Administration recommends approval

Item Details

The Irongate neighborhood is located immediately outside the town limits. The homes in the neighborhood receive water from individual wells. In 2018, the neighbors approached the town about receiving water services as many of their wells are failing. The neighborhood is predominantly low-to-moderate income households and the Town was able to qualify for CDBG funding through Wake County. Use of the funds requires a sub-recipient agreement with the County to ensure the project meets CDBG requirements. The Town will use the funding to install water utility lines in the neighborhood.
