Hi my name is patricia Parker 2826 purple sage rd. We can't attend those meetings as we are out of town. We don't agree with the zone change, we purchased our property because of the open space and beautiful views. We don't want excessive traffic due to new sub-division development. Also a drain on the water and power system, we already have too many outages as it is. So our vote is no to a sub-division
