

# | Agenda Item | cover sheet

for consideration by the Apex Town Council

Item Type: NEW BUSINESS  
Meeting Date: September 23, 2025

## Item Details

Presenter(s): Katie Schwing, Senior Planner - Long Range Transit

Department(s): Planning Department

### Requested Motion

Possible motion to accept the Apex Transit Prioritization Study.

### Approval Recommended?

Planning staff recommend acceptance of the Apex Transit Prioritization Study.

The Planning Board unanimously recommended acceptance of the Apex Transit Prioritization Study at their September 8, 2025 meeting.

### Item Details

Town of Apex staff conducted the Apex Transit Prioritization Study (ATPS) to identify priorities for local transit improvement and expansion. This study is not a full Transit Plan for the Town. Rather, the study is intended to provide prioritized recommendations for programming transit investments over approximately the next five years.

The study provides two sets of prioritized recommendations: one set for proposed fixed route transit service improvements and expansion, and one set for other projects that would support transit in Town.

The final recommendations have been adjusted from the draft recommendations based on feedback received during the public comment period that lasted from June 26<sup>th</sup> through August 3<sup>rd</sup>, 2025.

The study also includes a map of the proposed fixed route recommendations that will inform proposed recommendations for amendments to the Town's Transit Plan Map. The amendments would come before Town Council at a later date, pending study acceptance.
