### EAB RECOMMENDATIONS:

The Apex Environmental Advisory Board (EAB) held a pre-application meeting for this rezoning on January 20, 2022. The zoning conditions suggested by the EAB are listed below along with the applicant's response to each condition.

EAB Suggested Condition	Applicant's Response
An additional 25-feet of riparian buffer shall be observed on the existing stream on the rear of the lot if it is intermittent or 50-feet of buffer if it is ephemeral.	Added
Exterior lighting color temperature of 3000k or less	Added
All exterior lighting includes timers or light sensors	Added
Include solar conduit in a new building design	Added

### PLANNING BOARD RECOMMENDATION:

The Planning Board held a public hearing on April 11, 2022 and unanimously recommended approval with conditions as proposed by the applicant.

### PLANNING STAFF RECOMMENDATION:

Planning staff recommends approval of Rezoning #22CZ04 with the conditions as offered by the applicant.

### ANALYSIS STATEMENT OF THE REASONABLENESS OF THE PROPOSED REZONING:

This Statement will address consistency with the Town's comprehensive and other applicable plans, reasonableness, and effect on public interest:

The 2045 Land Use Map designates the subject properties as Rural Density Residential. If the properties are rezoned as proposed, the 2045 LUM will automatically be amended to Low Density Residential per NCGS 160D-605(a). The current density of the properties to be rezoned is greater than the one (1) unit per five (5) acres supported by the current LUM classification. Furthermore, the density of the Castleberry Estates subdivision to the south is one (1) unit per acre as it was rezoned before the density supported by the Rural Density Residential land use classification was reduced with the adoption of Advance Apex. The proposed rezoning is reasonable as the applicant has proposed a density of 0.75 units per acre which is lower than the subdivision to the south.

The proposed rezoning is reasonable and in the public interest because it will permit single-family residential development consistent and compatible with the surrounding area. In addition, the proposed rezoning will allow the properties to connect to Town water and sewer services.

**PETITION INFORMATION**

Application #: 22CZ04 Submittal Date: 2/1/22

An application has been duly filed requesting that the property described in this application be rezoned from R-80W (Wake Co.) to RR-CZ. It is understood and acknowledged that if the property is rezoned as requested, the property described in this request will be perpetually bound to the use(s) authorized and subject to such conditions as imposed, unless subsequently changed or amended as provided for in the Unified Development Ordinance (UDO). It is further understood and acknowledged that final plans for any specific development to be made pursuant to any such Conditional Zoning shall be submitted for site or subdivision plan approval, as required by the UDO. Use additional pages as needed.

**PROPOSED USES:**

The Rezoned Lands may be used for, and only for, the uses listed immediately below. **PROPOSED CONDITIONS:**

The applicant hereby requests that the Town Council of the Town of Apex, pursuant to the Unified Development Ordinance, approve the Conditional Zoning for the above listed use(s) subject to the following condition(s). Use additional pages as needed.

Please see the attached proposed conditions sheet.

**LEGISLATIVE CONSIDERATIONS - CONDITIONAL ZONING**

The applicant shall propose site-specific standards and conditions that take into account the following considerations, which are considerations that are relevant to the legislative determination of whether or not the proposed conditional zoning district rezoning request is in the public interest. These considerations do not exclude the legislative consideration of any other factor that is relevant to the public interest. Use additional pages as needed.

1) *Consistency with 2045 Land Use Map.* The proposed Conditional Zoning (CZ) District use’s appropriateness for its proposed location and consistency with the purposes, goals, objectives, and policies of the 2045 Land Use Map.

The 2045 LUM shows this as Rural Density Residential, or 1 DU per 5 acres or 0.20 DU/Acre density.

Our proposal to zone this as Rural Residential and cap the development at a maximum of 4 dwelling units, with a proposed density of 0.68 un/acre max density.

2) *Compatibility.* The proposed Conditional Zoning (CZ) District use’s appropriateness for its proposed location and compatibility with the character of surrounding land uses.

The existing land area around this property is more rural in nature, however significant development is ongoing in the areas surrounding the property. The Point at Lake Castleberry, Castleberry Trails, and Lake Castleberry developments are located to the north and feature single family development at much higher densities. Our proposed density of 0.68 units per acre is much more in line with the 2045 LUM and the surrounding character of residences on Wimberly.

## PETITION INFORMATION

Application #: 22CZ04 Submittal Date: 2/1/22

3) Zoning district supplemental standards. The proposed Conditional Zoning (CZ) District use's compliance with Sec 4.4 *Supplemental Standards*, if applicable.

The proposed development and recombination is for single family detached residences and complies with all the applicable Supplemental Standards noted in Section 4.4.

4) *Design minimizes adverse impact.* The design of the proposed Conditional Zoning (CZ) District use's minimization of adverse effects, including visual impact of the proposed use on adjacent lands; and avoidance of significant adverse impacts on surrounding lands regarding trash, traffic, service delivery, parking and loading, odors, noise, glare, and vibration and not create a nuisance.

The project does not create any adverse impact on adjacent lands for the following reasons. We are proposing a recombination of the site to move lot lines around without adding additional lots. The result will be that the second lot, which is currently vacant, will be adjusted such that a residence can be built with greater setbacks to adjacent properties and more opportunity to preserve existing features, vegetation, etc.

5) *Design minimizes environmental impact.* The proposed Conditional Zoning District use's minimization of environmental impacts and protection from significant deterioration of water and air resources, wildlife habitat, scenic resources, and other natural resources.

The proposed zoning district allows for construction of single family residential units while protecting environmental resources. No stream, riparian buffer, or wetland impacts are proposed, and the second residence will be constructed in such a way to preserve a significant portion of the existing vegetation on the site.

6) *Impact on public facilities.* The proposed Conditional Zoning (CZ) District use's avoidance of having adverse impacts on public facilities and services, including roads, potable water and wastewater facilities, parks, schools, police, fire and EMS facilities.

The proposed zoning district creates minimal impact on public facilities and services. Two new single family residences will be connected to the public water and gravity sewer infrastructure. There are currently two existing lots on record here, and we are not proposing any new lots at this time. Therefore we believe impact to parks, schools, and emergency services are negligible.

7) *Health, safety, and welfare.* The proposed Conditional Zoning (CZ) District use's effect on the health, safety, or welfare of the residents of the Town or its ETJ.

The proposed zoning district does not create adverse effects on the health, safety, and welfare of the residents of the Town. There are currently two lots recorded in this area, and our intent is to retain two lots and connect to Town services in a manner consistent with existing development in this area.

**PETITION INFORMATION**

Application #: 22CZ04 Submittal Date: 2/1/22

8) *Detrimental to adjacent properties.* Whether the proposed Conditional Zoning (CZ) District use is substantially detrimental to adjacent properties.

We do not believe the proposed zoning district is detrimental to adjacent properties. Development as an RR-CZ district allows for orderly construction of the second residence while maintaining significant existing vegetation, buffers, setbacks, and other screening from adjacent property using the existing tree cover.

9) *Not constitute nuisance or hazard.* Whether the proposed Conditional Zoning (CZ) District use constitutes a nuisance or hazard due to traffic impact or noise, or because of the number of persons who will be using the Conditional Zoning (CZ) District use.

The proposed zoning district does not create a nuisance due to noise or other impacts. Since there are two lots on record and we are not creating any additional lots, traffic and noise levels should remain consistent with current levels associated to the property.

10) *Other relevant standards of this Ordinance.* Whether the proposed Conditional Zoning (CZ) District use complies with all standards imposed on it by all other applicable provisions of this Ordinance for use, layout, and general development characteristics.

We believe that the intent and standards of the Ordinance are met by using the RR-CZ zoning district in this location. Development of the lots meets the applicable provisions of the ordinance for layout, Town services, environmental considerations, etc.

Meeting Address: Virtual

Date of meeting: Jan. 10, 2021 Time of meeting: 5:00 pm-7:00 pm

Please summarize the questions/comments and your responses from the Neighborhood Meeting or emails/phone calls received in the spaces below (attach additional sheets, if necessary). Please state if/how the project has been modified in response to any concerns. The response should not be "Noted" or "No Response". There has to be documentation of what consideration the neighbor's concern was given and justification for why no change was deemed warranted.

**Question/Concern #1:**

From Scott Sutton-will location of sewer block him from extending Town sewer to his property in the future

**Applicant's Response:**

No, it would not. Gravity sewer can be extended up the existing stream to the Sutton property and connect into the manhole at Castleberry Estates. We would be willing to connect the applicant with Sutton to discuss. Mr. Sutton was not ready to do anything with sewer currently.

**Question/Concern #2:**

From Mr. Sutton: Do we know where house on Lot 2 would go?

**Applicant's Response:**

We are not entirely sure at the moment, but we suspect the house on Lot 2 would have a similar front setback as the existing house so they sit roughly at the same depth from Wimberly.
