Meeting Date: January 30, 2024

Speed Hump Request for Fairington Drive

Department:	Engineering & Environmental Services
Presenter:	Dr. Hameed Malik, Director
Caption:	Approve the installation of twelve (12) speed humps along Fairington Drive between Tobacco Road and Teakwood Drive per adopted Augusta speed hump policy. Approve construction funds in the amount of \$54,000. Requested by Augusta Engineering & Environmental Services Department
Background:	The residents of this area requested to go through the speed hump process. The speed survey showed that the majority of the vehicles traveling along this street section were going 10 mph over the posted speed limit. Over 51% of the property owners adjacent to Fairington Drive signed the required petition. Augusta Engineering will install up to 12 speed humps per Augusta policy.
Analysis:	Based on current cost of materials and labor, the price to install one standard speed hump is approximately \$4,000. Per the adopted policy, twelve (12) speed humps will be installed to calm traffic and reduce overall vehicle speeds.
Financial Impact:	Adequate funds are available, and expenditures of this amount will leave enough funding for other traffic calming projects throughout the remainder of this fiscal year.
Alternatives:	Do not approve installation of speed humps along Fairington Dr
Recommendation:	Approve the installation of twelve (12) speed humps along Fairington Drive between Tobacco Road and Teakwood Drive at a cost of approximately \$54,000.
Funds are available in the following accounts:	(\$54,000) 101041710-5319160 – Traffic Operations budget
