CONDITIONAL USE PERMIT

Applicant Information

Name: Robert & Samantha Barber Telephone: 540-688-9335

Address (City, State, Zip): 1614 N APPLE VALLEY DR , APPLE VALLEY UT 84737

Agent (If applicable): _____ Agent Phone: _____

Address of Subject Property: 1614 N APPLE VALLEY DR , APPLE VALLEY UT 84737

Tax ID of Subject Property: AV-1334-N / AV-1334-T / AV-1334-T-1

Proposed Conditional Use: Accessory building larger than given square footage.

[Signature] [Signature] 04/27/2026
 Applicant Signature Date

This application shall be accompanied by the following:

- A vicinity map showing the general location of the application
- Three (3) copies of a plot plan showing the following:
 - o Property boundaries, dimensions and existing streets
 - o Location of existing and proposed buildings, parking, landscaping and utilities
 - o Adjoining property lines and uses within one hundred feet of subject property
- A reduced copy of all plans (8.5x11 if readable, or 11x17) if original plans are larger
- Building elevations for new construction, noting proposed materials and colors
- Traffic impact analysis, if required by the Town Engineer or the Planning Commission
- Applicant's responses to the Conditional Use Permit standards for review (attached)
- A statement indicating whether the applicant will require a variance in connection with the proposed conditional use permit.
- Warranty deed, preliminary title report, or other document (see Affidavit of Property owner attached) showing evidence that the applicant has control of the property.

NOTE: It is important that all applicable information noted above is submitted with the application. An incomplete application will not be scheduled for Planning Commission consideration. Contact the Planning Department for the deadline date of submissions. Once your application is deemed complete, it will be put on the agenda for the next planning Commission meeting. A deadline missed due to an incomplete application could result in a month's delay.

Conditional Use Permit Overview

PURPOSE

It is the purpose of a conditional use permit to allow flexibility in zoning, by permitting a discretionary review of a project or use that by its character may not be compatible with uses which are permitted in the zone, and allowing such use when it can be found to be compatible with the neighborhood in which it is located.

WHEN REQUIRED

The conditional use permit is primarily required whenever the Land Use Ordinance specifies the use as a conditional use. It is also used for other specified situations such as allowing building heights that exceed the maximum allowed within the zone.

APPROVAL STANDARDS (from section 10:20 of Land Use Code)

To authorize a conditional use permit the Planning Commission at a public meeting must find that the evidence presented establishes:

- a) The proposed use will not be detrimental to the health, safety or general welfare of persons residing or working in the vicinity, or injurious to property or improvements in the vicinity
- b) The proposed use of the particular location is necessary or desirable to provide a service or facility which will contribute to the general well-being of the neighborhood and the community; and
- c) The proposed use will comply with regulations and conditions specified in Land Use Ordinance for such use.

The Planning Commission may request additional information as may be reasonably needed to determine whether the requirements of this subsection can be met.

APPEALS

Any person adversely affected by a decision of the Planning Commission regarding the transfer, issuance or denial of a conditional use permit, may appeal such decision to the Board of Adjustment by filing written notice of appeal, stating the grounds therefore within fourteen (14) days from the date of the Planning Commission decision. The appeal is filed with the Clerk

for the Board of Adjustment located in the Planning Department. The decision of the Board of Adjustment is final unless appealed to a court of competent jurisdiction within thirty (30) days from the date of decision of the Board of Adjustment.

Conditional Use Permit Standards for Review

Please provide response to the following for the Commissions review:

- a. The harmony and compliance of the proposed use with the objectives and requirements of the Town's General Plan and the Land Use Code;
- b. The suitability of the specific property for the proposed use;
- c. The development or lack of development adjacent to the proposed site and the harmony of the proposed use with existing uses in the vicinity;
- d. Whether or not the proposed use or facility may be injurious to potential or existing development in the vicinity
- e. The economic impact of the proposed facility or use on the surrounding area;
- f. The aesthetic impact of the proposed facility or use on the surrounding area;
- g. The number of other similar conditional uses in the area and the public need for the proposed conditional use;
- h. The present and future requirements for transportation, traffic, water, sewer, and other utilities, for the proposed site and surrounding area;
- i. The safeguards proposed or provided to ensure adequate utilities, transportation access, drainage, parking, loading space, lighting, screening, landscaping, open space, fire protection, and pedestrian and vehicular circulation
- j. The safeguards provided or proposed to prevent noxious or offensive emissions such as noise, glare, dust, pollutants and odor from the proposed facility or use.
- k. The safeguards provided or proposed to minimize other adverse effects from the proposed facility or use on persons or property in the area; and
- l. The impact of the proposed facility or use on the health, safety, and welfare of the Town, the area, and persons owning or leasing property in the area.

Affidavit

Property Owner

Conditional Use Permit Standards for Review

Please provide response to the following for the Commissions review:

a. The harmony and compliance of the proposed use with the objectives and requirements of the Town's General Plan and the Land Use Code;

The shop supports the goals of Apple Valley's General Plan by allowing the property owner to safely store equipment, tools, and vehicles in a way that reduces clutter and maintains a clean, organized property. The use is compliant with the Land Use Code and fits the typical pattern of accessory buildings within the community. The proposal does not create noise, traffic, or operational impacts inconsistent with rural residential living and remains fully compatible with surrounding properties. Its design and placement ensure it remains visually compatible with neighboring properties and does not negatively impact the rural atmosphere of Apple Valley.

b. The suitability of the specific property for the proposed use;

The property is well-suited for the proposed shop due to its large lot size, rural zoning, and existing residential use. The parcel provides ample space to accommodate the building while meeting height and design standards. The shop fits naturally within the rural character of the area and supports the practical needs typical of properties in Apple Valley.

c. The development or lack of development adjacent to the proposed site and the harmony of the proposed use with existing uses in the vicinity;

The proposed shop is compatible with the existing uses in the vicinity. Adjacent to the property, there are only two other homes on the same side of Apple Valley Drive and one business, Gooseberry Lodges. The area is largely undeveloped, which provides ample space for the shop without impacting neighbors. The building will be constructed with purpose and care, and the house is planned to undergo a remodel to match shop aesthetics. There will be minimal disruptions to the neighborhood (normal construction noise during appropriate daytime hours), and no additional traffic will be generated, as the use is consistent with the existing residential activities on the property. Overall, the shop harmonizes with the rural residential character of the area and is appropriate for the site.

d. Whether or not the proposed use or facility may be injurious to potential or existing development in the vicinity;

The proposed shop will not be injurious to existing or potential development in the vicinity. The activities conducted will remain the same as currently practiced, with the new building providing a larger, more efficient space for use. The neighboring properties, including the home across the street, will retain the same views and enjoyment of the landscape. Overall, the use is compatible with the surrounding area and will not negatively affect current or future development

e. The economic impact of the proposed facility or use on the surrounding area;

The proposed shop is not anticipated to directly impact the economy of Apple Valley. There may be potential of bringing more business to Apple Valley, consistent of it's current use as an off-road fabrication shop.

f. The aesthetic impact of the proposed facility or use on the surrounding area;

The proposed shop is designed to complement both the property and the surrounding area. It will be constructed with a metal board-and-batten exterior, creating a durable, visually appealing structure. The design will match the planned future updates to the home, ensuring a cohesive and harmonious appearance. The size, placement, and materials of the shop are chosen to maintain the rural residential character of Apple Valley and minimize visual impact on neighboring properties, enhancing the overall aesthetic of the property and its surroundings.

g. The number of other similar conditional uses in the area and the public need for the proposed conditional use; Unknown; NA

h. The present and future requirements for transportation, traffic, water, sewer, and other utilities, for the proposed site and surrounding area;

The proposed shop will not impact transportation in the area. There will be no change in traffic or road usage, as the new shop will operate similarly to the existing facility. The property currently shares a 150-volt electrical connection between the home and existing shop; our parcel will require an upgrade to higher voltage to support climate-controlled

operations due to the area's heat and will operate within current electrical codes. Water and septic use will remain about the same. Overall, the proposed use can be accommodated safely and efficiently with minimal infrastructure adjustments.

i. The safeguards proposed or provided to ensure adequate utilities, transportation access, drainage, parking, loading space, lighting, screening, landscaping, open space, fireprotection, and pedestrian and vehicular circulation

All safeguards for the proposed shop will meet or exceed Apple Valley codes and requirements. The property provides ample space for the building's operation, including safe access and circulation for large vehicles. The other side of the property will remain empty, preserving open space and minimizing any visual or operational impacts. Drainage, parking, and loading areas will be designed to function efficiently without affecting neighboring properties. Utilities, lighting, landscaping, and fire protection will all comply with Town standards. Overall, the shop will operate safely and effectively while maintaining compatibility with the surrounding area.

j. The safeguards provided or proposed to prevent noxious or offensive emissions such as noise, glare, dust, pollutants and odor from the proposed facility or use.

The proposed shop will not produce any noxious or offensive emissions, including noise, glare, dust, pollutants, or odors. As an added benefit, noise levels are expected to be reduced compared to the existing building, as the new shop will be insulated. Overall, the facility is designed to operate in a manner that is safe, clean, and compatible with the surrounding properties

k. The safeguards provided or proposed to minimize other adverse effects from the proposed facility or use on persons or property in the area;

The proposed shop includes safeguards to minimize any potential adverse effects on neighboring properties or persons in the area. The building will be located with ample space on the property, ensuring no encroachment or interference with adjacent lots. Traffic, parking, and large vehicle access are designed to operate safely without impacting neighbors. Noise is expected to be reduced due to insulation, and the other side of the property will remain empty, preserving open space and minimizing visual impact. Overall,

the shop is designed to function safely, efficiently, and harmoniously within the surrounding rural residential environment.

l. The impact of the proposed facility or use on the health, safety, and welfare of the Town, the area, and persons owning or leasing property in the area.

The proposed shop will have no negative impact on the health, safety, or welfare of the Town, the surrounding area, or neighboring property owners. The building will be constructed to code, with proper insulation, fire protection, and safe vehicle access. Noise, dust, glare, and other potential nuisances will be minimized, and the shop's operation will be consistent with existing activities on the property. Overall, the facility is designed to function safely and efficiently while maintaining the quality of life, safety, and well-being of the community and adjacent properties.

Variance Request

If approved, a variance will be required due to the square footage of this accessory building and setback parameters. Per 10.10.050 RE Rural Estates Zone requirements, this building will exceed maximum allowable size only in square footage.

EXHIBIT B

Notice of Consent

Simple Boundary Adjustment

I, Bradley Farrar, the designated Land Use Authority for Apple Valley, Utah, in accordance with §10-

9a-523 (3) or §17-27a-522 (3), hereby provide consent to a Simple Boundary Adjustment (Consolidation)

proposed by Robert Barber and Samantha Barber that:

(a) Includes the attached conveyance document that complies with §57-1-45.5;

(b) Does not:

(i) affect a public right-of-way, county utility easement, or other public property;

(ii) affect an existing easement, onsite wastewater regulation, or an internal lot restriction; or

(iii) result in a lot or parcel out of conformity with land use regulations.

This notice of consent is an administrative act. The land use authority is not responsible for any error

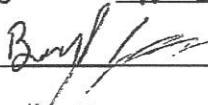

related to the boundary adjustment. The recording of a boundary adjustment does not constitute a land

use approval. The land use authority may withhold approval of a land use application for property that is

subject to a boundary adjustment if the county determines that the resulting lots or parcels are not in

compliance with the county's land use regulations in effect on the day on which the boundary adjustment is recorded.

Signed this 11th day of March, [year].

Bradley Farrar

Designated Land Use Authority

of Apple Valley, Utah
