Item Type: PRESENTATION

Meeting Date: August 27, 2024

Item Details

Presenter(s): Don Reeves, Sustainability Coordinator

Department(s): Budget and Performance Management

Requested Motion

Receive as information a presentation on the Town's Sustainability Action Plan, and possible motion to adopt the Apex Sustainability Action Plan for the Town of Apex.

Approval Recommended?

Yes

Item Details

The Sustainability Action Plan (SAP) was developed with the participation of nearly every Town department to guide the initiative identified. Sustainability efforts will be more measurable, actionable, and aligned with industry best practices, market trends, and the Town's strategic goals. Implementation success is a key consideration in the SAP, and each goal and strategy include clearly defined metrics, roles, and action steps. The SAP's actions and strategies address the overarching categories of Facilities & Energy, Clean Mobility, and Waste Management. By incorporating effective sustainability measures into daily municipal operations, the Town can maximize efficiencies, reduce waste, and enhance the Town's operations and services for the public.
