

# Planning Commission Agenda Item

**Meeting Date:** 9/13/22  
**From:** Josh White, Principal Planner  
**Item:** Comprehensive Plan discussion

**Purpose:** Comprehensive Plan discussion

**Background:**

At the July meeting, we discussed this Parks and Recreation. Due to the length of the meeting agenda we didn't quite finish the discussion. At this meeting, we'll plan to wrap it up by developing some goals and actions. In October we'll plan to move on to Infrastructure and Transportation. We'll plan on Community Health in November and Land Use in December. At this point, it's probably not feasible to hold a public hearing before the end of the year. We should however be able to hold it in January with possible adoption in February by the City Commission. At that point, I think it will be time to take a break from so many regular meetings but we will need to start work on amending the zoning and subdivision regulations to match the changes made to the Comprehensive Plan. I'll look to do that in the Spring/Summer of next year.

**Action:**

Hold discussion.

**Attachments:**

**Draft Parks, Recreation and Natural and Historical Resources Chapter**
