APPLE VALLEY ORDINANCE O-2022-12

NOW THEREFORE, be it ordained by the Council of the Apple Valley, in the State of Utah, as follows:

SECTION 1: <u>AMENDMENT</u> "11.02.080 Construction Drawings" of the Apple Valley Subdivisions is hereby *amended* as follows:

BEFORE AMENDMENT

11.02.080 Construction Drawings

After preliminary plat approval by Town council, the applicant shall have construction drawings prepared by a licensed engineer for all on site and required off site improvements in accordance with the following:

- A. Final plan and profile must be prepared in accordance with:
 - 1. Current Apple Valley Town standards and specifications;
 - 2. Apple Valley Town drainage manual;
 - 3. Big Plains Water and Sewer Special Service District construction standards;
 - 4. Apple Valley Town power standards and specifications as required;
 - 5. Applicable fire code; and
 - 6. Rocky Mountain power standards and specifications if applicable.
- B. Specific geotechnical recommendations for the design and construction of the proposed subdivision shall include the following if applicable:
 - 1. A general assessment of the requirements needed to develop on the site.
 - 2. Site preparation and grading and the suitability of onsite soils for use as structural fill.
 - 3. Stable cut and fill slopes including recommendations concerning the effects of material removal and the introduction of water.
 - 4. Recommendations for foundation type and design criteria, including, but not limited to, bearing capacity of natural or compacted soils, provisions to mitigate the effects of expansive, compressible, or collapsible soils, differential settlement and varying soil strength, and the effects of adjacent loads.
 - 5. Anticipated total and differential settlement.
 - 6. Special design and construction considerations, as necessary, such as the excavation and replacement of unsuitable materials, excavation difficulties, stabilization, or special foundation provisions for problem soil conditions.
 - 7. Design criteria for restrained and unrestrained retaining or rockery wall.
 - 8. Moisture protection and surface drainage.
- C. Eleven (11) sets of complete drawings must be submitted to the public works director. Construction drawings must contain a signature block for all required utility, Town,

and Big Plains Water and Sewer Special Service district representatives. Drawings shall be a minimum of twenty two inches by thirty four inches (22" x 34") (full size).

- D. Applicant shall request placement on a joint utility committee agenda for initial review of the plans.
- E. Applicant or applicant's authorized representative shall attend the joint utility committee meeting when the item is on the agenda. Utility, franchisee, Town, and Big Plains Water and Sewer Special Service District will take copies of plans to redline.
- F. All street grades over five percent (5%) shall be noted on the preliminary plat.
- G. When redlines are completed, public works director shall prepare a summary of the needed changes and return redlined plans to applicant.
- H. Applicant shall then submit three (3) copies of the corrected construction drawings, addressing all redlined items, to the Town engineer for review and possible signature. After Town engineer signs, applicant must obtain all required signatures and return signed plans to public works director for final signature.
- I. Construction drawings are valid for twenty four (24) months after final signature. Construction drawings signed more than twenty four (24) months prior to construction of improvements shall be considered expired. For a project where construction has started and all improvements shown on the plan will be constructed, the public works director may permit construction to continue. Construction drawings showing multiple phases of a project are valid only for those improvements constructed within the first twenty four (24) months of approval. New approvals must be obtained and any new standards shall apply for future phases or delayed projects.

AFTER AMENDMENT

11.02.080 Construction Drawings

After preliminary plat approval by Town council, the applicant shall have construction drawings prepared by a licensed engineer for all on site and required off site improvements in accordance with the following:

- A. Final plan and profile must be prepared in accordance with, but not limited to the following standards:
 - 1. Current Apple Valley Town standards and specifications;
 - 2. Apple Valley Town drainage manual;
 - 3. Big Plains Water and Sewer Special Service District construction standards;
 - 4. TestAsh Creek Sewer Special Service District construction standards;
 - 5. Apple Valley Town power standards and specifications as required;
 - 6. Applicable fire code; and
 - 7. Rocky Mountain power standards and specifications if applicable.
 - 8. South Central Communications standards and specifications, if applicable.
- B. Specific geotechnical recommendations for the design and construction of the proposed subdivision shall include the following if applicable:
 - 1. A general assessment of the requirements needed to develop on the site.
 - 2. Site preparation and grading and the suitability of onsite soils for use as structural fill.

- 3. Stable cut and fill slopes including recommendations concerning the effects of material removal and the introduction of water.
- 4. Recommendations for foundation type and design criteria, including, but not limited to, bearing capacity of natural or compacted soils, provisions to mitigate the effects of expansive, compressible, or collapsible soils, differential settlement and varying soil strength, and the effects of adjacent loads.
- 5. Anticipated total and differential settlement.
- 6. Special design and construction considerations, as necessary, such as the excavation and replacement of unsuitable materials, excavation difficulties, stabilization, or special foundation provisions for problem soil conditions.
- 7. Design criteria for restrained and unrestrained retaining or rockery wall.
- 8. Moisture protection and surface drainage.
- C. Upon Completion of the complete proposed construction plans, the Applicant shall fill out an application for construction plan review, pay associated fees, and upon approval of the application by the Public Works Director, shall then deliver Eight (8) sets Eleven (11) sets of complete construction plans drawings must be submitted to the public works director along with a digital copy. Construction drawings must contain a signature block for all required utilities y, including the Public Works Director, Town, and Big Plains Water and Sewer Special Service district representatives, Ash Creek Special Sewer District and Town Engineer. Drawings shall be a minimum of twenty two inches by thirty four inches (22" x 34") (full size).
- D. Applicant shall request placement on a joint utility committee agenda for initial review of the plans.
- E. Applicant or applicant's authorized representative shall attend the joint utility committee meeting when the item is on the agenda. Utility, franchisee, Town, and Big Plains Water and Sewer Special Service District will take copies of plans to redline.
- F. All street grades over five percent (5%) shall be noted on the preliminary plat.
- G. When redlines are completed, public works director shall prepare a summary of the needed changes and return redlined plans to applicant.
- H. Applicant shall then submit three (3) copies of the corrected construction drawings, addressing all redlined items, to the <u>Public Works Director who then will review and submit them to the</u> Town engineer for review and possible signature. After Town engineer signs, applicant must obtain all required signatures and return signed plans to public works director for final signature.
- I. Construction drawings are valid for twenty four (24) months after final signature. Construction drawings signed more than twenty four (24) months prior to construction of improvements shall be considered expired. For a project where construction has started and all improvements shown on the plan will be constructed, the public works director may permit construction to continue. Construction drawings showing multiple phases of a project are valid only for those improvements constructed within the first twenty four (24) months of approval. New approvals must be obtained and any new standards shall apply for future phases or delayed projects.
