

Summary of proposed changes to 10.28.240

The following is a summary of what the proposed changes will do;

1. It removes all restrictions on accessory buildings such as how many garages, shops and other buildings a property owner may have on their property, and replaces it with the simple requirement that all of a property owners buildings including their primary residence and all accessory building may not exceed 50% of the sq footage of their lot.
2. It adds that a property owner may ask for a conditional use permit to exceed the maximum height allowed in the zone they live in.
