

# Legacy systems Shifting labor market expectations Critical Challenges Threaten: Service delivery Operational continuity Long-term sustainability G

# Public Sector | Workforce Challenges & Realities

#### **Declining Appeal of Public Employment**

Government jobs are no longer automatically seen as desirable. Today's workforce expects more than job security – they want competitive pay, growth opportunities, and workplace flexibility.

#### **Direct Competition with the Private Sector**

Public employers are competing with private-sector organizations that offer faster hiring processes, more flexible work environments, and higher compensation packages. Failing to respond to these market conditions results in talent loss.

#### **Shorter Tenure and Higher Turnover**

The traditional model of long-term public employment is fading. Younger workers are more mobile, requiring renewed focus on onboarding, engagement, and career development to support retention.

#### Rising Expectations for Flexibility and Culture

Modern workers value hybrid schedules, meaningful work, professional development, and responsive leadership. Agencies with rigid systems and outdated policies struggle to attract and retain staff.

### **Outdated Systems and Pay Structures**

Many public agencies rely on legacy pay and classification systems that are no longer aligned with modern roles, responsibilities, or market conditions. These outdated structures hinder competitiveness and equity.

# Shifting labor market expectations Critical Challenges Threaten: Service delivery Operational continuity Long-term sustainability G

# Public Sector | Workforce Challenges & Realities (Cont.)

#### **Looming Retirements and Succession Gaps**

A significant portion of the public workforce is nearing retirement, with few pipelines in place to prepare the next generation of leaders. Succession planning is increasingly urgent.

#### Slow and Bureaucratic Hiring Processes

Extended hiring timelines and overly complex procedures drive candidates away. Streamlined, responsive recruitment processes are essential to compete in today's market.

### **Increased Demand for Equity and Transparency**

Employees and the public expect pay systems to be fair, transparent, and data-informed. Pay equity, internal alignment, and clarity in compensation decisions are vital for trust and retention.

#### **Permanent Labor Market Shifts**

These are not temporary disruptions. Workforce shortages, remote work expectations, and rising salary benchmarks are long-term realities that require structural adaptation.

## The Cost of Inaction is Growing

Failing to modernize HR systems, compensation structures, and hiring practices leads to rising vacancy rates, overburdened staff, and increased costs tied to turnover and service delays. The cost of inaction is far greater than the cost of improvement.

# Recruitment Shortfalls Shifting Employee Expectations C G

# **Common Comp Assumptions**

#### "We Just Did One Recently."

**Assumption:** A compensation study is only needed once every 5-10 years.

**Reality:** Labor market shifts, inflation, and competition for talent mean pay structures can become outdated quickly. Best practice recommends reviews every 3-5 years.

### "We Can Find the Right Pay Data for Free Online."

**Assumption:** Publicly available data is sufficient.

**Reality:** These sources often lack job-specific, regional, and government-aligned detail. Professional studies ensure accurate, defensible benchmarking.

#### "All We Need Is a List of Salaries."

**Assumption:** A salary survey is just a comparison of pay ranges.

**Reality:** A thorough study addresses classification accuracy, internal equity, market alignment, pay compression, and structural gaps; not just salary snapshots.

#### "Job Titles Tell Us Everything."

**Assumption:** We can benchmark salaries by matching job titles.

**Reality:** Job duties, scope, and qualifications vary even under the same title. Accurate comparisons require job content analysis, not title-matching alone.

# "Internal Equity Isn't an Issue Here."

Assumption: Our current pay system ensures fairness.

**Reality:** Without regular reviews, pay compression, inconsistent classifications, or outdated ranges can still lead to inequities, especially for new hires and promoted staff.

# Recruitment Shortfalls Shifting Employee Expectations C G

# Common Comp Assumptions (Cont.)

#### "Employees Are Lucky to Have These Jobs."

**Assumption:** Public jobs are stable with good benefits, so people won't leave.

**Reality:** Job security alone no longer retains employees. Competitive pay, flexibility, and growth opportunities are now key retention drivers.

### "Our Benefits Are Better Than the Private Sector."

**Assumption:** Great benefits make up for any salary shortfall.

**Reality:** While public benefits are valuable, younger and mid-career employees often prioritize higher wages and flexibility. The market has evolved. Some employees don't take benefits.

Common employee perspectives: "I can't eat my benefits!" AND "My benefits don't pay my bills!"

### "Our Employees Aren't Going Anywhere."

**Assumption:** Tenured staff are unlikely to leave, even if underpaid.

**Reality:** Public service loyalty is not guaranteed. Retirement-eligible staff may leave faster than expected, and passive job seekers are being actively recruited by other employers.

#### "We Don't Have High Turnover."

Assumption: Since turnover is low, there's no compensation issue.

Reality: Low turnover may reflect economic conditions, lack of opportunities, or staff "waiting it out" – not satisfaction. Recruitment struggles and early exits tell a deeper story.

# "It Will Cost Too Much to Implement."

**Assumption:** Even if we complete a study, we can't afford the recommendations.

**Reality:** Implementation can be phased and budgeted strategically. Many recommendations focus on structure and alignment, not just raises, and are scalable to fit fiscal realities.

# Recruitment Shortfalls **Shifting Employee** Expectations C G

# Common Comp Assumptions (Cont.)

#### "Our Legacy System/Philosophy Has Always Worked."

**Assumption:** Our current classification and pay system has worked in the past, so there's no need to change. **Reality:** What worked in the past may not support today's hiring, retention, or compliance needs. Modernizing doesn't mean discarding tradition, it means building on it.

## "Consultants Just Tell Us to Pay More."

**Assumption:** Consultants will recommend expensive across-the-board raises.

**Reality:** Professional studies use objective data and often propose sustainable strategies like range adjustments, pay structures, or priority-based increases, not blanket changes.

#### "We Can Handle This Internally."

**Assumption:** HR can conduct a full study in-house.

**Reality:** Internal teams are often short on time, tools, or objectivity. External partners bring efficiency, credibility, and expertise, especially when justifying decisions to stakeholders.

#### "One Size Fits All."

**Assumption:** A single salary structure can apply across all departments.

**Reality:** Certain roles like law enforcement, public works/road & bridge, or IT, operate in different labor markets and require specialized ranges or structures.

# "Pay Is the Only Issue."

Assumption: Fixing pay will solve all our workforce issues.

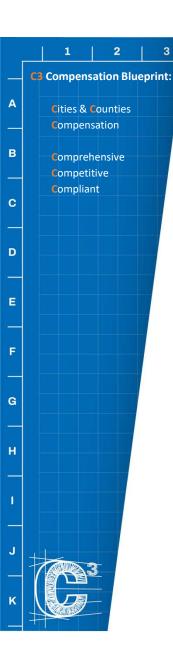

**Reality:** Compensation is important, but so are engagement, leadership, communication, benefits, culture and career paths. A balanced approach is more effective.

# **Challenging The Assumptions**

# **Why It Matters:**

- Cities and counties across the country are facing unprecedented workforce challenges including recruitment shortfalls, retention concerns, and shifting employee expectations. Yet, long-held assumptions about employee classification, salary surveys, and compensation strategies often stand in the way of meaningful progress.
- Challenging these assumptions is not about abandoning tradition, it's about ensuring today's decisions are informed by current realities and positioned for future success.
- Key reasons to revisit these common assumptions:
  - Market Competitiveness: The belief that "our benefits are better" or "employees aren't going anywhere" no longer reflects today's labor environment. Public employers are competing with private sector wages, remote work options, and fast-moving talent markets.
  - Workforce Stability: Assumptions like "we don't have high turnover" may mask deeper issues like disengagement, delayed retirements, or difficulty recruiting into key roles all of which put service delivery at risk.
  - Equity and Transparency: Pay equity, fair classification, and consistent hiring practices are more than just best practices, they build trust, reduce risk, and support a strong organizational culture.
  - **Fiscal Stewardship:** Compensation studies don't automatically mean large raises. Instead, they offer structured, phased, and fiscally responsible recommendations to better align pay with market value and internal equity.
  - Modern Workforce Expectations: Today's employees value transparency, growth, flexibility, and fairness all attributes that rigid, legacy systems often fail to deliver without data-informed modernization.
- By engaging in and implementing a comprehensive, data-driven classification and compensation review, your organization demonstrates proactive leadership, protects long-term workforce capacity, and ensures alignment with both community expectations and fiscal responsibility.

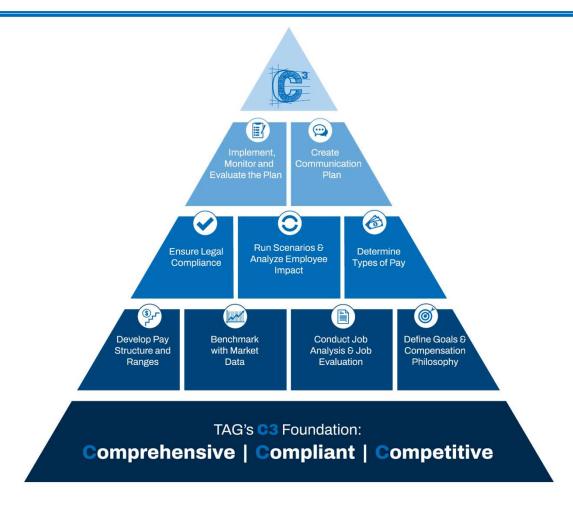

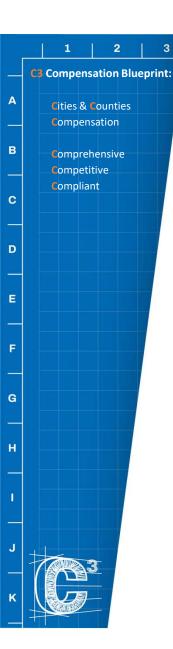

# **C3** Process & Project Overview

- Establish a system and method to positively impact recruiting and retention efforts
- 2. The C3 Blueprint is a best-practice approach to compensation
  - Ensures compensation is competitive in the local market
  - Supports fair, consistent, and appropriate pay adjustments and decisions
- 3. Address overall market adjustment to current base wages
  - Employment Journeys
    - External RTV experience/skills as well as full internal employment journeys
- 4. Deliverables will include:
  - CompBook Designed and built specifically for each client
  - Roll-out recommendations to include timelines, plan implementation steps, compensation administration policy, and related communication messaging

# Compensation Plan | RTV for Pay Scale Alignment

**Pay Scale Alignment** is a critical component of strategic compensation management. It ensures that employee pay is fair, competitive, and aligned with business goals. By implementing structured pay grades, defined pay ranges, and consistent progression criteria, the organization achieves:

- Fairness & Equity: Aligns pay with job responsibilities and employee experience, fostering trust and minimizing internal disparities.
- Market Competitiveness: Keeps compensation aligned with external benchmarks to attract and retain top talent.
- Transparency & Engagement: Provides employees with clear expectations for growth and earning potential.
- **Operational Consistency**: Standardizes pay decisions for promotions, transfers, and hiring, reducing risk and enhancing compliance.
- **Financial Discipline**: Enables proactive workforce planning and cost control through predictable, scalable compensation structures.

Aligned pay structures support talent strategy, reduce turnover, and strengthen organizational performance.

# Wage & Salary Administration | Bridging the GAP

- A. Employee Wage Compression / Pay Misalignment (and why it's a problem)
  - Hurts morale among longer-term or more experienced employees
  - Leads to high turnover... especially if people feel undervalued
  - Affects team dynamics, especially if EEs doing more complex work aren't paid accordingly
- B. Employee Journeys
  - External RTV Experience/Skills
  - Internal:
    - Promotions
    - Transfers
    - Demotions
    - Market Adjustments

# C. Pay Scales

- Current Employees: Full Employment Journey Current Pay Alignment
- New Employees: Starting Pay Rate Alignment
  - Different starting pay rates based on relevant & transferable experience/skills

# Built on Core Compensation Framework Integrated - Maintains Consistency Market-Specific & **Operational Flexibility** Guide Positions in Same Base Grade to be Compensated Differently Internal Equity Maintain fairness (PFA) Market Responsiveness Tailored adjust. for roles w/ atypical labor market conditions Administrative Simplicity Unified structure Clear notation for flexibility Supports growth and workforce segmentation w/o restructuring full

# Wage & Salary Administration | Job Identifiers

Strategic, data-driven job identifiers are built on core framework

- Point Factor Analysis (PFA) = Base Job Grade
  - Pay ranges for base grades remain constant across the organization, preserving internal equity alignment
- Each job is assigned to a base job grade and may include a job identifier reflecting its workforce segment or market category/geography
- Job identifiers allow for strategically designed variation within the core compensation framework and base job grades:
  - C Corrections
  - D Dispatch / Communications
  - F Fire / EMS
  - M Hybrid / Mixed Market Positions
  - O Other Critical Identified Roles
  - S Sworn / Law Enforcement

# Wage & Salary Administration | Sample Policy

### **Policy**

The Organization aims to attract and retain qualified employees at all levels by offering fair and competitive salaries that align with the organization's economic needs and reflect the community's standards.

# **Objectives**

- 1. To enhance employee performance, morale, and loyalty through fair and equitable salary administration.
- 2. To ensure consistency and fairness within all departments and divisions of the organization.
- 3. To maintain competitiveness by aligning compensation with current market pay rates.
- 4. To effectively manage payroll costs and salary expenditures.
- 5. To recognize and reward individual performance and abilities.
- 6. To standardize salary rates and methods for establishing, classifying, and promoting employees.

## **Additional Components**

Additional language recommended to promote a transparent and consistent compensation structure policy through a set of guidelines and rules that define how employees are paid and rewarded for their work.

Defined strategy to assist in attracting and retaining talent, aligning your pay practices with your business goals, and foster a culture of fairness and trust.

| Cumulative Effect of COLA with Step Increases  1. Most EEs will also receive step increases annually.  2. COLA stacks on step increases, leading to a compound effect on pay.  3. Maintains internal equity and external competitiveness. | <ul> <li>□ Performance Eval: Satisfactory</li> <li>□ No Performance Demerits: Past Year</li> <li>□ Meets Attendance Standard: PTO</li> </ul> |  |  |  |  |  |  |  |  |

# Predictable Budgeting: Plan Ahead Maintain Cash Flow Why It Matters? **Ensures Financial Stability** Supports Long-Term Workforce Planning Helps Manage **Compensation Equity** Aligns w/ Business Strategy **Builds Trust with Employees** Improves Stakeholder Confidence Supports Market & Merit Adjustments Prevents Overpromising Helps Avoid Reactive **Decision-Making** G

# Annual Budgeting | Forecasting w/ Confidence & Predictability

# 2026

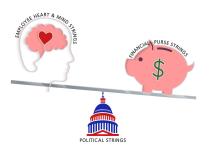

Grade / Step Progression (Performance) +\$110,199

# Beginning in 2027

Pay Scale Maintenance (PSM)

COLA / CPI

Grade / Step Progression (Performance)

# **Out Year Impact Examples:**

Annual Pay Scale Maintenance (PSM):

- Compensation Policy
  - Recommended Annual PSM Minimum: 1.00%
- Midwest CPI Rolling 12 Months = 3.00% (WAG), but we can be optimistic for a 2.00% target

2026: 3.00% PSM | 2027: 3.00% PSM

Budgeted Pay Impact Examples w/ Annual PSM and Grade/Step Progression (Avg. 1.99%):

- 2026 Step Increases (w/ no PSM for 2026):
  - \$140,590 (1.99% Effective Impact)
- Example 1 (low-low):
  - 2027 1.00% PSM: \$244,696 (2.99% Effective Impact)
  - 2028 1.00% PSM: \$252,012 (2.99% Effective Impact)
- Example 2 (low-mid):
  - 2027 1.00% PSM: \$ 244,696 (**2.99% Effective Impact**)
  - 2028 2.00% PSM: \$336,297 (3.99% Effective Impact)
- Example 3 (low-high):
  - 2027 1.00% PSM: \$ 244,696 (**2.99% Effective Impact**)
  - 2028 3.00% PSM: \$420,582 (4.99% Effective Impact)

# Strategies for Consideration: Modernize Comp and Benefits Invest in Recruitment and Branding Enhance Workforce Flexibility Develop Internal Talent Adopt Strategic Workforce Planning Improve Organizational C Culture Leverage Partnerships and **Shared Services** Update Policy Constraints E G

# In the News...

- 1. Howard County, NE (2025): The Howard Co. Sr. Center temporarily closed in April 2025 due to inability to hire essential staff, including a cook and site director.
- 2. Geary, OK (2024): In October 2024, the entire police department of Geary, Oklahoma, resigned, including the chief of police. The resignations were attributed to the town's failure to meet the department's needs, including inadequate support and resources from political leaders.
- 3. Marble Hill, MO (2024): In August 2024, all members of the Marble Hill Police Department resigned due to budget constraints. Police Chief Kristin Nenninger stated that the city's budget cuts made it impossible to support her officers and provide adequate law enforcement services to the community.
- 4. Goodhue, MN (2023) Entire Police Department Resigns Over Pay Concerns: In August 2023, the entire police force including the police chief, one full-time officer, and five part-time officers, resigned citing low wages and the demanding nature of the job. Police Chief Josh Smith highlighted the difficulty in recruiting officers at the offered wage of \$22 per hour, which was below the national average for law enforcement officers. Despite a recent raise, the compensation was insufficient to retain staff. The city, with a population of about 1,000, had to seek assistance from the Goodhue County Sheriff's Office for interim law enforcement coverage.
- 5. Independence, KS (2023) Tag Office Closure: On June 21, 2023, the Independence Auto Tag Office closed temporarily because of insufficient staffing. The Montgomery County Treasurer's Office announced the closure, citing the inability to maintain operations without adequate personnel.
- 6. Nicholls, GA (2022): In June 2022, the entire police force resigned within the same week. Police Chief Billy Ray Fields and his staff cited a lack of manpower and a strict budget as reasons for their departure. The Coffee County Sheriff's Office stepped in to provide law enforcement coverage
- 7. Kenly, NC (2022): In July 2022, the entire police department including the police chief and four officers, resigned. The resignations were due to a hostile work environment created by the newly appointed town manager. The Johnston County Sheriff's Office provided interim law enforcement services
- 8. Ashland and Bayfield Counties, Wisconsin (2022): These northern Wisconsin counties explored merging their 911 dispatch centers due to staffing concerns, commissioning a feasibility study to assess the potential consolidation aimed at improving service efficiency.
- 9. Kimberling City, MO (2021): In August 2021, the entire police department resigned, including the police chief and three officers. The resignations were attributed to poor pay and inadequate resources to perform their duties effectively. The Stone County Sheriff's Department took over law enforcement responsibilities.

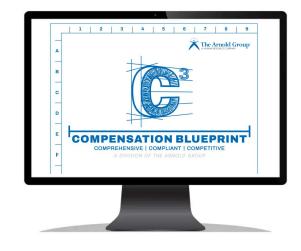

#### **Broader Trends:**

- National Association of Counties: Local governments have faced a workforce shortage of approximately 100,000 jobs, affecting the delivery of
  essential services.
- National League of Cities: Reported a decline of over 300,000 local government workers between March 2020 and March 2022, with ongoing challenges in recruitment and retention.
- Public Sector Vacancies: Counties across the Midwest are struggling to fill public sector positions, with turnover rates in state and local governments now twice as high as the average over the past couple of decades, in some places topping 25 percent.
- Staffing shortages have impacted various sectors, including public health, law enforcement, emergency services, and infrastructure maintenance, prompting concerns about community well-being and resilience.
