## STAFF REPORT

### Rezoning #25CZ08 Veridea Expansion 3

September 23, 2025 Town Council Meeting

#### **WCPSS COORDINATION:**

A Letter of Impact from Wake County Public School System (WCPSS) was not requested for this rezoning as no additional residential units are requested as part of this rezoning.

#### **Proposed Uses and Zoning Conditions:**

Sec. 2.3.16.D of the Unified Development Ordinance (UDO) states in part:

“...A parcel or parcels (the “Parcel”) of any size may be added to an existing Sustainable Development Conditional Zoning District if (i) any portion of the Parcel is within 2,000 feet of such existing district, (ii) the Responsible Person of the existing district consents in writing and (iii) the Town Council approves a rezoning of the Parcel to Sustainable Development Conditional Zoning District SD-CZ in accordance with Secs. 2.3.3 and 2.3.16. In such event the SD Plan approved for the existing SD-CZ District shall be applicable to the Parcel(s) added to such existing district, and the development densities authorized in the existing SD Plan (including number of residential units and authorized square footage of other land uses) shall be increased on a pro-rata basis based on the size of the Parcel(s) added to the district, unless the Town Council provides otherwise with the consent of the Responsible Person.”

If the proposed rezoning is approved, the Veridea SD Plan, Environmental Enhancement Plan, and Pattern Book will be applicable to the subject properties. This is why no additional zoning conditions have been offered for this rezoning.

The applicant has indicated that no increase in the number of residential units is desired with the addition of these properties. If approved, the development densities will be as follows:

- Residential dwelling units: 8,000 (no change)
- Retail: 4,122,424.55 sq ft (0.15% increase)
- Office/Industrial: 14,131,483 sq ft (0.15% increase)

#### **ENVIRONMENTAL ADVISORY BOARD:**

This rezoning was exempt from meeting with the Apex Environmental Advisory Board (EAB) per Unified Development Ordinance (UDO) Sec. 2.1.9.A.2.c as the proposed rezoning is less than 10 acres.

#### **PLANNING STAFF RECOMMENDATION:**

Planning staff recommends approval of Rezoning #25CZ08 with the conditions as offered by the applicant.

#### **PLANNING BOARD RECOMMENDATION:**

The Planning Board held a public hearing on September 8, 2025 and unanimously recommended approval with the conditions as proposed by the applicant.

#### **ANALYSIS STATEMENT OF THE REASONABLENESS OF THE PROPOSED REZONING:**

This Statement will address consistency with the Town’s comprehensive and other applicable plans, reasonableness, and effect on public interest:

The 2045 Land Use Map classifies the subject properties as Regional Mixed Use: Medium Density Residential/High Density Residential/Office Employment/Commercial Services/Industrial Employment. The proposed rezoning to Sustainable Development-Conditional Zoning (SD-CZ) is consistent with that land use classification.

The proposed rezoning is reasonable and in the public interest because it will encourage more efficient and compatible development of the properties, provide for the same development standards as

applicable to the undeveloped adjacent properties, and allow for uses that will generate jobs and increase the tax base.

### CONDITIONAL ZONING STANDARDS:

The Town Council shall find the SD-CZ designation demonstrates compliance with the following standards.

#### 2.3.3.F:

## WHAT IS THE PURPOSE OF A NEIGHBORHOOD MEETING?

A neighborhood meeting is a required form of community outreach to receive initial feedback regarding certain project types and any long range plan amendments directly associated with such projects prior to submittal to the Planning Department per the standards found in UDO Sec. 2.2.7.B. The intent of the meeting is to initiate neighbor communication and identify issues and concerns early on and provide the applicant an opportunity to address neighbor concerns about the potential impacts of the project prior to submitting an application. A pre-application neighborhood meeting is valid for six (6) months prior to the submission of an application; a delay in submission requires a new neighborhood meeting.

## WHEN IS A NEIGHBORHOOD MEETING REQUIRED?

- Rezoning (including Planned Unit Developments);
- Major Site Plans;
- Minor Site Plans for the uses "Day care facility", "Government service", "School, public or private", "Restaurant, drive-through", and "Convenience store with gas sales";
- Residential Master Subdivision Plans (excluding exempt subdivisions); or
- Special Use Permits

## INSTRUCTIONS

Virtual meetings shall provide a dial-in option in addition to a link to participate by internet. The applicant shall submit all forms included in this packet with the initial application submittal.

A second Neighborhood Meeting is required for all Rezoning (including Planned Unit Developments). This meeting shall be held in the month preceding the anticipated public hearing date.

The Neighborhood Meeting must be held in accordance with the following rules:

### Providing Input to Town Council:

Each Town Council meeting agenda includes a Public Forum time when anyone is permitted to speak for three (3) minutes on any topic with the exception of items listed as Public Hearings for that meeting. The Town Council meets on the 2<sup>nd</sup> and 4<sup>th</sup> Tuesdays of each month at 6:00 p.m. (except for holidays, see schedule of meetings at <http://www.apexnc.org/838/Agendas-Minutes>). You may also contact Town Council by e-mail at [AllCouncil@apexnc.org](mailto:AllCouncil@apexnc.org).

### Private Agreements and Easement Negotiation:

The Town of Apex cannot enforce private agreements between developers and neighbors and is not a party to the easement and right-of-way negotiation that occurs between developers and neighboring property owners for easements or rights-of-way that are necessary to build the project.

It is recommended that all private agreements be made in writing and that if a property owner feels it necessary, they should obtain private legal counsel in order to protect their interests in both private agreements and during easement negotiations. The only conditions that the Town of Apex can enforce are those conditions that are made a part of the conditional zoning of the property by agreement of the developer and the Town.

As an example, if a developer offers to build a fence for a neighbor to mitigate some impact, the Town can only enforce the construction of the fence if the fence becomes a condition of the rezoning. This would occur by the developer offering the condition as part of their conditional zoning application package or at the Town Council public hearing on the conditional zoning and the Town accepting it as a condition. Private agreements regarding a fence being constructed will not be enforced by the Town.

To request that any agreement with a developer is made a part of the conditional zoning at the time of approval, you may ask at the Town Council public hearing if the agreement is included in the conditions. If it is not, you may request that the Town Council not approve the rezoning without the agreement being included in the conditions (note that it is up to Town Council whether to approve or deny the rezoning but they cannot impose conditions that the applicant does not agree to add). The developer's proposed conditions can be viewed any time after a rezoning is submitted on the Interactive Development Map at: <http://apexnc.maps.arcgis.com/apps/OnePane/basicviewer/index.html?appid=fa9ba2017b784030b15ef4da27d9e795>

### Documentation:

Neighbors to a requested new development and/or rezoning are strongly encouraged to fully document (such as through dated photographs) the condition of their property before any work is initiated for the new development. Stormwater controls installed on developed property are not designed to and will likely not remove 100% of the soil particles transported by stormwater runoff. As a result, creeks and ponds could become cloudy for a period of time after rain events.

# COMMON CONSTRUCTION ISSUES & WHO TO CALL

This document is a public record under the North Carolina Public Records Act and may be published on the Town's website or disclosed to third parties.

<b>Noise &amp; Hours of Construction:</b>	<b>Non-Emergency Police</b>	<b>919-362-8661</b>
---	-----------------------------	---------------------

Noise from tree removal, grading, excavating, paving, and building structures is a routine part of the construction process. The Town generally limits construction hours from 7:00 am to 8:30 pm so that there are quiet times even during the construction process. Note that construction outside of these hours is allowed with special permission from the Town when it makes more sense to have the construction occur at night, often to avoid traffic issues. In addition, the Town limits hours of blasting rock to Monday-Friday from 8:00 am to 5:00 pm. Report violations of construction hours and other noise complaints to the **Non-Emergency Police** phone number at 919-362-8661.

<b>Construction Traffic:</b>	<b>Infrastructure Inspections</b>	<b>919-249-3386</b>
------------------------------	-----------------------------------	---------------------

Construction truck traffic will be heavy throughout the development process, including but not limited to removal of trees from site, loads of dirt coming in and/or out of the site, construction materials such as brick and wood brought to the site, asphalt and concrete trucks come in to pave, etc. The Town requires a construction entrance that is graveled to try to prevent as much dirt from leaving the site as possible. If dirt does get into the road, the Town can **require they clean the street** (see "Dirt in the Road" below).

<b>Road Damage &amp; Traffic Control:</b>	<b>Infrastructure Inspections</b>	<b>919-249-3386</b>
---	-----------------------------------	---------------------

There can be issues with roadway damage, roadway improvements, and traffic control. Potholes, rutting, inadequate lanes/signing/stripping, poor traffic control, blocked sidewalks/paths are all common issues that should be reported to Transportation & Infrastructure Development – Infrastructure Inspections at 919-249-1109. The Town will get NCDOT involved if needed.

<b>Parking Violations:</b>	<b>Non-Emergency Police</b>	<b>919-362-8661</b>
----------------------------	-----------------------------	---------------------

Unless a neighbor gives permission, there should be no construction parking in neighbors' driveways or on their property. Note that parking in the right-of-way is allowed, but Town regulations prohibit parking within 15 feet of driveways so as not to block sight triangles. Trespassing and parking complaints should be reported to the Non-Emergency Police phone number at 919-362-8661.

<b>Dirt in the Road:</b>	<b>Water Resources</b>	<b>919-362-8166</b>
--------------------------	------------------------	---------------------

Sediment (dirt) and mud gets into the existing roads due to rain events and/or vehicle traffic. These incidents should be reported by visiting the Report a Concern page at <https://www.apexnc.org/1173/> or by calling the number listed. Staff will coordinate the cleaning of the roadways with the developer.

<b>Dirt on Properties or in Streams:</b>	<b>Water Resources</b>	<b>919-362-8166</b>
--	------------------------	---------------------

Sediment (dirt) can leave the site and get onto adjacent properties or into streams and stream buffers; it is typically transported off-site by rain events. These incidents should be reported by visiting the Report a Concern page at <https://www.apexnc.org/1173/> or by calling the number listed so that staff can coordinate the appropriate repairs with the developer.

<b>Dust:</b>	<b>Water Resources</b>	<b>919-362-8166</b>
--------------	------------------------	---------------------

During dry weather dust often becomes a problem blowing into existing neighborhoods or roadways. These incidents should be reported by visiting the Report a Concern page at <https://www.apexnc.org/1173/> or by calling the number listed so that staff can coordinate the use of water trucks onsite with the grading contractor to help control the dust.

<b>Trash:</b>	<b>Water Resources</b>	<b>919-362-8166</b>
---------------	------------------------	---------------------

Excessive garbage and construction debris can blow around on a site or even off of the site. These incidents should be reported by visiting the Report a Concern page at <https://www.apexnc.org/1173/> or by calling the number listed. Staff will coordinate the cleanup and trash collection with the developer/home builder.

<b>Temporary Sediment Basins:</b>	<b>Water Resources</b>	<b>919-362-8166</b>
-----------------------------------	------------------------	---------------------

Temporary sediment basins during construction (prior to the conversion to the final stormwater pond) are often quite unattractive. Concerns should be reported by visiting the Report a Concern page at <https://www.apexnc.org/1173/> or by calling the number listed so that he can coordinate the cleaning and/or mowing of the slopes and bottom of the pond with the developer.

<b>Stormwater Control Measures:</b>	<b>Water Resources</b>	<b>919-362-8166</b>
-------------------------------------	------------------------	---------------------

Post-construction concerns related to Stormwater Control Measures (typically a stormwater pond) such as conversion and long-term maintenance should be reported by visiting the Report a Concern page at <https://www.apexnc.org/1173/> or by calling the number listed.

<b>Electric Utility Installation:</b>	<b>Rodney Smith</b>	<b>919-249-3342</b>
---------------------------------------	---------------------	---------------------

Concerns with electric utility installation can be addressed by the Apex Electric Utilities Department. Contact Rodney Smith at 919-249-3342.

### **Providing Input to Town Council:**

Each Town Council meeting agenda includes a Public Forum time when anyone is permitted to speak for three (3) minutes on any topic with the exception of items listed as Public Hearings for that meeting. The Town Council meets on the 2<sup>nd</sup> and 4<sup>th</sup> Tuesdays of each month at 6:00 p.m. (except for holidays, see schedule of meetings at <http://www.apexnc.org/838/Agendas-Minutes>). You may also contact Town Council by e-mail at [AllCouncil@apexnc.org](mailto:AllCouncil@apexnc.org).

### **Private Agreements and Easement Negotiation:**

The Town of Apex cannot enforce private agreements between developers and neighbors and is not a party to the easement and right-of-way negotiation that occurs between developers and neighboring property owners for easements or rights-of-way that are necessary to build the project.

It is recommended that all private agreements be made in writing and that if a property owner feels it necessary, they should obtain private legal counsel in order to protect their interests in both private agreements and during easement negotiations. The only conditions that the Town of Apex can enforce are those conditions that are made a part of the conditional zoning of the property by agreement of the developer and the Town.

As an example, if a developer offers to build a fence for a neighbor to mitigate some impact, the Town can only enforce the construction of the fence if the fence becomes a condition of the rezoning. This would occur by the developer offering the condition as part of their conditional zoning application package or at the Town Council public hearing on the conditional zoning and the Town accepting it as a condition. Private agreements regarding a fence being constructed will not be enforced by the Town.

To request that any agreement with a developer is made a part of the conditional zoning at the time of approval, you may ask at the Town Council public hearing if the agreement is included in the conditions. If it is not, you may request that the Town Council not approve the rezoning without the agreement being included in the conditions (note that it is up to Town Council whether to approve or deny the rezoning but they cannot impose conditions that the applicant does not agree to add). The developer's proposed conditions can be viewed any time after a rezoning is submitted on the Interactive Development Map at: <http://apexnc.maps.arcgis.com/apps/OnePane/basicviewer/index.html?appid=fa9ba2017b784030b15ef4da27d9e795>

### **Documentation:**

Neighbors to a requested new development and/or rezoning are strongly encouraged to fully document (such as through dated photographs) the condition of their property before any work is initiated for the new development. Stormwater controls installed on developed property are not designed to and will likely not remove 100% of the soil particles transported by stormwater runoff. As a result, creeks and ponds could become cloudy for a period of time after rain events.

# COMMON CONSTRUCTION ISSUES & WHO TO CALL

This document is a public record under the North Carolina Public Records Act and may be published on the Town's website or disclosed to third parties.

<b>Noise &amp; Hours of Construction:</b>	<b>Non-Emergency Police</b>	<b>919-362-8661</b>
---	-----------------------------	---------------------

Noise from tree removal, grading, excavating, paving, and building structures is a routine part of the construction process. The Town generally limits construction hours from 7:00 am to 8:30 pm so that there are quiet times even during the construction process. Note that construction outside of these hours is allowed with special permission from the Town when it makes more sense to have the construction occur at night, often to avoid traffic issues. In addition, the Town limits hours of blasting rock to Monday-Friday from 8:00 am to 5:00 pm. Report violations of construction hours and other noise complaints to the Non-Emergency Police phone number at 919-362-8661.

<b>Construction Traffic:</b>	<b>Infrastructure Inspections</b>	<b>919-249-3386</b>
------------------------------	-----------------------------------	---------------------

Construction truck traffic will be heavy throughout the development process, including but not limited to removal of trees from site, loads of dirt coming in and/or out of the site, construction materials such as brick and wood brought to the site, asphalt and concrete trucks come in to pave, etc. The Town requires a construction entrance that is graveled to try to prevent as much dirt from leaving the site as possible. If dirt does get into the road, the Town can require they clean the street (see "Dirt in the Road" below).

<b>Road Damage &amp; Traffic Control:</b>	<b>Infrastructure Inspections</b>	<b>919-249-3386</b>
---	-----------------------------------	---------------------

There can be issues with roadway damage, roadway improvements, and traffic control. Potholes, rutting, inadequate lanes/signing/stripping, poor traffic control, blocked sidewalks/paths are all common issues that should be reported to Transportation & Infrastructure Development – Infrastructure Inspections at 919-249-1109. The Town will get NCDOT involved if needed.

<b>Parking Violations:</b>	<b>Non-Emergency Police</b>	<b>919-362-8661</b>
----------------------------	-----------------------------	---------------------

Unless a neighbor gives permission, there should be no construction parking in neighbors' driveways or on their property. Note that parking in the right-of-way is allowed, but Town regulations prohibit parking within 15 feet of driveways so as not to block sight triangles. Trespassing and parking complaints should be reported to the Non-Emergency Police phone number at 919-362-8661.

<b>Dirt in the Road:</b>	<b>Water Resources</b>	<b>919-362-8166</b>
--------------------------	------------------------	---------------------

Sediment (dirt) and mud gets into the existing roads due to rain events and/or vehicle traffic. These incidents should be reported by visiting the Report a Concern page at <https://www.apexnc.org/1173/> or by calling the number listed. Staff will coordinate the cleaning of the roadways with the developer.

<b>Dirt on Properties or in Streams:</b>	<b>Water Resources</b>	<b>919-362-8166</b>
--	------------------------	---------------------

Sediment (dirt) can leave the site and get onto adjacent properties or into streams and stream buffers; it is typically transported off-site by rain events. These incidents should be reported by visiting the Report a Concern page at <https://www.apexnc.org/1173/> or by calling the number listed so that staff can coordinate the appropriate repairs with the developer.

<b>Dust:</b>	<b>Water Resources</b>	<b>919-362-8166</b>
--------------	------------------------	---------------------

During dry weather dust often becomes a problem blowing into existing neighborhoods or roadways. These incidents should be reported by visiting the Report a Concern page at <https://www.apexnc.org/1173/> or by calling the number listed so that staff can coordinate the use of water trucks onsite with the grading contractor to help control the dust.

<b>Trash:</b>	<b>Water Resources</b>	<b>919-362-8166</b>
---------------	------------------------	---------------------

Excessive garbage and construction debris can blow around on a site or even off of the site. These incidents should be reported by visiting the Report a Concern page at <https://www.apexnc.org/1173/> or by calling the number listed. Staff will coordinate the cleanup and trash collection with the developer/home builder.

<b>Temporary Sediment Basins:</b>	<b>Water Resources</b>	<b>919-362-8166</b>
-----------------------------------	------------------------	---------------------

Temporary sediment basins during construction (prior to the conversion to the final stormwater pond) are often quite unattractive. Concerns should be reported by visiting the Report a Concern page at <https://www.apexnc.org/1173/> or by calling the number listed so that he can coordinate the cleaning and/or mowing of the slopes and bottom of the pond with the developer.

<b>Stormwater Control Measures:</b>	<b>Water Resources</b>	<b>919-362-8166</b>
-------------------------------------	------------------------	---------------------

Post-construction concerns related to Stormwater Control Measures (typically a stormwater pond) such as conversion and long-term maintenance should be reported by visiting the Report a Concern page at <https://www.apexnc.org/1173/> or by calling the number listed.

<b>Electric Utility Installation:</b>	<b>Rodney Smith</b>	<b>919-249-3342</b>
---------------------------------------	---------------------	---------------------

Concerns with electric utility installation can be addressed by the Apex Electric Utilities Department. Contact Rodney Smith at 919-249-3342.

# APEX ENVIRONMENTAL ADVISORY BOARD

## Suggested Zoning Conditions

Project Name: Veridea Expansion III

Date: 6/2/25

The Town of Apex Environmental Advisory Board offers this general list of suggested rezoning conditions for rezoning applicants to consider before filling a rezoning petition. The purpose of this list is to encourage and recommend implementation of exceptional environmental practices for future development that exceeds Town requirements. The Board will review each rezoning pre-application request and expand on suggested conditions by offering specific recommendations on a case-by-case basis.

**The decision to include any of the recommendations below is voluntary by the applicant and the Board does not expect applicants to add all of the suggested conditions.** Planning staff will include all zoning conditions suggested by this Board and will note which conditions have been added by the applicant in the staff reports to the Planning Board and Town Council. Applicants should review this list before meeting with the Board. NOTE: Text in green indicates suggested zoning condition language from Planning Staff. Underlined text indicates text or numbers that may be changed based on the specific project. Additional conditions may be suggested by the EAB at the meeting.

This document is divided into two parts:

- Part I – Residential applies to single-family dwellings and townhome subdivisions, but does not include the parking lots, exterior building lights or exterior architecture.
- Part II – Non-Residential includes condominiums, apartments, and multi-family, common areas in residential developments (e.g. amenity areas, parking lots, exterior building lights, and exterior architecture), commercial, office, and industrial areas. Your development may include elements of each part.

**Please be sure to read and complete the entire document. Please provide a response to each goal and/or sub-goal. Any proposed modifications to the green zoning language should be listed in the section at the end of the document.**

### Part I – Residential
