**TELL US WHY YOU WOULD LIKE TO SERVE?**

I would love to serve on the Environmental Advisory Board to help better serve my community. We moved to Apex last year and have decided to put down roots (we're a military family). Part of putting down roots for us is to be involved in the community and serve in some manner. Apex was our first choice as a new home and we've seen how much it has changed, even within a year. There's a reason people want to move here and it is important, if not imperative, to monitor and mitigate the impact of town growth on the environment. There are so many things that can be done to limit the impact of the town and help preserve the environment for the future generations, and I would love to be a part of that. I have an almost 3 year old and I want to teach him the importance of being involved in your community and taking care of the planet, while always continuing to improve and grow. As an engineer with lots of experience in energy efficiency and designing better and smarter, I think I would bring a unique perspective to the board.

**PLEASE LIST ANY EDUCATION, SPECIAL SKILLS, OR EXPERIENCE YOU HAVE THAT WOULD BE USEFUL WHILE CONSIDERING THIS FORM.**

I have a bachelor's in architectural engineering, a master's in civil engineering, and I'm a licensed professional engineer in North Carolina, South Carolina and Virginia. I've been working in the building industry for eight years and my job focuses on designing energy efficient buildings to meet/exceed current building codes. I am a member of ASHRAE and involved on several committees that focus on energy management and environmental impact of buildings.

**IF YOU NOW SERVE, OR HAVE PREVIOUSLY SERVED ON ANY TOWN BOARDS, COMMISSIONS OR COMMITTEES, PLEASE LIST THE COMMITTEES AND DATES SERVED.**

I have not served yet.
