Dear Dallin Jolley:

After reviewing the proposed plans for the above mentioned project, I have determined that power is available within a near proximity. Rocky Mountain Power intends to serve the project with electrical service based on load requirements and specifications submitted. All electrical installations will be provided in accordance with the "Electric Service Regulations, as filed with the Utah Public Service Commission after receiving an approved plat showing easements approved by Rocky Mountain Power.

For additional consultation in this matter, please do not hesitate to call.

Preliminary Water Letter
For
Hidden Rock Development Group LLC
Anish Bhatia and Dallin Jolley

This letter is provided as a preliminary look at the needs of your proposed development and provides options as well as potential requirements for your project.

1. Option to connect to district water main at N Apple Valley Dr. next to the Gooseberry Lodges.
2. Option to build a tank and infrastructure designed to meet not only culinary, irrigation, but also fire suppression for your entire development.
3. State and Local permits for well drilling.
4. Municipal/Culinary water rights deeded to the District.
5. Easements as required for water infrastructure and District access.
6. Upon completion of the water system by the Developer and approval of the District's designated engineer and Water Superintendent, said water system will be deeded to the District.

The above is not an all-encompassing list, but a preliminary one and may expand as your development progresses.

The District provides this letter for the purpose of a zone change and it is NOT a Will Serve Letter.

RE: Parcel AV-2194-D

Kyle,

Ash Creek SSD takes no exception to the proposed zone change for parcel AV-2194-D. In lieu of a Will Serve, this letter communicates Ash Creek SSD's requirements.

After reviewing the conceptual site plan for parcel AV-2194-D, it appears the land will be used as a resort style property with no subdivision of the property creating individual lots for sale. Based on the proposed land use, a Body Politic agreement with Ash Creek SSD should not be needed. Wastewater treatment will be permitted through the state. The next step for the owner/developer will be to contact the Utah Division of Water Quality to work through the permitting process. This information has been provided to the owner/developer.

The owner/developer understand and agree that they will need to get plan approval for the sewer and treatment systems. After approval, they agree to pay all costs associated with construction of sewer and treatment systems and impact fees.

Please let us know if you have any questions.

Sincerely,

Amber Gillette, P.E.
Engineer

Mr. Anish Bhatia

Subject: Soil Classification and Septic Feasibility
Parcel AV-2194-D
Apple Valley, Utah
GTS Project Number: 12925

Dear Mr. Bhatia:

As requested, we are providing you with the soil classification for the above noted project. It appears that the soils are sufficient for the installation of an onsite wastewater system; however, this letter should be provided to the Southwest Utah Public Health Department for their approval. Soil classification in accordance with Utah Administrative Code Section R317-4-13 was performed by us and reported herein.

In order to investigate the subsurface soils for this study, five, 5.75 to 9.5-foot deep test pits were excavated across the subdivision as shown on Figure 1. The subsurface soils encountered in the test pits consisted of granular, fine sandy loam to the maximum depth of exploration, 9.5 feet, which was the extent of the digging equipment. Groundwater was not encountered in the test pits during our investigation and there was no evidence of a historic ground water table within the depth of the test pits.

Considering soil classification and using values from Section R317-4-13, Table 6, a soil absorption rate (SAR) of 0.5 gallons/square foot/day can be used for sizing the absorption area. Please refer to the attached Soil Exploration Results.

Thank you for allowing us to provide these services for you. Please call our office at (435) 628-9536 if there are any questions regarding this project.

Very Truly Yours,
GEOTECHNICAL TESTING SERVICES, INC.
