Subject: RE: Justification - Hydro Excav

Bid # 25-162

This equipment, selected by ITB process, will be used by Augusta Utilities for field work pertaining to specific residential water infrastructure projects. This equipment is a tow-behind model that is right-sized for in-and-around residential water meters to hydro-excavate meter boxes of excess dirt, sand, silt, clay, and other non-sanitary debris. This equipment will be heavily utilized in upcoming projects, such as the Lead/Copper Rule Improvements (LCRI) and the Utilities' Meter AMI project. The Meter AMI project is projected to be a 5-year project and this equipment will be relied upon for daily use.

Subject: Justification - Hydro Excav

Michael ,

I am working on the agenda for the hydro excavator. Can you give me a justification for this purchase?
