### Item Details

Cellebrite Inc Digital Forensics software will allow the police department to examine digital evidence from mobile, cloud, computer, and vehicle sources. It is a powerful and intuitive analytical tool that automatically locate and extract case-relevant data. Cellebrite Inc has similar capabilities as Magnet Forensics; however, it primarily functions best on Apple, IOS and computer systems. Cellebrite is the global leader in digital investigative solutions and analytics, trusted by public and private organizations to transform the way data is collected, reviewed, analyzed, and managed during investigations. The police department will utilize Cellebrite software to assist in solving cases by:

- COLLECT: Securely and lawfully extract data from the broadest range of digital devices and sources, ensuring that critical information is accessible to those who need it—when they need it most.
- REVIEW: Present data in clear, intuitive formats that make it easier to identify and act on relevant information quickly and confidently.
- ANALYZE: Process and validate key pieces of digital evidence rapidly, uncovering insights that drive faster, more accurate case resolutions and improve time-to-justice.
- MANAGE: Store and handle digital evidence collaboratively and securely, breaking down silos across teams while maintaining data privacy and the integrity of the chain of custody.
