MEMORANDUM

FEB 21 '25 AM 10:00

TO: Darrell White, Interim Director, Procurement Department *D White*
FROM: ~~Ron Lampkin~~, Interim Director, Central Services Department *2/21/25*
DATE: February 17, 2025
SUBJECT: Recommendation for Bid #25-138 – 2024/2025 5,000 LB Forklift

Fleet Management reviewed the vendor bid proposals for bid #25-138, 5,000 LB Forklift and would like to recommend the bid to Atlanta Fork Lifts Inc. of Augusta, GA.

Atlanta Fork Lifts Inc. bid offer meets all the requirements of the bid specifications. Chaves Brothers of Boca Raton, FL and Shea Tractor and Equipment Company. Inc. of Statesboro, GA proposals were lower than Atlanta Forklifts; however, the models proposed included an exception for drum brakes and the requested specifications stated wet disc brakes.

The wet disc brakes provide a superior performance for durability and heat management. The wet disc brakes are rated as heavy-duty lifting and are submerged in oil for cooling that will have a longer lifespan. According to the department, this machine is primarily utilized in a non-climate-controlled environment and unloads raw product (pipe, fire hydrants, manhole lids, etc.) off delivery trucks which would be at the maximum weight and incurs a lot of repetitive back-and-forth stop-and-go motions.

Please advise this office upon completion of notifications so that we may proceed with the acquisition process.

If you need further information or if you have any questions regarding this recommendation, please contact the Fleet Management Office at 706-821-2892.

GOVERNMENT SALES QUOTE

State of Georgia Vendor # 10755

We respectfully submit this quotation for the following **NEW Toyota 5,000# Capacity Internal Combustion Lift Truck (1 each):**

Toyota...Proud to be the world's #1 forklift manufacturer!

TOYOTA MODEL 50-8FGU25, Internal Combustion Lift Truck, quality engineered with the following specifications:

- **Pneumatic Tires**
- **LP Gas Powered - UL Type "LP" Rating**

This forklift is equipped with a 3-Way Catalytic Muffler System as standard equipment, and conforms to current Federal EPA and California ARB regulations for off-road large spark ignited engines.

SYSTEM OF ACTIVE STABILITY™ (SAS)

Toyota's industry exclusive System of Active Stability (SAS) helps reduce lift truck instability by electronically monitoring and controlling various functions of the lift truck.

- **Active Control Rear Stabilizer:**
Various lift truck sensors simultaneously monitor vehicle speed, fork height, load weight, and vehicle yaw (or angular acceleration). Should the operator inadvertently place the truck in a potentially unstable lateral condition, the sensors trigger the SAS controller to activate the Active Control Rear Stabilizer to help reduce the likelihood of a lateral tip over. (Note: Does not apply to dual drive configured models)
- **Active Mast Function Controller (AMC):**
Should the operator inadvertently place the lift truck in a potentially unstable longitudinal condition, these same sensors trigger the SAS controller to activate the AMC, which limits forward tilt and/or tilt back speed to help reduce the likelihood of a longitudinal tip over.

Photo may portray optional equipment not included in your quotation.

AUTOMATIC FORK LEVELING

Toyota's Automatic Fork Leveling feature increases productivity while reducing damage with a push of a button. By depressing the Automatic Fork Leveling button during forward tilt, operators are quickly and easily able to level the forks.
