Subject: My brothers keeper denial

Hello,

I am writing in hopes to express my concern with the My Brothers Keeper housing. I would not feel comfortable living close to this housing and do not feel that our community is the right place for this. I am hoping this gets denied. We have no grocery stores, access to widespread work, transportation, or other amenities. I also feel our safety would be in jeopardy with this type of housing. We pay very high taxes to live in the village and I feel this is not a benefit to our resale of our housing or a benefit of paying such large taxes to live in this small protected community. Whatever I can do to make sure this doesn't happen I would appreciate it.
