additional right of way dedication where required for POD 1 are noted in the above sections where applicable. Development of POD 1 shall include the below roadway infrastructure improvements which shall be consistent with the Traffic Impact Analysis on file with the Town of Apex prepared by DRMP dated 1/30/2025 and the Town of Apex Transportation Plan. The road improvements shall be subject to Town of Apex and North Carolina Department of Transportation approval.

- *Kelly Road Widening*. Developer shall dedicate right of way for the length of the property's Kelly Road frontage, measured a minimum of 55 feet from the existing centerline of Kelly Road, and widen and improve Kelly Road for the length of the property's Kelly Road frontage based on an 84-foot back-to-back

curb and gutter 4-lane divided roadway with 5-foot sidewalks and 6-foot bike lanes in a 110-foot right of way.

- *Kelly Road and Site Driveway*. Developer shall construct:
    - the Site Driveway with a stop-controlled approach, one ingress lane, and one egress lane; and
    - a southbound left turn lane on Kelly Road with a minimum of 75 feet of storage.

- **Electric Charging Stations:**
  Developer shall provide 2 charging stations, one within the residential and one within the non-residential for electric vehicles within the overall project. In addition to these committed stations, two additional charging stations will be installed as part of the overall project.

- **Water & Sewer Utilities:**
  All **water and sanitary sewer** service will be provided by the developer and conform to the Town of Apex Public Works and Utilities Department requirements. Preliminary location and tie in points are shown on sheet C-3 and C-4 of the PUD plans. The water extension shown along Kelly Road to Old US HWY 1, alternatively, could be located through Pod – 3 Commercial and southernmost residential accomplishing the intent of the routing shown on sheet C-3 and C-4. The ultimate routing will be dictated by timing of commercial development, roadway construction internal to the site and timing commitment related to the extension. However, this will be coordinated with the Town of Apex at time of site plan and construction documents.

  Developer to provide $75,000 in escrow for use by the Westwinds community for insurance associated with community wells, for use in drilling new wells or to extend public water into the community as a primary or secondary water source. Ultimately, the well-related use of the funds will be determined by the Westwinds community. Land owners will be required to annex into the Town of Apex prior to making any connections to public water services provided by the Town.

- **Other Utilities:**
  Electricity will be provided by Apex Electric. Phone, cable and gas will be provided by the developer and shall meet the Town of Apex standards as outlined in the UDO.

PHASING NOTES

1. THE PROPERTY WILL BE DEVELOPED IN UP TO 10 PHASES. THE TIMING AND AMOUNT OF PHASES WILL BE DEFINED AT THE TIME OF SITE PLAN REVIEW.

2. ACCESS POINTS ARE PRELIMINARY IN NATURE AND SUBJECT TO TOWN OF APEX AND NCDOT REVIEW AT TIME OF SITE PLAN REVIEW.

3. LIMITS OF LAND DISTURBANCE WITHIN EACH PHASE TO BE FINALIZED AT SITE PLAN PHASE.

4. PUBLIC UTILITIES SHALL BE PROVIDED FOR EACH PHASE.

5. ROADWAY PHASING – PRIOR TO TIME OF THE FIFTY–FIRST PLATTED LOT ASSOCIATED WITH THE RESIDENTIAL LOCATED OFF OF OLD US HWY 1, THE SECOND POINT OF ACCESS (SOUTHERNMOST PORTION OF STREET 'A'), NECESSARY PORTION OF THE SOUTHERNMOST ROUNDABOUT AND STREET 'B' SHOWN SHALL BE CONSTRUCTED. AS A PART OF THE NON–RESIDENTIAL DEVELOPMENT IN POD 3, THE ROUNDABOUT PROPOSED ON KELLY ROAD SHALL BE CONSTRUCTED ALONG WITH THE PORTION OF STREET 'A' TYING BACK TO THE SOUTHERNMOST ROUNDABOUT. PRIOR TO TIME OF THE FIRST CERTIFICATE OF OCCUPANCY FOR ANY COMMERCIAL WITHIN POD 3, STREET 'A' WILL BE FULLY CONSTRUCTED, CONNECTING KELLY ROAD TO OLD US HWY 1.

SITE NOTES

1. REFER TO PUD DOCUMENT FOR A COMPLETE LIST OF ALLOWABLE USES FOR EACH TRACT OR DEVELOPMENT AREA.

2. NO SITE DEVELOPMENT ACTIVITY INCLUDING BUT NOT LIMITED TO TESTING, CLEARING, INSTALLATION OF S&E MEASURES, OR GRADING, SHALL OCCUR UNTIL REQUIRED PROTECTION FENCING HAS BEEN INSTALLED AND INSPECTED. A PROTECTION FENCING INSTALLATION PERMIT MAY BE OBTAINED AT THE PLANNING DEPARTMENT OR BY CALLING 919–249–3426.

3. PROTECTION FENCING MUST BE PLACED AWAY FROM ANY SAVED TREE ONE FOOT FOR EACH INCH OF TREE CALIPER. PROTECTION FENCING MUST BE PLACED AT LEAST 10 FEET AWAY FROM ANY OTHER DESIGNATED RESOURCE CONSERVATION AREA, SUCH AS, BUT NOT LIMITED TO, HISTORIC BUILDINGS AND STRUCTURES, WETLANDS, AND PONDS. PROTECTION FENCING MUST BE PLACED ALONG THE OUTSIDE LINE OF THE 100–YEAR FLOODPLAIN, AND THE OUTSIDE EDGE OF ANY RIPARIAN BUFFER. ADDITIONAL PROTECTION FENCING MAY BE REQUIRED IN OTHER LOCATIONS CLOSE TO CONSTRUCTION ACTIVITY WHERE IT IS DEEMED NECESSARY BY THE ZONING ENFORCEMENT OFFICER; SUCH AREAS MAY INCLUDE BUT ARE NOT LIMITED TO, COMMON PROPERTY LINES OR NEAR PUBLIC AREAS (SIDEWALKS, ETC).

4. ALL GRADING AND SUPPORT STRUCTURES ASSOCIATED WITH ANY RETAINING STRUCTURE SHALL NOT ENCROACH INTO ANY REQUIRED BUFFER OR PROTECTED AREA (SUCH AS, BUT NOT LIMITED TO, RCA AND CRITICAL ROOT ZONES OF TREES, PUBLIC UTILITY EASEMENTS, AND RIGHTS–OF–WAY), AND SHALL BE CONTAINED ENTIRELY ON SITE.

5. SITE ELEMENTS REQUIRED TO SATISFY RECREATIONAL REQUIREMENTS SUCH AS, BUT NOT LIMITED TO, PLAY FIELDS AND GREENWAY TRAILS AND ITEMS TYPICALLY ASSOCIATED WITH THEM (BENCHES, TRASH CONTAINERS, SIGNS, ETC.) MUST MEET ANY APPLICABLE STANDARDS FOUND IN THE TOWN OF APEX STANDARD SPECIFICATIONS AND CONSTRUCTION DETAILS AND THE REQUIREMENTS OF THE TOWN OF APEX PARKS AND RECREATION DEPARTMENT.

6. THE SCREENING OF TRASH CONTAINERS (INCLUDING DUMPSTERS AND ROLL–OUT CARTS), OUTDOOR STORAGE, MECHANICAL AND HVAC EQUIPMENT, AND SIMILAR FACILITIES ON THE ROOF, ON THE GROUND, OR ON BUILDINGS SHALL MEET THE REQUIREMENTS FOUND IN SECTION 8.2.8 OF THE UNIFIED DEVELOPMENT ORDINANCE; SPECIFICALLY SCREENING MUST BE DONE SO THAT:

A. IT IS INCORPORATED INTO THE OVERALL DESIGN THEME OF THE BUILDING AND LANDSCAPE.

B. SCREENING MATERIALS ARE NOT DIFFERENT FROM OR INFERIOR TO THE PRINCIPAL MATERIALS OF THE BUILDING OR LANDSCAPE, AND ARE SIMILAR IN MATERIALS AND COLOR.

C. SCREENED ITEMS ARE OUT OF VIEW FROM ADJACENT PROPERTIES AND PUBLIC STREETS, AND A TOTALLY OPAQUE SCREEN IS ACHIEVED.

D. ANY GROUND–MOUNTED HVAC OR OTHER MECHANICAL OR UTILITY EQUIPMENT SIX–FEET TALL OR HIGHER MUST BE FENCED AND LANDSCAPED.

E. DUMPSTER ENCLOSURES MUST MEET THE ABOVE REQUIREMENTS PLUS THEY MUST BE AT LEAST EIGHT–FEET TALL OR THE HEIGHT OF THE DUMPSTER, WHICHEVER IS TALLER; AND BE BUILT OF MASONRY MATERIAL.

7. ALL REQUIRED SITE ELEMENTS SHOWN WITHIN A PARTICULAR PHASE MUST BE INSTALLED BEFORE A FINAL CERTIFICATE OF OCCUPANCY MAY BE ISSUED FOR ANY BUILDING WITHIN THAT PHASE.

8. SITE ITEMS SUCH AS BUT NOT LIMITED TO, LIGHTING, LANDSCAPING (INCLUDING MULCH), SCREENING (i.e.: DUMPSTERS/TRASH, MECHANICAL/HVAC, ETC.), SITE STABILIZATION (SEEDING), AND PARKING AND PAVEMENT MARKING MUST BE COMPLETED PRIOR TO SCHEDULING A FINAL SITE INSPECTION.

9. NO SIGNS ARE APPROVED AS PART OF THE PUD–CZ PLAN APPROVAL. A SEPARATE SIGN PERMIT MUST BE OBTAINED. SIGNAGE WILL COMPLY WITH APEX'S UDO.

10. EXACT ACCESS AND STUB LOCATIONS TO BE FINALIZED AT SUBDIVISION PLAN PHASE.

11. EXACT LOCATION OF RESOURCE CONSERVATION AREA TO BE FINALIZED AT SUBDIVISION PLAN PHASE.

12. INTERNAL STREETS SHALL BE DEDICATED TO THE TOWN OF APEX. ROAD STUB–OUTS SHALL BE PROVIDED PER TOWN OF APEX REQUIREMENTS.

13. EXISTING PONDS #1 & 2 MAY BE DRAINED AT A LATER DATE IN ACCORDANCE WITH ALL STATE AND LOCAL REGULATIONS.

14. THERE WILL BE NO RESIDENTIAL DRIVEWAYS ON STREETS 'A' AND 'B'.

15. ALL PARKING STANDARDS WITHIN THE PUD WILL COMPLY WITH SECTION 8.3, PARKING AND LOADING, OF THE TOWN OF APEX'S UDO (EFFECTIVE DATE DECEMBER 15, 2015).

Subject: Phasing Study for Off-Site Improvements
West Village Development - Apex

Dear Mr. Hassan:

This letter provides a summary of the phasing study prepared for the initial phase of commercial development in the West Village PUD to determine off-site transportation improvements required for this phase of development. A Traffic Impact Analysis (TIA) was prepared in 2015 for the overall development as part of the PUD approval. This TIA was reviewed by the Town and NCDOT and required transportation improvements were identified in the conditions of approval at the Town (see attached). The improvements were not phased for the commercial portion of the PUD; therefore, this phasing study is requesting the improvements be phased.

Initial Commercial Phase

The initial phase of commercial development is proposed along the east side of Kelly Road and would include a day care (~ 12,130 s.f. building) and a two-story building with office / retail space (~ 29,000 s.f. total). The day care building would be completed initially, and the mixed-use building would be completed afterwards. This development is the first phase of the commercial portion of the West Village PUD. The subject property is approximately 8% of the overall West Village development.

Access would be provided via one new full movement driveway on Kelly Road and a connection to the north to Fahey Drive. The new full movement driveway is ultimately planned for a roundabout, but the roundabout would not be constructed with the initial phase of development. The connection to Fahey Drive would provide an indirect second access to Kelly Road via Leo Drive.

Scope of Study

The phasing study scope is based on the MOU submitted and approved by the Town. A copy of the approved MOU (dated October 30, 2024) is attached.

The study area includes intersections from the original TIA and PUD that have required improvements that are not constructed and that would be relevant to this phase. The study intersections include:

- Olive Chapel Road & Kelly Road (signalized)
- Apex Barbeque Road & Kelly Road (signalized)
- Leo Drive and Kelly Road (unsignalized)
- Kelly Road and Proposed Site Driveway (Site Driveway #4 in TIA)
- Old US 1 and Kelly Road

Traffic Volumes

Existing peak hour traffic volumes are based on traffic counts collected at the existing study intersections above during the weekday AM (7:00 AM – 9:00 AM) and PM (4:00 PM – 6:00 PM) peak periods in November 2024. Count data is attached. Existing 2024 lanes and peak hour traffic volumes are shown in the attached figures.

No-Build Traffic Volumes

No-build traffic volumes were calculated by growing the existing peak hour traffic volumes to the future years using an annual growth rate of 4%.

In addition to annual traffic growth, the following adjacent development trips were added to the future year traffic volumes:

- Depot 499
- Townes at Pleasant Park (fka Sears Property)
- Friendship Village
- Holland Road Assembly

Adjacent development trips were taken from the TIA reports prepared for each development. Some homes within the Depot 499 development were occupied and the trips captured in the traffic counts; however, to be conservative, no reduction in the adjacent development trips was made in this study. Residential trips for the Depot 499 development were included as adjacent development for future 2028 conditions, while full build out trips were included in future 2030 conditions.

Adjacent development information is provided in the attachments. Refer to the attached figures for the projected (2028 and 2030) peak hour traffic volumes, adjacent development trips, and no-build (2028 and 2030) peak hour traffic volumes.

Site Trip Generation

Average weekday daily, AM peak hour, and PM peak hour trips for the initial commercial development phase were estimated using methodology contained within the ITE *Trip Generation Manual*, 11th Edition. Table 1 provides a summary of the trip generation potential for this phase of development.

Table 1: Trip Generation Summary – Initial Commercial Phase

Land Use (ITE Code)	Intensity	Daily Traffic (vpd)	Weekday AM Peak Hour Trips (vph)			Weekday PM Peak Hour Trips (vph)		
			Enter	Exit	Total	Enter	Exit	Total
Day Care (565)	12,130 SF	576	71	62	133	63	72	135
General Office (710)	14,400 SF	215	28	4	32	6	27	33
Retail Shopping Center (822)	14,400 SF	837	22	15	37	50	51	101
Total Trips		**1,628**	**121**	**81**	**202**	**119**	**150**	**269**
Internal Capture Trips AM (4% Enter, 10% Exit) PM (3% Enter, 2% Exit)		--	*-2*	*-2*	*-4*	*-2*	*-2*	*-4*
Pass-By Trips (Retail - 31% AM, 40% PM)		--	*-6*	*-5*	*-11*	*-20*	*-20*	*-40*
Primary (New) Trips		**1,628**	**113**	**74**	**187**	**97**	**128**	**225**

Internal capture trips were determined based on the NCHRP Report 684. As shown, a relatively low number of internal capture trips are expected within the initial commercial phase. Pass-by trips were calculated for the retail space using the ITE *Trip Generation Manual*.

Refer to Table 2, on the following page, for a summary of the full build out trip generation from the original TIA. The trip generation for full build out includes assumptions for the phase 1 commercial area as well as trips from some residential development that is already completed.

Table 2: Trip Generation Summary – Full Build (from Original TIA)

Description	Weekday 24-Hour Volumes	Weekday AM Peak Hour Trips (vph)		Weekday PM Peak Hour Trips (vph)	
		Enter	Exit	Enter	Exit
East of Kelly Road	2,498	176	154	163	163
West of Kelly Road	31,192	1,087	723	1,237	1,434
Fast Food Outparcel	2,481	116	111	85	78
Total Site Trips	**36,171**	**1,379**	**988**	**1,485**	**1,675**
East of Kelly Road	*214*	-	-	*2*	*2*
West of Kelly Road	*10,956*	*82*	*82*	*79*	*79*
Fast Food Outparcel	*1,240*	*18*	*18*	*4*	*4*
Pass-By Trips	***12,410***	***100***	***100***	***85***	***85***
Total Primary (New) Trips	**23,761**	**1,279**	**888**	**1,400**	**1,590**

As shown in Tables 1-2, the initial commercial phase is expected to generate approximately 8% of the total full build out trips analyzed in the TIA.

Site Trip Distribution and Assignment

Site trips are distributed based on the regional trip distribution from the original TIA report and modified as appropriate near the site driveway. Refer to the attached site trip distribution and assignment figures. Although there is interconnectivity to the north, this traffic study assigns all development trips to the new site access to be conservative.

Capacity Analysis

Study intersections were analyzed during the weekday AM and PM peak hours for the following traffic scenarios:

- Existing 2024 Conditions
- No-Build 2028 (Phase 1 Build Year) Conditions
- Build 2028 Phase 1 Conditions
- No-Build 2030 (Full Build Year) Conditions
- Build 2030 (Full Build Out) Conditions with All Required Improvements

Capacity analyses were performed utilizing Synchro (Version 11). Synchro reports and intersection results summary tables are attached. Tables 3 –7, attached, provide the intersection capacity analysis results for the study intersections.

This study assumes the initial commercial development (Phase 1) would be completed by 2028. Although a schedule is unknown for the remaining commercial development within the PUD, this study assumes a full build out year of 2030. Additional intersections beyond the study intersections are included in the Synchro analysis models for reference, but results are not provided for these locations in this study.

Future conditions analyses consider trips generated by numerous adjacent developments, several of which consist of residential uses. When trips for commercial and residential developments are added to each other, there is some double-counting of trips that can overestimate traffic volumes. Trips between residential and commercial uses are complementary and would not be added separately to the roadway network. While this study considers all trips as new added traffic, it should be noted that this is not expected to be the case.

Furthermore, the traffic growth projected for Kelly Road and reflected in this study is not likely to occur if conditions along the corridor are congested. There are alternative north-south routes to Kelly Road that can be utilized if/when congestion occurs on Kelly Road. Future traffic volumes and the following analysis results are therefore considered conservative.

Kelly Road and Olive Chapel Road

Analysis indicates that Phase 1 site trips are expected to have minimal impact on intersection operations. Overall intersection delay is expected to increase by approximately two seconds or less, when compared to 2028 no-build conditions, and queue lengths are expected to increase by no more than one vehicle length for any movement. No improvements are recommended for Phase 1.

2030 build conditions were analyzed with the required intersection improvements consisting of the following:

- Provide dual westbound left turn lanes.
- Provide an exclusive eastbound right turn lane.
- Signal phasing and timing adjustments to accommodate new lanes.

With the improvements above, the intersection is expected to operate at an overall LOS E during the AM peak hour and LOS F during the PM peak hour. Overall intersection delay is expected to be less than under 2030 no-build conditions.

Kelly Road and Apex Barbecue Road

This intersection was analyzed with existing lanes and traffic control. All improvements previously required of the development have been recently constructed by others.

Analysis indicates that Phase 1 site trips are expected to have minimal impact on intersection operations. Under 2028 build conditions, the intersection is expected to operate at an overall LOS C during the AM peak hour and LOS D during the PM peak hour.

Future 2030 conditions analyses indicate the potential for significant congestion on the Kelly Road approaches. As discussed previously, however, this analysis does not take into consideration complementary trips between developments and the likelihood that some traffic would choose an alternative route to avoid congestion.

Kelly Road and Leo Drive

The minor-street approaches of Leo Drive and the major-street left turn movements on Kelly Road are expected to operate at LOS C or better under future 2028 conditions. Phase 1 site trips are not expected to have a noticeable impact on intersection operations, and no improvements are recommended.

2030 Build conditions were analyzed with Kelly Road as a four-lane divided roadway. Analysis indicates the Leo Drive approaches may experience longer delays, particularly in the PM; however, queues are projected to be short (one or two vehicles).

Kelly Road and Old US 1

The southbound approach of Kelly Road currently operates at LOS F and is expected to continue to do so under future 2028 conditions. The addition of Phase 1 site trips is projected to increase queue lengths on the Kelly Road approach by approximately 105 feet (about four vehicles) in the AM peak hour and 152 feet (about six vehicles) in the PM peak hour.

A traffic signal was considered to reduce delays on Kelly Road. Due to the proximity of this intersection to the NC 540 interchange, NCDOT is not expected to allow signalization of the intersection. Extension of the existing southbound right turn lane was also considered. Southbound left turn movement queues are longer than the right turn movement queues, however, and a 100-150 foot extension of the right turn lane may provide limited benefit.

Under 2030 build conditions, the intersection was analyzed as a right-in/right-out (RIRO) and Old US 1 was analyzed with two eastbound and westbound through lanes. The southbound approach of Kelly Road is expected to operate at LOS D in the AM peak hour and LOS F in the PM peak hour as a RIRO. If delay and queues are long on Kelly Road, it is likely traffic will divert to alternative routes. The RIRO configuration at the intersection is not recommended until future development occurs within the West Village PUD to provide an alternate connection for Kelly Road to Old US 1 with a traffic signal that has more separation from the NC 540 interchange.

Kelly Road and Site Driveway

The site driveway and major-street left turn movement on Kelly Road are projected to operate at LOS C or better under 2028 no-build conditions.

Auxiliary turn lanes were considered based on the NCDOT *Policy on Street and Driveway Access to North Carolina Highways.* An exclusive southbound left turn lane is warranted on Kelly Road with a minimum of 75 feet of storage. A short right turn lane on Kelly Road is marginally warranted; however, it is not recommended due to future plans to install a roundabout at this intersection.

Analysis of 2030 build conditions with the roundabout project overall LOS B conditions in the AM peak hour and LOS F in the PM. The eastbound approach is expected to operate at LOS F in the PM. Provision of a slip lane on this approach may improve operations in the future and can be considered at the time the roundabout is constructed.

Summary

This phasing study was prepared to identify improvements that would be necessary for the initial phase of commercial development within the West Village PUD. The original West Village PUD included transportation improvements that were assigned to the commercial phase of development; however, the PUD considered the improvements and all commercial development would occur at the same time. The initial phase of commercial development includes limited uses and accounts for only approximately 8% of the West Village PUD.

Based on the analysis results of Build (2028) Phase 1 traffic, the initial commercial development will not have a significant impact on the study area intersections. Improvements were recently constructed at the Apex Barbeque Road/Kelly Road intersection.

Although the Kelly Road approach at Old US 1 operates at LOS F and is expected to continue to operate with long delays during peak times, the initial phase of commercial development is not expected to have a negative impact on the intersection. Queues and delays on Kelly Road are expected to increase slightly with the initial phase. Traffic signals to the east and west of the intersection at NC 540 and at Pleasant Plains Road will create some gaps in through traffic on Old US 1. A traffic signal was considered for the intersection; however, it is not expected to be approved due to the spacing with the NC 540 interchange ramp intersection. The intersection will be restricted to right-in/right-out movements in the future with commercial development in West Village that will provide a roadway connection between existing Kelly Road and Old US 1 that provides increased spacing with the NC 540 interchange. It is not recommended to restrict the Kelly Road intersection until the additional roadway infrastructure can be constructed.

Roadway improvements are required to be constructed in the future as the West Village commercial development occurs. Many improvements are required when network connections are made within the commercial development area.

Future traffic projections in this phasing study should be considered conservative (high). This study includes traffic projections for several adjacent developments in addition to a 4% annual growth rate. Adjacent development trips are expected to interact with each other instead of being added to each other, which would result in less traffic growth. In addition, alternate routes are available for traffic on Kelly Road as well as Old US 1 if congestion increases.

Roadway Improvements Required of Phase 1

Kelly Road and Site Driveway

- Construct the site driveway as a stop-controlled approach with one ingress lane and one egress lane (striped as a shared left-right turn lane).
- Construct a left turn lane with a minimum of 75 feet of storage on the southbound approach of Kelly Road.
- Provide right-of-way necessary for the future construction of a roundabout at the intersection.

If you should have any questions or comments regarding this letter, please feel free to contact me at rstephenson@drmp.com or by phone at 919-872-5115.

Sincerely,

1/30/25

Reference: West Village Commercial Development

Subject: Updated MOU for Traffic Phasing Study

Dear Mr. Hassan:

The following is an updated Memorandum of Understanding (MOU) outlining the proposed scope of work and assumptions related to the traffic phasing study to be prepared for the development of the initial phase of commercial development in the West Village PUD. This MOU is based on an initial virtual meeting on September 27th and incorporates comments received from the Town's initial review of the MOU. It is our understanding that a phasing study would be required to address impacts of the initial phase of the commercial development.

The initial phase of commercial development is proposed along the east side of Kelly Road and would include a day care (~ 12,130 s.f. building) and a two-story building with office / retail space (~ 29,000 s.f. total). The day care building would be completed initially, and the mixed-use building would be completed afterwards. This development is the first phase of the commercial portion of the West Village PUD. The property is approximately 8% of the overall West Village development.

Access would be provided via one new full movement driveway on Kelly Road and a connection to the north to Fahey Drive. The new full movement driveway is ultimately planned for a roundabout, but the roundabout would not be constructed with the initial phase of development. The connection to Fahey Drive would provide an indirect second access to Kelly Road via Leo Drive.

Study Area

Based on the call with City staff on September 27th and follow up coordination, it is our understanding the study area would need to include intersections from the original TIA and PUD that have required improvements that are not constructed and that would be relevant to this phase. The study intersections will include:

- Olive Chapel Road & Kelly Road (signalized)
- Apex Barbeque Road & Kelly Road (signalized)
- Leo Drive and Kelly Road (unsignalized)
- Kelly Road and Proposed Site Driveway (Site Driveay #4 in TIA)
- Old US 1 and Kelly Road

Other intersections NOT included in the phasing study scope include:

- Kelly Road and Eva Pearl Drive (Site Driveway #1) – already built
- Southwinds Run and Kelly Road – not relevant
- NC 540 Northbound ramps and Old US 1 – No improvements remain
- NC 540 Southbound ramps and Old US 1 – No improvements remain
- Old US 1 and Boyette Street (Site Driveway #5) – not relevant
- Old US 1 and Pleasant Plains Road / Site Driveway #6) – not relevent
- Old US 1 and Humie Olive Roak – not relevant

Existing Traffic Volumes

Current traffic counts would be required for the existing study intersections above during a typical weekday AM (7:00 AM – 9:00 AM) and PM (4:00 PM – 6:00 PM) peak periods, while schools are in session.

Background Traffic Volumes

Background traffic volumes will be determined by projecting 2024 existing traffic volumes to the year Phase 1 build year using an annual growth rate of 4% as required by the Town. The following adjacent developments are to be considered:

- Depot 499
- Townes at Pleasant Park (fka Sears Property)

- Friendship Village
- Holland Road Assembly

Future Roadway Improvements

It was discussed that other developments could be completing roadway improvements in the area. No other improvements are planned by the Town of Apex or NCDOT at the study intersections.

Trip Generation

Average weekday daily, AM peak hour, and PM peak hour trips for the initial phase of commercial development were estimated using methodology contained within the ITE *Trip Generation Manual*, 11th Edition. Refer to Table 1 for a summary of the trip generation for the initial commercial phase.

Table 1: Trip Generation Summary – Initial Commercial Phase

Land Use (ITE Code)	Intensity	Daily Traffic (vpd)	Weekday AM Peak Hour Trips (vph)			Weekday PM Peak Hour Trips (vph)		
			Enter	Exit	Total	Enter	Exit	Total
Day Care (565)	12,130 SF	576	71	62	133	63	72	135
General Office (710)	14,400 SF	215	28	4	32	6	27	33
Retail Shopping Center (822)	14,400 SF	837	22	15	37	50	51	101
Total Trips		**1,628**	**121**	**81**	**202**	**119**	**150**	**269**
Internal Capture Trips AM (4% Enter, 10% Exit) PM (3% Enter, 2% Exit)		--	*-2*	*-2*	*-4*	*-2*	*-2*	*-4*
Pass-By Trips (31% AM, 40% PM)		--	*-6*	*-5*	*-11*	*-20*	*-20*	*-40*
Primary (New) Trips		**1,628**	**113**	**74**	**187**	**97**	**128**	**225**

Internal capture trips were calculated based on the NCHRP 684 for the office and retail uses. The day care is not included in the internal capture calculations; however, it is likely that some day care trips will be internal capture. Refer to the attached NCHRP reports for the internal capture calculations.

In addition, pass-by trips for the retail space will be calculated using the ITE Trip Generation manual, which includes pass-by trip rates of 31% in the AM and 40% in the PM.

Trip Distribution and Assignment

Site trips are distributed based on the regional trip distribution from the original TIA report and modified as appropriate near the site driveway. Refer to the attached site trip distribution figure.

Although there is interconnectivity to the north, this traffic study assigns all development trips to the new site access to be conservative.

Analysis Scenarios

All capacity analyses will be performed utilizing Synchro (Version 11). All study intersections will be analyzed during the weekday AM and PM peak hours under the following proposed traffic scenarios:

- Existing 2024 Conditions
- No-Build 2028 (Phase 1 Build Year) Conditions
- Build 2028 Phase 1 Conditions
- Build 2028 Phase 1 Conditions With Necessary Required Improvements
- No-Build 2030 (Full Build Year) Conditions
- Build 2030 (Full Build Out) Conditions with All Required Improvements

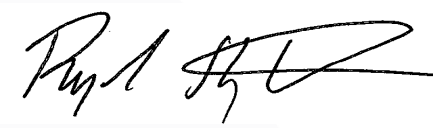
This study assumes the initial commercial development (Phase 1) would be completed by 2028. Although a schedule is unknown for the remaining commercial development within the PUD, this scope assumes a full build out year of 2030.

Report

The Traffic Phasing Study will be prepared based on Town and NCDOT requirements.

If you find this memorandum of understanding acceptable, please let me know. If you should have any questions or comments regarding this letter, please feel free to contact me at rstephenson@drmp.com or by phone at 919-872-5115.

Sincerely,



Rynal Stephenson, P.E.
Chief Traffic Analysis Engineer
DRMP, Inc.

[1]Land Use Codes (LUCs) from *Trip Generation Manual*, published by the Institute of Transportation Engineers.

[2]Total estimate for all other land uses at mixed-use development site is not subject to internal trip capture computations in this estimator.

[3]Enter trips assuming no transit or non-motorized trips (as assumed in ITE *Trip Generation Manual*).

[4]Enter vehicle occupancy assumed in Table 1-A vehicle trips. If vehicle occupancy changes for proposed mixed-use project, manual adjustments must be made to Tables 5-A, 9-A (O and D). Enter transit, non-motorized percentages that will result with proposed mixed-use project complete.

[5]Vehicle-trips computed using the mode split and vehicle occupancy values provided in Table 2-A.

[6]Person-Trips

*Indicates computation that has been rounded to the nearest whole number.

NOTES

1. Refer to "Roadway Standard Drawings NCDOT" dated January 2012 and "Standard Specifications for Roads and Structures" dated January 2012 and all applicable sections of the latest version of the generic Project Special Provisions. The PSP can be accessed at the following website: http://connect.ncdot.gov/resources/safety/Pages/ITS-Design-Resources.aspx
2. Do not program signal for late night flashing operation unless otherwise directed by the Engineer.
3. Phase 1 and/or phase 5 may be lagged.
4. Phase 3 and/or phase 7 may be lagged.
5. Reposition all existing signal heads as shown.
6. Set all detector units to presence mode.
7. Refer to the roadway design provided by Town of Apex for pavement markings.
8. Omit "WALK" and flashing "DON'T WALK" with no pedestrian calls.
9. Program pedestrian heads to countdown the flashing "Don't Walk" time only.
10. Pedestrian pedestals are conceptual and shown for reference only. See sheets P1-P3 for pushbutton location details.
11. This intersection features an optical preemption system. Shown location of optical detector are conceptual only.
12. Optical detector 10 calls EVP 3. Optical detector 20 calls EVP 5.

NOTES

1. Refer to "Roadway Standard Drawings NCDOT" dated January 2024, "Standard Specifications for Roads and Structures" dated January 2024, and all applicable sections of the latest version of the generic Project Special Provisions. The PSP can be accessed at the following website: https://connect.ncdot.gov/resources/safety/pages/its-and-signals.aspx
2. Do not program signal for late night flashing operation unless otherwise directed by the Engineer.
3. Phase 1 and/or 5 may be lagged.
4. Phase 3 and/or 7 may be lagged.
5. Reposition existing signal heads 31,41,42,71,81,82.
6. Set all detector units to presence mode.
7. Omit "WALK" and flashing "DON'T WALK" with no pedestrian calls.
8. Program pedestrian heads to countdown the flashing "Don't Walk" time only.
9. See pavement marking plans for stop bar and crosswalk locations.
10. The Division (Town) Traffic Engineer will determine the hours of use for each phasing plan.
11. Emergency Vehicle Preemption switch is located inside Public Safety Station 5.
12. Install new controller in existing cabinet.

ASSUME MOSTLY BUILT

1. Trip Generation for the townhomes north of Humie Olive Road were calculated separately. These trips were not included in the internal capture calculations.

44% of Total Built (AM)

29% of Total Built (PM)

It is estimated that Phase 2 of the proposed development will generate approximately 18,000 total site trips on the roadway network during a typical 24-hour weekday period. Of the daily traffic volume, it is anticipated that 871 total trips (382 entering and 489 exiting) will occur during the weekday AM peak hour and 1,710 (874 entering and 836 exiting) will occur during the weekday PM peak hour.

Internal capture of trips between the residential and retail uses were considered in this study. It is worth noting that the 99 townhomes north of Humie Olive Road were not included in the internal capture calculations due to their separation from the retail land uses. Based on ITE 9th

Pass-By Trips: Shopping Center (34% PM)			*0*	*0*	*-142*	*-142*
Total Primary Trips			**728**	**598**	**629**	**811**

It is estimated that the proposed development will generate approximately 26,330 total site trips on the roadway network during a typical 24-hour weekday period. Of the daily traffic volume, it is anticipated that 1,433 trips (783 entering and 650 exiting) will occur during the weekday AM peak hour and 2,206 (1,015 entering and 1,191 exiting) will occur during the weekday PM peak hour.

Internal capture of trips between the residential and retail uses was considered in this study. Internal capture is the consideration for trips that will be made within the site between different land uses, so the vehicle never leaves the internal site but can still be considered as a trip to that specific land use. Internal capture typically only considers trips between residential, office, and retail/restaurant land uses. Based on the NCHRP Internal Capture methodology, an AM peak hour internal capture rate of 7% entering and 8% exiting was applied to the total trips. Also, a PM peak hour internal capture rate of 24% entering and 20% exiting was applied to the total trips. The internal capture reductions are expected to account for 107 (55 entering

4. SITE TRIP GENERATION AND DISTRIBUTION

4.1. Trip Generation

The proposed development is assumed to consist of 160 townhomes and an 11,000 s.f. daycare center. Average weekday daily, AM peak hour, and PM peak hour trips for the proposed development were estimated using methodology contained within the ITE *Trip Generation Manual*, 10th Edition. Table 3 provides a summary of the trip generation potential for the site.

Table 3: Trip Generation Summary

Land Use (ITE Code)	Intensity	Daily Traffic (vpd)	Weekday AM Peak Hour Trips (vph)		Weekday PM Peak Hour Trips (vph)	
			Enter	Exit	Enter	Exit
Multifamily Housing (Low-Rise) (220)	160 units	1,170	17	58	57	33
Daycare Center (565)	11,000 s.f.	520	64	57	57	65
Total Trips		**1,690**	**81**	**115**	**114**	**98**

It is estimated that the proposed development will generate approximately 1,690 total site trips on the roadway network during a typical 24-hour weekday period. Of the daily traffic volume, it is anticipated that 196 trips (81 entering and 115 exiting) will occur during the weekday AM peak hour and 212 trips (114 entering and 98 exiting) will occur during the weekday PM peak hour. It should be noted that the proposed development is anticipated to be below the typical threshold for NCDOT to require a TIA (3,000 trips per day); however, a copy of the TIA will be provided to NCDOT for courtesy review.

4.2. Site Trip Distribution and Assignment

Trip distribution percentages used in assigning site traffic for this development were estimated based on a combination of existing traffic patterns, population centers adjacent to the study area, and engineering judgment.

It is estimated that the residential site trips will be regionally distributed as follows:

- 75% to/from the north via Old US Hwy 1

4. SITE TRIP GENERATION AND DISTRIBUTION

4.1. Trip Generation

The proposed development is assumed to consist of a maximum of 110 single-family homes, a 60,000 s.f. shopping center, two (2) 4,000 s.f. fast-food restaurants with drive-thru, an 8,500 s.f. quality restaurant, and a 10 f.p. gas station with convenience market. Average weekday daily, AM peak hour, and PM peak hour trips for the proposed development were estimated using methodology contained within the ITE *Trip Generation Manual*, 10th Edition. Table 3 provides a summary of the trip generation potential for the site.

Table 3: Trip Generation Summary

Land Use (ITE Code)	Intensity	Daily Traffic (vpd)	Weekday AM Peak Hour Trips (vph)		Weekday PM Peak Hour Trips (vph)

Intersection Summary

Area Type: Other
Cycle Length: 145
Actuated Cycle Length: 93.1
Natural Cycle: 90
Control Type: Actuated-Uncoordinated
Maximum v/c Ratio: 1.27
Intersection Signal Delay: 56.1 Intersection LOS: E
Intersection Capacity Utilization 80.2% ICU Level of Service D
Analysis Period (min) 15

~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.

95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.

Splits and Phases: 1: Kelly Road & Olive Chapel Road

Site Level of Service (LOS) Method: Delay & v/c (HCM 6). Site LOS Method is specified in the Parameter Settings dialog (Site tab).
Roundabout LOS Method: Same as Sign Control.
Vehicle movement LOS values are based on average delay and v/c ratio (degree of saturation) per movement.
LOS F will result if v/c > 1 irrespective of movement delay value (does not apply for approaches and intersection).
Intersection and Approach LOS values are based on average delay for all movements (v/c not used as specified in HCM 6).
Roundabout Capacity Model: US HCM 6.
Delay Model: HCM Delay Formula (Geometric Delay is not included).
Queue Model: HCM Queue Formula.
Gap-Acceptance Capacity: Traditional M1.
HV (%) values are calculated for All Movement Classes of All Heavy Vehicle Model Designation.

Site Level of Service (LOS) Method: Delay & v/c (HCM 6). Site LOS Method is specified in the Parameter Settings dialog (Site tab).
Roundabout LOS Method: Same as Sign Control.
Vehicle movement LOS values are based on average delay and v/c ratio (degree of saturation) per movement.
LOS F will result if v/c > 1 irrespective of movement delay value (does not apply for approaches and intersection).
Intersection and Approach LOS values are based on average delay for all movements (v/c not used as specified in HCM 6).
Roundabout Capacity Model: US HCM 6.
Delay Model: HCM Delay Formula (Geometric Delay is not included).
Queue Model: HCM Queue Formula.
Gap-Acceptance Capacity: Traditional M1.
HV (%) values are calculated for All Movement Classes of All Heavy Vehicle Model Designation.

PHASING NOTES

1. THE PROPERTY WILL BE DEVELOPED IN UP TO 10 PHASES. THE TIMING AND AMOUNT OF PHASES WILL BE DEFINED AT THE TIME OF SITE PLAN REVIEW.

2. ACCESS POINTS ARE PRELIMINARY IN NATURE AND SUBJECT TO TOWN OF APEX AND NCDOT REVIEW AT TIME OF SITE PLAN REVIEW.

3. LIMITS OF LAND DISTURBANCE WITHIN EACH PHASE TO BE FINALIZED AT SITE PLAN PHASE.

4. PUBLIC UTILITIES SHALL BE PROVIDED FOR EACH PHASE.

5. ROADWAY PHASING – PRIOR TO TIME OF THE FIFTY-FIRST PLATTED LOT ASSOCIATED WITH THE RESIDENTIAL LOCATED OFF OF OLD US HWY 1, THE SECOND POINT OF ACCESS (SOUTHERNMOST PORTION OF STREET 'A'), NECESSARY PORTION OF THE SOUTHERNMOST ROUNDABOUT AND STREET 'B' SHOWN SHALL BE CONSTRUCTED. AS A PART OF THE NON-RESIDENTIAL DEVELOPMENT IN POD 3, THE ROUNDABOUT PROPOSED ON KELLY ROAD SHALL BE CONSTRUCTED ALONG WITH THE PORTION OF STREET 'A' TYING BACK TO THE SOUTHERNMOST ROUNDABOUT. PRIOR TO TIME OF THE FIRST CERTIFICATE OF OCCUPANCY FOR ANY COMMERCIAL WITHIN POD 3, STREET 'A' WILL BE FULLY CONSTRUCTED, CONNECTING KELLY ROAD TO OLD US HWY 1.

SITE NOTES

1. REFER TO PUD DOCUMENT FOR A COMPLETE LIST OF ALLOWABLE USES FOR EACH TRACT OR DEVELOPMENT AREA.

2. NO SITE DEVELOPMENT ACTIVITY INCLUDING BUT NOT LIMITED TO TESTING, CLEARING, INSTALLATION OF SIMC MEASURES, OR GRADING, SHALL OCCUR UNTIL REQUIRED PROTECTION FENCING HAS BEEN INSTALLED AND INSPECTED. A PROTECTION FENCING INSTALLATION PERMIT MAY BE OBTAINED AT THE PLANNING DEPARTMENT OR BY CALLING 919-249-3426.

3. PROTECTION FENCING MUST BE PLACED AWAY FROM ANY SAVED TREE ONE FOOT FOR EACH INCH OF TREE CALIPER. PROTECTION FENCING MUST BE PLACED AT LEAST 10 FEET AWAY FROM ANY OTHER DESIGNATED RESOURCE CONSERVATION AREA, SUCH AS, BUT NOT LIMITED TO, HISTORIC BUILDINGS AND STRUCTURES, WETLANDS, AND PONDS. PROTECTION FENCING MUST BE PLACED ALONG THE OUTSIDE LINE OF THE 100-YEAR FLOODPLAIN, AND THE OUTSIDE EDGE OF ANY RIPARIAN BUFFER. ADDITIONAL PROTECTION FENCING MAY BE REQUIRED IN OTHER LOCATIONS CLOSE TO CONSTRUCTION ACTIVITY WHERE IT IS DEEMED NECESSARY BY THE ZONING ENFORCEMENT OFFICER; SUCH AREAS MAY INCLUDE BUT ARE NOT LIMITED TO, COMMON PROPERTY LINES OR NEAR PUBLIC AREAS (SIDEWALKS, ETC).

4. ALL GRADING AND SUPPORT STRUCTURES ASSOCIATED WITH ANY RETAINING STRUCTURE SHALL NOT ENCROACH INTO ANY REQUIRED BUFFER OR PROTECTED AREA (SUCH AS, BUT NOT LIMITED TO, RCA AND CRITICAL ROOT ZONES OF TREES, PUBLIC UTILITY EASEMENTS, AND RIGHTS-OF-WAY), AND SHALL BE CONTAINED ENTIRELY ON SITE.

5. SITE ELEMENTS REQUIRED TO SATISFY RECREATIONAL REQUIREMENTS SUCH AS, BUT NOT LIMITED TO, PLAY FIELDS AND GREENWAY TRAILS AND ITEMS TYPICALLY ASSOCIATED WITH THEM (BENCHES, TRASH CONTAINERS, SIGNS, ETC.) MUST MEET ANY APPLICABLE STANDARDS FOUND IN THE TOWN OF APEX STANDARD SPECIFICATIONS AND CONSTRUCTION DETAILS AND THE REQUIREMENTS OF THE TOWN OF APEX PARKS AND RECREATION DEPARTMENT.

6. THE SCREENING OF TRASH CONTAINERS (INCLUDING DUMPSTERS AND ROLL-OUT CARTS), OUTDOOR STORAGE, MECHANICAL AND HVAC EQUIPMENT, AND SIMILAR FACILITIES ON THE ROOF, ON THE GROUND, OR ON BUILDINGS SHALL MEET THE REQUIREMENTS FOUND IN SECTION 8.2.8 OF THE UNIFIED DEVELOPMENT ORDINANCE; SPECIFICALLY SCREENING MUST BE DONE SO THAT:

A. IT IS INCORPORATED INTO THE OVERALL DESIGN THEME OF THE BUILDING AND LANDSCAPE.

B. SCREENING MATERIALS ARE NOT DIFFERENT FROM OR INFERIOR TO THE PRINCIPAL MATERIALS OF THE BUILDING OR LANDSCAPE AND ARE SIMILAR IN MATERIALS AND COLOR.

C. SCREENED ITEMS ARE OUT OF VIEW FROM ADJACENT PROPERTIES AND PUBLIC STREETS, AND A TOTALLY OPAQUE SCREEN IS ACHIEVED.

D. ANY GROUND-MOUNTED HVAC OR OTHER MECHANICAL OR UTILITY EQUIPMENT SIX-FEET TALL OR HIGHER MUST BE FENCED AND LANDSCAPED.

E. DUMPSTER ENCLOSURES MUST MEET THE ABOVE REQUIREMENTS PLUS THEY MUST BE AT LEAST EIGHT-FEET TALL OR THE HEIGHT OF THE DUMPSTER, WHICHEVER IS TALLER; AND BE BUILT OF MASONRY MATERIAL.

7. ALL REQUIRED SITE ELEMENTS SHOWN WITHIN A PARTICULAR PHASE MUST BE INSTALLED BEFORE A FINAL CERTIFICATE OF OCCUPANCY MAY BE ISSUED FOR ANY BUILDING WITHIN THAT PHASE.

8. SITE ITEMS SUCH AS BUT NOT LIMITED TO, LIGHTING, LANDSCAPING (INCLUDING MULCH), SCREENING (i.e.: DUMPSTERS/TRASH, MECHANICAL/HVAC, ETC.), SITE STABILIZATION (SEEDING), AND PARKING AND PAVEMENT MARKING MUST BE COMPLETED PRIOR TO SCHEDULING A FINAL SITE INSPECTION.

9. NO SIGNS ARE APPROVED AS PART OF THE PUD-CZ PLAN APPROVAL. A SEPARATE SIGN PERMIT MUST BE OBTAINED. SIGNAGE WILL COMPLY WITH APEX'S UDO.

10. EXACT ACCESS AND STUB LOCATIONS TO BE FINALIZED AT SUBDIVISION PLAN PHASE.

11. EXACT LOCATION OF RESOURCE CONSERVATION AREA TO BE FINALIZED AT SUBDIVISION PLAN PHASE.

12. INTERNAL STREETS SHALL BE DEDICATED TO THE TOWN OF APEX. ROAD STUB-OUTS SHALL BE PROVIDED PER TOWN OF APEX REQUIREMENTS.

13. EXISTING PONDS #1 & 2 MAY BE DRAINED AT A LATER DATE IN ACCORDANCE WITH ALL STATE AND LOCAL REGULATIONS.

14. THERE WILL BE NO RESIDENTIAL DRIVEWAYS ON STREETS 'A' AND 'B'.

15. ALL PARKING STANDARDS WITHIN THE PUD WILL COMPLY WITH SECTION 8.3 PARKING AND LOADING, OF THE TOWN OF APEX'S UDO (EFFECTIVE DATE DECEMBER 15, 2015).

McADAMS

- **General Roadway Infrastructure:**

All proposed roadway infrastructure will be consistent with the Town of Apex UDO and Transportation Plan (updated in 2011), and the Traffic Impact Analysis approved by the Town of Apex and NCDOT. An internal road network will be provided in accordance with the Town's UDO. All road networks will promote connectivity wherever possible to adjacent neighborhoods, undeveloped property, nearby points of interest, and municipal destinations. Further, cul-de-sacs will be avoided except where environmental features make through streets unfeasible.

Roadway Phasing – Prior to time of the fifty-first certificate of occupancy associated with the residential located off of Old US HWY 1, the second point of access (southernmost portion of Street A), necessary portion of the southernmost roundabout and Street B shown shall be constructed. As a part of the non-residential development in Pod 3, the roundabout proposed on Kelly Road shall be constructed along with the portion of Street A tying back to the southernmost roundabout. Prior to time of the first certificate of occupancy associated with Pod 3, Street A will be complete the connection from Kelly Road and Old US HWY 1.

- **Off-Site Transportation Conditions:**

The project will also provide the following off-site transportation conditions:

All recommendations on state maintained roadways are subject to NCDOT review and approval as part of the driveway permits and encroachment agreements. Build 2018 refers to the first plat of residential development or as otherwise determined by Apex Town Council during the review and approval of subdivision plans. Build 2020 refers to the first plat of commercial development or as otherwise determined by Apex Town Council during the review and approval of commercial site plans. Internal Protected Storage Length (IPS) refers to the required minimum distance from the intersection along the proposed driveway or street before any full movement commercial driveway access or public street intersection will be allowed.

Developer shall provide right-of-way dedication along Kelly Road and Old US 1 based on a 100-foot right-of-way. Where Old US 1 abuts railroad right-of-way the developer shall be responsible for dedicating public right-of-way 70 feet from roadway centerline along the project frontage or as otherwise required to accommodate a 100-foot road right-of-way exclusive of railroad right-of-way.

Street 'A' and Street 'B' (including Kelly Road at Site Drive #4)

- Street 'A' shall be constructed as a 3-lane 38-foot curb and gutter street with 5-foot sidewalk on both sides on 62-foot public right-of-way.

- Street 'B' shall be constructed as a 2-lane 39'-foot curb and gutter street with on-street parking and 6-foot sidewalk on both sides on 53-foot public right-of-way.
- Residential driveway access shall not be permitted along Streets 'A' and 'B'.
- Prior to platting the 51st residential unit in the Residential area located adjacent to Old US 1, developer shall construct and dedicate as public Street 'A' from Site Drive #5 to the roundabout at Street 'B', roundabout serving Street 'A' at Street 'B', and Street 'B' from Site Drive #6/Pleasant Plains Road to the roundabout at Street 'A'.
- Prior to the first certificate of occupancy within POD 3, developer shall construct and dedicate as public Street 'A' from the roundabout at Street 'B' to Kelly Road at Site Drive #4 and construct a roundabout on Kelly Road at Site Drive #4. The roundabout will serve a 4-lane divided roadway to the north and 2-lane roadway to the south for Build 2020.

Kelly Road at Olive Chapel Road

- Developer shall construct a 200-foot eastbound right turn lane and a 300-foot additional westbound left turn lane on Olive Chapel Road (with southbound receiving through lane on Kelly Road) for Build 2020.

Kelly Road at Apex Barbecue Road

- Developer shall construct a 400-foot eastbound left turn lane, 350-foot westbound left turn lane, 350-foot northbound left turn lane, 150-foot northbound right turn lane, 350-foot southbound left turn lane, and 200-foot southbound right turn lane for Build 2020.

Kelly Road at Southwinds Run

- Developer shall construct a 100-foot northbound left turn lane on Kelly Road, an additional (second) northbound through lane through the intersection to drop as a right turn at Site Drive #1, and begin an additional (second) southbound through lane immediately south of Southwinds Run for Build 2020.

Old US 1 at Kelly Road

- Developer shall construct a 100-foot westbound right turn lane on Old US 1 for Build 2018.
- Developer shall convert the intersection to right-in/right-out as well as construct an additional westbound through lane, beginning at the NC 540 Southbound off-ramp as a free-flow right turn exiting the ramp, along with a 200-foot westbound right turn lane on Old US 1 for Build 2020.
- Prior to platting the 300th residential unit, the developer will complete a signal warrant analysis at the intersection of Old US 1 and Kelly Road to determine if a

traffic signal is warranted at the intersection. If the signal is warranted and approved for installation by NCDOT, the developer will permit and install the traffic signal. However, if Street "A" through POD 3 is under construction prior to installation of the signal, then the requirement for the signal shall be waived and the Kelly Road / Old US 1 intersection shall be converted to a Right-In/Right-Out as required in the improvements for the commercial development.

NC 540 Ramps at Old US 1

- Developer shall provide a free-flow right turn lane for the NC 540 Southbound off-ramp and additional receiving through lane continuing west to drop as a right turn at Site Drive #6 on Old US 1 for Build 2020.

Old US 1 at Pleasant Plains Road & Site Drive #6

- Developer shall construct Site Drive #6 with a through-right lane and a 200-foot left turn lane for Build 2018.
- Developer shall construct a 200-foot eastbound left turn lane and 200-foot westbound left turn lane on Old US 1 for Build 2018.
- Developer shall install a traffic signal once warranted and approved by NCDOT and install communication with the NC 540 traffic signals.
- Developer shall construct an additional westbound through lane on Old US 1 to drop as a right turn lane at Site Drive #6 for Build 2020.
- Developer shall construct an additional eastbound through lane on Old US 1 beginning 400 feet west of Site Drive #6 for Build 2020.

Kelly Road at Site Drive #1

- Developer shall construct Site Drive #1 as a right-in and right-out only providing 100 feet IPS and a 100-foot northbound right turn lane on Kelly Road for Build 2018.
- Developer shall construct an additional northbound through lane on Kelly Road to drop as a right turn lane at Site Drive #1 for Build 2020.

Kelly Road at Site Drive #2

- Developer shall construct Site Drive #2 as a right-in and right-out only providing 100 feet IPS for Build 2018.
- Developer shall construct an additional northbound through lane and an additional southbound through lane on Kelly Road at Site Drive #2 for Build 2020.

Kelly Road at Site Drive #3

- Developer shall construct Site Drive #3 with a 100-foot eastbound right turn lane and a 100-foot westbound right turn lane on the Site Drive #3 approaches adjacent to through-right lanes with 200 feet IPS for Build 2018.
- Developer shall construct 100-foot northbound and 100-foot southbound left turn lanes on Kelly Road for Build 2018.
- Developer shall construct an additional (second) southbound through lane and additional (second) northbound through lane on Kelly Road at Site Drive #3 for Build 2020.

Old US 1 at Site Drive #5

- Developer shall construct Site Drive #5 as a full-movement intersection with 200-foot dual southbound left turn lanes and a 200-foot southbound right turn lane providing 300 feet IPS providing connectivity to both the residential and commercial phases for Build 2020.
- Developer shall construct an additional (second) westbound through lane and add a 200-foot westbound right turn lane on Old US 1 for Build 2020.
- Developer shall construct a 300-foot eastbound left turn lane and an additional (second) eastbound through lane on Old US 1 dropping 1000 feet east of the intersection for Build 2020.

- **Electric Charging Stations:**
  Developer shall provide 2 charging stations, one within the residential and one within the non-residential for electric vehicles within the overall project. In addition to these committed stations, two additional charging stations will be installed as part of the overall project.

- **Water & Sewer Utilities:**
  All **water and sanitary sewer** service will be provided by the developer and conform to the Town of Apex Public Works and Utilities Department requirements. Preliminary location and tie in points are shown on sheet C-3 and C-4 of the PUD plans. The water extension shown along Kelly Road to Old US HWY 1, alternatively, could be located through Pod – 3 Commercial and southernmost residential accomplishing the intent of the routing shown on sheet C-3 and C-4. The ultimate routing will be dictated by timing of commercial development, roadway construction internal to the site and timing commitment related to the extension. However, this will be coordinated with the Town of Apex at time of site plan and construction documents.

TOWN OF APEX
POST OFFICE BOX 250
APEX, NORTH CAROLINA 27502
PHONE 919-249-3426

PUBLIC NOTIFICATION OF PUBLIC HEARINGS

CONDITIONAL ZONING #25CZ05
West Village PUD Amendment

Pursuant to the provisions of North Carolina General Statutes §160D-602 and to the Town of Apex Unified Development Ordinance (UDO) Section 2.2.11, notice is hereby given of public hearings before the Planning Board of the Town of Apex. The purpose of these hearings is to consider the following:

Applicants: Trilandco, LLC
Authorized Agent: Matthew Carpenter, Parker Poe & Adams & Bernstein LLP
Property Address: 2517 Kelly Road
Acreage: ±5.8591 acres
Property Identification Number (PIN): 0731434504
2045 Land Use Map Designation: High Density Residential/Office Employment/Commercial Services
Existing Zoning of Property: Planned Unit Development-Conditional Zoning (PUD-CZ #15CZ33)
Proposed Zoning of Property: Planned Unit Development-Conditional Zoning (PUD-CZ)

Public Hearing Location: Apex Town Hall
Council Chamber, 2nd Floor
73 Hunter Street, Apex, North Carolina

Planning Board Public Hearing Date and Time: May 12, 2025 4:30 PM

You may attend the meeting in person or view the meeting through the Town's YouTube livestream at: https://www.youtube.com/c/townofapexgov.

If you are unable to attend, you may provide a written statement by email to public.hearing@apexnc.org, or submit it to the clerk of the Planning Board, Jeri Pederson (322 N. Mason Street or USPS mail - P.O. Box 250, Apex, NC 27502), at least two business days prior to the Planning Board vote. You must provide your name and address for the record. The written statements will be delivered to the Planning Board prior to their vote. Please include the Public Hearing name in the subject line.

A separate notice of the Town Council public hearing on this project will be mailed and posted in order to comply with State public notice requirements.

Vicinity Map:

Property owners, tenants, and neighborhood associations within 300 feet of the proposed conditional zoning have been sent this notice via first class mail. All interested parties may submit comments with respect to the application by the means specified above. In addition to the above map, the location of the property may be viewed online at https://maps.raleighnc.gov/imaps. The 2045 Land Use Map may be viewed online at www.apexnc.org/DocumentCenter/View/478. You may call 919-249-3426, Planning Department, with questions or for further information. To view the petition and related documents on-line: https://www.apexnc.org/DocumentCenter/View/49579/25CZ05.

NOTIFICACIÓN PÚBLICA DE AUDIENCIAS PÚBLICAS
ORDENAMIENTO TERRITORIAL CONDICIONAL #25CZ05
West Village PUD Amendment (Desarrollo de Unidad Planificada)

De conformidad con las disposiciones de los Estatutos Generales de Carolina del Norte §160D-602 y con la Sección 2.2.11 de la Ordenanza de Desarrollo Unificado (UDO) del ayuntamiento de Apex, por la presente se notifican las audiencias públicas ante la Junta de Planificación de Apex. El propósito de estas audiencias es considerar lo siguiente:

Solicitantes: Trilandco, LLC
Agente autorizado: Matthew Carpenter, Parker Poe & Adams & Bernstein LLP
Dirección de la propiedad: 2517 Kelly Road
Superficie: ±5.8591 acres
Números de identificación de la propiedad: 0731434504
Designación en el Mapa de Uso Territorial para 2045: High Density Residential/Office Employment/Commercial Services
Ordenamiento territorial existente de la propiedad: Planned Unit Development-Conditional Zoning (PUD-CZ #15CZ33)
Ordenamiento territorial propuesto para la propiedad: Planned Unit Development-Conditional Zoning (PUD-CZ)

Lugar de la audiencia pública: Ayuntamiento de Apex
Cámara del Consejo, 2º piso
73 Hunter Street, Apex, Carolina del Norte

Fecha y hora de la audiencia pública de la Junta de Planificación: 12 de mayo de 2025 4:30 P.M.
Puede asistir a la reunión de manera presencial o seguir la transmisión en directo por YouTube a través del siguiente enlace: https://www.youtube.com/c/townofapexnc.

Si no puede asistir, puede enviar una declaración escrita por correo electrónico a public.hearing@apexnc.org, o presentarla a la secretaria de la Junta de Planificación, Jeri Pederson (322 N. Mason Street o por correo USPS a P.O. Box 250, Apex, NC 27502), al menos dos días hábiles antes de la votación de la Junta de Planificación. Debe proporcionar su nombre y dirección para que conste en el registro. Las declaraciones escritas se entregarán a la Junta de Planificación antes de la votación. No olvide incluir el nombre de la audiencia pública en el asunto.

De conformidad con los requisitos estatales de notificaciones públicas, se enviará por correo y se publicará por separado una notificación de la audiencia pública del Consejo Municipal sobre este proyecto.
