Background:	<p>The 5th Street Improvements is a project from the “Approved Investment List” of TIA that was approved by voters of the CSRA in the July 31, 2012 referendum. The 5th Street is a Band 3 project. The project improvements consist of improving roadway safety by resurfacing, reconstructing the existing curb and gutter, replacing sidewalks and improving the storm water system. The project will improve pedestrian safety at intersections with new high visibility crosswalks and organize the existing parallel parking. The project is in letting and construction and will commence soon. Construction Phase requires design related coordination with utilities, resolution of constructability conflicts, review of contractor construction documents submittals, and request for field information (CEI) that warrants design engineer services.</p>

Alternatives:	<p>Do not approve and find alternative to perform CEI services.</p>
