Re: State Rehabilitation Tax Credit application for the *Burford Commercial Building* located at 110A-118 S. Summit in the Arkansas City Commercial Center Historic District in Arkansas City, Kansas. Kansas Rehabilitation Tax Credit Project #1935 - roofing

Dear Ms. Hofmeister,

The Kansas State Historic Preservation Office (SHPO) has received information regarding the rehabilitation plan for the above-named property. The project scope of work, as submitted in the Kansas Rehabilitation Tax Credit Part 2 application, appears to meet the Secretary of the Interior's *Standards for Rehabilitation* if the following conditions are met:

New roofing or flashing materials must not be installed over the top or exterior facades of the existing masonry
parapets. Photographs documenting compliance with this condition must be submitted with the final application
for certification of completed work.

When work is complete, please submit the Part 3—Certification of Completed Work application form, photographs documenting the completed work, KDOR Schedules I and II, and copies of the invoices to the SHPO office. Upon completion of the project and submission of the Part 3 application, SHPO will verify that all work has been done per the *Standards* and the eligible expenses will be certified.

Please notify this office immediately of any changes to the rehabilitation plan. Changes to the plan, including additional work, must be submitted for review and approved by the SHPO <u>before</u> they are undertaken to qualify for tax credits. Any completed work that does not meet the *Standards* may result in the loss of credits for the entire project.

This approval does NOT serve for purposes of review under the Kansas state preservation law (K.S.A. 75-2724). This project may be subject to additional regulations, statutes, or ordinances locally as well. Please contact your local permitting office for information about any additional review requirements. If you have any questions concerning the review of this project please contact Katrina Ringler at 785-272-8681, ext. 215 or at <a href="Katrina.Ringler@ks.gov">Katrina.Ringler@ks.gov</a>.

Sincerely,

Patrick Zollner

Deputy State Historic Preservation Officer
